

TOWN OF FRAMINGHAM MASSACHUSETTS

Annual Report Year Ending December 31, 2011

Framingham's Town Seal: In the year 1900, the Framingham Town Seal was redesigned for the Town's bicentennial to recognize our community's prominence in education and transportation. The Framingham State Normal School, a free public school and the first of its kind in America, is represented by the structure at the top of the design. Governor Danforth, the founder of Framingham and owner of much of its land, is acknowledged by the words "Danforth's Farms 1662" on the shield at the center. The wheel on the shield with spokes drawn as tracks radiating in six different directions represents the steam and electric railroads and signifies the Town's position as a transportation hub. Surrounding the words "Town of Framingham Incorporated 1700" is an illustrative border of straw braid, which honors the prominent role Framingham played in the manufacture of hats and bonnets in the 1800s.

Dedication

September 11, 2011 marked the 10th anniversary of the 9/11 terrorist attacks against the United States of America. While many lives were lost that day, the Town of Framingham would like to dedicate the 2011 Annual Town Report to the 17 residents of Framingham who had their lives cut short on that fateful morning 10 years ago.

In 2011, the Town of Framingham experienced many highs and lows, the community suffered tragedy and triumph, and through it all, the residents, businesses and municipal employees persevered.

During a SWAT Team drug raid in January, an officer's firearm accidently fired. Eurie Stamps, a resident of the Town, was killed as a result. This accident led to many questions and concerns by the community which triggered the creation of a separate, nonaffiliated investigative committee that was formed by Police Chief Steven Carl. committee created a list of ways in which the Police Department and the Town could avoid incidents like this in the future and developed a plan to help heal the community. report was given to the Board as well as a large contingency of the community. tragedy has turned into an opportunity to unite the community and work towards healing the wounds created by this incident. The Board has coordinated with the Framingham Coalition in the organization of community meetings that will be held in several neighborhoods to work on unifying

the community and overcoming this tragedy as a community.

During the early months of 2011, Framingham experienced many winter storms that caused a great deal of snow and ice buildup. The removal of this snow and treatment of icy roads caused a financial burden for the Town as well as a strain on DPW resources. We would like to thank the DPW for their hard work during these storms and continued dedication to the Town of Framingham by keeping our roads clear and safe for school buses and residents.

2011 also saw many infrastructure improvements within the Town including a massive water/sewer line replacement project commissioned by the Department of Public Mass DOT also shared in this endeavor as much needed repairs were made to the Fountain Street Bridge and discussions were begun regarding potential repairs to other bridges within the Town during the While these projects will upcoming year. greatly benefit the Town of Framingham they are not without headache. Much concern and aggravation has been created as a result of these projects and we would like to thank the residents of the Town who are impacted on a daily basis for their continued patience and understanding during the construction season. The board continued to work on creating good will between the Schools and Town Departments as well as an agreed upon budget by all departments and the School This Committee. budget allowed Framingham to continue to invest in our Town and our Schools. The board will work to continue this era of good will between the groups and we are looking forward to

Town of Framingham

working along with the School Committee in the future.

Framingham also experienced a change in leadership as Town Manager Julian Suso's tenure came to an end on October 31st. His departure created a large vacancy that was filled by Town Clerk Valerie Mulvey. Valerie stepped up, like she did in 2006, and agreed to become the Interim Town Manager in October. Valerie has helped move the Town forward once again as she did in 2006, Valerie has done a great job during her interim position and the Board would like to thank her for her dedication to the Town of Framingham.

The Board of Selectmen recently responded to the complex and multidimensional tax/assessment issue with a 6 point plan to address this issue and in particular, the questions raised by Board members and the public at large. First and foremost our plan prioritizes the need for an objective and thorough review of the Town's assessing process and specific recommendations for improvement or alteration, based upon the results determined. This plan also includes steps to consider available options for short as well as long term solutions for residential property tax relief. We need to stay focused on this plan and not get derailed. It is our hope that we can all work together -in a respectful and cooperative manner. Board began working with the EDIC, Community and Economic Development, Planning Board and the Town Manager's office on creating new ways to revitalize not only the downtown but all of Framingham's commercial districts and will continue to do so in the up-coming year.

Through 2011, the Board and SMOC worked towards creating a new working relationship. This began with the appointment of Joan Rastani to the SMOC Board of Directors as the Framingham representative. We believe Joan will bring fresh ideas and leadership to the SMOC Board and represent Framingham in a manner we may all be proud of.

A major project commissioned by the Board during 2011 was the revitalization of the Nobscot Shopping Plaza. The Board has hosted a number of public meetings with residents and business owners of the Nobscot property and asked for their feedback in what they would like to see in their community and neighborhood. Mt. Wayte Shopping Plaza is a high priority as well and the Board hopes to create a working plan with the management group of this facility as well during 2012.

At the Annual Town Meeting in April an article sponsored by the Board of Selectmen creating the first Sex offender by-law within Framingham was passed and sent to the Attorney General for certification. Attorney General notified the Town on December 20th that this by-law had been certified and was able to go into effect. A great amount of debate took place on Town Meeting floor regarding this by-law and the Board would like to thank Town Meeting Members for their input and ultimate passing of this article. This by-law will protect our residents against sex offenders and give the Police Department greater capability in protecting all residents of Framingham and continuing to keep our streets safe.

In 2011, the State passed the Municipal Health Care Reform Law which allowed the Town to negotiate new health care plans with all union and non-union employees. This has allowed Framingham to experience savings in year one estimated at \$1.7 Million and will lower the base \$2.4 Million in subsequence years. The Board would like to thank Town Counsel Chris Petrini and his staff, CFO Mary Ellen Kelley, Former Town Manager Julian Suso and Assistant Town Manager David Williams for their efforts in obtaining these savings for the Town of Framingham.

Last but not least, the Board of Selectmen would like to thank the many individuals within the Town who work tirelessly to move Framingham forward and create a better community for tomorrow that we all may be proud to reside in. We would like to thank all

Town of Framingham

the employees of the Town of Framingham for their dedication to "Excellence in Public Service". We would especially like to thank the employees located in the Board of Selectmen's office, Cherry Manuel, Maryellen Rupp and Thomas Begin, for their hard work and dedicated service to the public, the Town Manager and the Board of Selectmen. Finally, a special thank-you to all the residents of

2011 Annual Town Report

Framingham for your trust and loyalty to the Town of Framingham and for giving us the honor of representing you on the Board of Selectmen.

Respectfully submitted, Jason Smith, Chairman Board of Selectmen

<u>Town Manager</u>

Memorial Building, Rm 121 | 508-532-5400 | town.manager@framinghamma.gov

It is my pleasure to present this Report for calendar year 2011. Be advised that this Report is intended as a brief summary only. More comprehensive, detailed information on all town activities is available elsewhere in this Annual Town Report.

During the past year the Town has:

Hosted meetings with our major corporations to maintain and promote a strong working relationship with our largest employers;

Continued Town participation on the Tech Park Advisory Group;

Initiated an ongoing dialogue with the School Superintendent and the new president of MassBay Community College to identify and reconcile the needs of both MassBay and the School Department for use of Framingham School buildings;

Worked with MassDOT to encourage stabilization of the Rugg Gates properties and transfer ownership to the Town;

Participated in working groups to identify approaches to protect Eastleigh Farm from development;

Coordinated Town's efforts to successfully protect a \$4.5 million federal earmark for downtown improvements and to encourage the State to continue to address the

overarching issue of the downtown rail crossings.

The Town Manager's Office was also involved throughout the year with negotiations on all collective bargaining contracts, which includes employee health insurance negotiations with the Public Employee's Committee (PEC). A cooperative effort resulted in an agreement that will save taxpayers millions of dollars in the coming years, with a projected savings of \$1.4 million savings through Fiscal Year 2013.

In 2011, two other major, multi-departmental initiatives were implemented with the involvement of the Town Manager's Office and Board of Selectmen. One initiative involved working with the School Department to privatize the School Transportation function. The other initiative was a change in the Town's property and liability insurance carrier. These two efforts saved the taxpayers approximately \$2 million in the first year of implementation.

Thank you to the Board of Selectmen for their leadership and support during 2011. I strongly commend my colleagues, the Division and Department Heads comprising Framingham's excellent administrative team, for their extraordinary commitment and collaborative spirit in providing high quality local government services to our taxpayers during a continuing time of considerable fiscal distress. I thank Town Meeting for its

3

Town of Framingham

communication, engagement and budget support for the many Town services which we are so privileged to deliver to fellow residents of the Town of Framingham. I thank former Town Manager, Julian Suso, for his efforts on behalf of the Town during his tenure from June 2006 through October 2011.

Thank you to Assistant Town Clerk Lisa Ferguson, Election Coordinator Lauren DiGiandomenico, and Administrators Emily Black and Elena Finehouse for maintaining the operation of the Town Clerk's Office during my absence as they continued to provide excellent public service despite being short-staffed for an unexpected, extended period of time.

2011 Annual Town Report

I am especially grateful to Thomas Begin, Cherry Manuel and Maryellen Rupp for their invaluable assistance to me during this time of transition. They are the welcoming faces of the Selectmen/Town Manager's Office. They treat our public with respect, understanding, and kindness while providing useful information or direction in response to any problem or question posed to them.

I thank Town Counsel Chris Petrini and Assistant Town Manager, David Williams for their wisdom, support and guidance during my tenure as Interim Town Manager.

Respectfully Submitted, Valerie Mulvey Interim Town Manager

<u>Town Clerk</u>

Memorial Building, Rm 105 | 508-532-5521 | townclerk@framinghamma.gov

The Framingham Town Clerk's office is the largest joint clerk/election operation in Massachusetts. We are also one of the busiest Clerk's offices in the state. The presence of a birthing hospital, numerous nursing homes and assisted living facilities and a population of over 68,000 residents contribute to the substantial work load.

Assistant Town Clerk Lisa Ferguson manages our daily operations and instructs and supervises staff. Lisa directed the Town Clerk and Elections Departments in November and December while I served as Interim Town Manager at the request of the Board of Selectmen.

The Town Clerk Department is responsible for creating and preserving the Town's vital records. The two administrators are Emily Black and Elena Finehouse. Their primary responsibilities are customer service and processing vital records. In 2011, we registered and issued 953 birth certificates, 670 death certificates, 466 marriage licenses, 3565 dog licenses and 605 business certificates. Other responsibilities include: processing

requests; issuing underground storage tank permits; collecting fines for the Board of Health, Conservation Commission, Police Department, Building and Public Works Departments and Animal Control; maintaining all permanent Public Way Access Permits, Zoning Board of Appeals, Planning Board, and Historic Commission decisions and appeals; conducting genealogy searches; posting meetings and meeting minutes and issuing raffle permits. Our 2011 revenues were \$239,108.

Lauren DiGiandomenico is the Election Coordinator. The Election Department is responsible for: conducting elections and the Annual Town Census; maintaining the Town's voter/census data base and its related street listing; recording town meeting votes, filing Town Meeting original documents, preparing the Attorney General Bylaw submissions and posting the bylaws when they are approved. The Annual Town Election was held on April 5th. 4,732 people, 13% of our electorate, voted town wide.

4

The Annual Town Meeting met over twelve nights in April and May. Four Special Town Meetings were held on January 12th, May 5th, June 21st and October 18th.

Our population grew from 66,910 to 68,318 as a result of the 2010 Federal Census. The boundaries of nine of our eighteen precincts changed due to population shifts. All twelve town meeting seats in each of these nine precincts will appear on the Town Election ballot in 2012. I am grateful to Geoff Kovar, GIS specialist for his valuable assistance with our re-precincting efforts. DPW Director Peter Sellers and Town Engineer Jeremy Marsette allowed Geoff to assist us in 2011 as they did in 2010. This saved us considerable time and effort.

The Board of Selectmen, Town Officials and Town Meeting Members provide consistent support to this office; it is a genuine pleasure to work with them and with all those who participate in our government. Town employees are always

professional, knowledgeable and willing to help. We are grateful to Carly Premo Melo and the Technology Services staff for automating many of our operations and Jim Egan and the Building Services staff for facilitating the Town Election. We are not charged to use Keefe Tech or St. Tarcisius Parish Center as polling locations; nor are we charged for the use of St. Stephen's parking lot on election days. Our poll-workers continue to work long days to ensure that the public is well served when they vote. Through the Senior Tax Relief Program, we were fortunate to have the help of Chet Fenno. Finally and most importantly I thank and commend my small, dedicated staff for their hard work, professionalism and knowledgeable, friendly attitudes when dealing with the public. They exemplify the Town's commitment to excellent customer service.

Respectfully submitted,

Valerie Mulvey Town Clerk

Town Counsel Memorial Building, Rm 127 | 508-532-5406 | cpetrini@framinghamma.gov

I. Introduction & Overview

Petrini & Associates, P.C. ("P&A") is pleased to provide the 2011 Annual Report of the Office of the Town Counsel. P&A operates the Office of the Town Counsel in accordance with Article II, Section 5 of the General Bylaws. We represent the Town in litigation and appear on behalf of the Town before all courts and administrative agencies of the Commonwealth. In addition, we serve as a liaison and a resource to various special counsel and insurance counsel representing the Town in a variety of legal matters. We also attend meetings of boards, committees and commissions of the Town that we are requested to attend. P&A also drafts legal documents for Town officials, boards and commissions upon request, and reviews legal contracts, deeds and agreements to which the Town is a party. We provide advice and opinions to the Board of Selectmen, Town Manager, and various boards, committees, commissions, division heads and department heads in accordance with the Town bylaws and the Policy on Access to Town Counsel.

In our capacity as Town Counsel, we also attend the Annual Town Meeting and all special town meetings and we are available to provide opinions at such meetings upon request. We also review all non-petition warrant articles prior to inclusion in the warrant, and are available to review and

comment upon written motions submitted in advance upon request in conjunction with specific warrant articles.

Over the past several years, this office has handled the Town's significant volume of litigation with efficiency, focus and positive results. Included in **Section II** of this report is a comprehensive list describing the status of cases that were active in 2011, as required by Article II, Section 5.8 of the General Bylaws. Included in **Section III** of this report is a Budgetary Overview section that summarizes the revenue, mitigation and avoided expenses that this office has helped achieve for the Town in 2011.

II. 2011 Report on Status of Framingham Cases

In accordance with Art. II. Sections 5.8 and 1.5 of the General Bylaws, below is a list of the Framingham cases that were active in 2011. I have included the case name, type of case, and a brief description of the case with the 2011 activities summarized in the last column on the right. This section is divided into two parts. **Part A** summarizes cases are handled by this office, and **Part B** summarizes cases handled by special counsel or insurance counsel.

A. OFFICE OF TOWN COUNSEL CASES

<u>MATTER</u>	TYPE	2011/2012 STATUS/DISPOSITION
Boston Properties Limited Partnership v. Framingham	Contract	This case concerns a suit by Boston Properties against the Town to recover \$175,000 in funds from a failed development near Mass Pike Exit 12. Under a 1999 development covenant executed by Boston Properties, it agreed to provide \$350,000 to the Town provided that certain contingencies occurred, namely the issuance of certain permits for the development. The development failed and Boston Properties is now seeking this money back, claiming the contingencies never occurred. The litigation centers around

		whether the contingencies occurred or did not occur. The Town's position is that the contingencies occurred based on certain site preparation and demolition that occurred on the property, as well as the moving of the historic Rugg-Gates House. Presently the parties are engaged in discovery, which ends in 2012, to likely be followed by cross-motions for summary judgment by both the Town and Boston Properties.
Carney v. Town of Framingham	Wetlands	This case involved the Conservation Commission's efforts to enforce wetlands violations committed by William Carney of 32 Parker Road. The Commission found that Mr. Carney had clear cut numerous trees and dumped brush within a wetlands resource area located on 28 Parker Road, 30 Parker Road, and 32 Parker Road. The Commission issued an enforcement order on April 2, 2008 and an amended enforcement order on June 4, 2008. Mr. Carney appealed the enforcement order(s) to the Superior Court under the certiorari statute, G.L. c. 249, § 4. The Superior Court entered judgment in the Town's favor as to all claims, and the plaintiff appealed this judgment to the Massachusetts Appeals Court. The Appeals Court issued a ruling on July 11, 2011 affirming the Superior Court's judgment in the Town's favor. The plaintiff filed an application for further appellate review with the Supreme Judicial Court, and, the SJC denied the application. Accordingly, this case has been fully resolved in the Town's favor and is now closed.
Corrado v. Town of Framingham	Wetlands	This case involves a certiorari appeal under G.L. c. 249, § 4 by the plaintiff, Thomas Corrado, of the Conservation Commission's issuance of a determination of applicability (the "Determination of Applicability") in which it found that the Property contains wetlands subject to the Bylaw and the Wetlands Protection Act. The Determination further required that Mr. Corrado provide a full and accurate wetland delineation plan, bring the Property into compliance with pertinent wetlands laws and regulations, secure proper review, approval and permitting to conduct future activities at the Property, and comply with an enforcement order that the Commission issued on November 19, 2008 determining that the plaintiff undertook unpermitted filling, tree cutting and grading activity on the Property in an Area Subject to Protection in violation of the Bylaw. The Commission filed a counterclaim seeking an injunction requiring the plaintiff's compliance with the enforcement order. On November 10, 2010, the parties filed a stipulation of dismissal whereby the plaintiff withdrew his appeal with prejudice, thereby affirming the terms of the Determination of Applicability. Rather than dismiss the counterclaim, however, the stipulation allowed the counter-claim to continue so that the Commission can ensure that Mr. Corrado brings his property into compliance. Subsequently, on January 19, 2011, the Commission

CSE Framingham LLC v. Town of Framingham		issued a further enforcement order that superseded the first to address new and presently existing violations at the Property. In August of 2011, the Commission filed an amended counterclaim to request an order requiring Mr. Corrado's compliance with the Second Enforcement Order. The Commission intends to move for summary judgment as to its counterclaim in 2012. This case matter involves a challenge by CSE, the current developer of the Danforth PUD (successor to Pulte Homes and before Pulte, National Development of New England), of the Conservation Commission's January 6, 2010 vote denying CSE's application to perform certain work in the wetlands area in connection with its proposed development project located at Riverpath Drive. In its denial order, the Commission found that CSE had failed to provide minimum fundamental information and materials necessary to enable the Commission to approve an order of conditions. CSE filed a motion for judgment on the pleadings, which the Town opposed. In December of 2011, the Superior Court issued an order and written decision denying CSE's motion and dismissed the case. CSE appealed the Court's ruling to the Appeals Court. We anticipate that the Appeals Court will receive
DPW Local 1116 v. Framingham (Robert Fish Grievance Arbitration)	Labor	the parties' briefs and schedule oral argument in 2012. This case concerns the January 2011 termination of Robert Fish, who was the Recycling Center Supervisor and a member of DPW Local 1116. The Union filed a grievance on Mr. Fish's behalf alleging that the Town terminated Mr. Fish without just cause. The Union petitioned for the matter to be resolved by arbitration through the Division of Labor Relations, a state agency that is authorized to arbitrate public employee labor disputes. The arbitration is scheduled for October 2012.
Fafard Real Estate Development v. Framingham	Land Use	This case arises from a request from Fafard Real Estate and Development Corporation, the developer of the Belport Farms Subdivision, that the Town accept DiTullio Drive as a public way, along with related infrastructure (including a sewer pump station that services the subdivision) and release a bond in the amount of \$25,000. The Town contended that it has no obligation to accept responsibility for operation and maintenance of infrastructure constructed by a private developer under a 1993 subdivision decision by the Planning Board and, further, that Fafard had not completed certain necessary improvements to the pumping station. Fafard commenced an action against the Town in the Land Court in June, 2010. In 2011, the parties engaged in mediation and reached a settlement whereby the parties agreed to share the costs of removing the pumping station and building a gravity sewer line. The case is now closed.

Framingham Firefighters (Local 1652) v. Town of Framingham (JLMC)	Labor	This case involves a petition filed in August, 2010 by the Framingham Firefighters' bargaining unit, Local 1652, to have the Joint Labor and Management Committee exercise jurisdiction over the parties' negotiation for a new collective bargaining agreement. The JLMC is a state body that intervenes in labor negotiations between municipalities and police and fire unions to attempt to resolve bargaining impasses through means such as arbitration or mediation. Local 1652 asserts that the parties have reached an impasse in negotiations with regard to wages, clothing, step raises, and placing stipend funds into the firefighters' base salaries. The Town agreed to submit to the JLMC's jurisdiction in this matter. Local 1652 and the Town recently participated in one unsuccessful mediation session before Brian Harrington and the JLMC voted to exercise jurisdiction for formal fact finding and arbitration. Prior to formal fact finding and arbitration, the Town and Local 1652 reached agreement on a new collective bargaining agreement, which was approved by Town Meeting on May 24, 2011. This case is now closed.
Framingham Police Officers Union v. Town of Framingham (JLMC)	Labor	This case involves a petition filed in August, 2010 by the Framingham Police Officers union to ask the JLMC to exercise jurisdiction over the parties' negotiation for a new collective bargaining agreement. Three mediation sessions before JLMC Mediator Brian Harrington did not yield a settlement and the parties participated in a formal fact finding arbitration before the JLMC on February 16, 2012. Following the arbitration, the JLMC will enter an award which will, subject to Town Meeting approval, become the new collective bargaining agreement between the Town and the FPOU for FY 2009-11.
Framingham Police Officers Union v. Town of Framingham (24-day work period ULP)	Labor	The Framingham Police Officers Union (FPOU) filed this unfair labor practice charge with the Massachusetts Labor Relations Commission, now the Division of Labor Resources (DLR), following the Town's issuance of correspondence to the FPOU in April of 2007 reaffirming the existence of the Town's 24 day work period pursuant to 29 USC 207(k) of the Fair Labor Standards Act. The FPOU's charge alleged that the Town's correspondence regarding the existence of the 24 day work period was a change in working conditions that required bargaining. Following the United States Court of Appeals for the First Circuit's order affirming summary judgment in the Town's favor in Calvao, et al. v. Town of Framingham, the United States District Court for the District of Massachusetts entered a Consent Judgment confirming the validity of the Town's 24 day work period for Framingham patrol officers under 29 U.S.C. § 207(k). Notwithstanding the Consent Judgment and the First Circuit decision that legally affirmed that the 24 day work period was effectively established in 1986, the Commonwealth Employment Relations Board (CERB) issued a

		Complaint of Prohibited Practice alleging that the Town improperly failed to bargain under state law in connection with the Town's implementation of its 24 day work period. The Town will oppose the Complaint before CERB when it is scheduled for a hearing.
FPOU E. Rivera Sick Leave Arbitration and Declaratory Judgment Action	Labor	In 2007 Patrolman Eduardo Rivera filed a demand for arbitration appealing a disciplinary suspension. The Town filed an action in Middlesex Superior Court to enjoin the arbitration on the grounds that the CBA expressly provides that the proper forum to appeal disciplinary decisions is the Civil Service Commission rather than arbitration. After the Superior Court granted the Town's motion for a preliminary injunction to enjoin the arbitration, the FPOU filed a motion for summary judgment on August 18, 2009. The Town opposed this motion and accompanied its opposition with its own cross-motion for summary judgment. On February 5, 2010, the Superior Court issued an order denying the FPOU's motion for summary judgment and granting the Town's cross-motion. The FPOU appealed the Superior Court's order to the Massachusetts Appeals Court. After briefs were filed and oral argument held, the Appeals Court issued a decision on September 29, 2011 affirming the order of the Superior Court. The FPOU did not seek further appellate review and therefore this case has been fully decided in favor of the Town and is closed.
Framingham Public Employee Committee	Labor	This case concerns the appeal of an arbitration decision issued in favor of the PEC over the Town's plan to implement different health insurance plans for new employees after January 1, 2010. The arbitration occurred in April and May 2010 and a decision in favor of the PEC was issued in August, 2010. The Superior Court denied the Town's motion to vacate the arbitration award and allowed the PEC's motion to confirm the arbitration award. The Board of Selectmen authorized an appeal of the Superior Court decision. Prior to proceeding with the appeal, the Town and the PEC reached agreement on health insurance benefits for 2011. This case is now closed.
Hess v. Zoning Board of Appeals	Zoning	Hess Corporation filed an appeal in February of 2009 of a decision by the Zoning Board of Appeals denying it a special permit modification for its gas station located at 272 Hollis Street. The Land Court held a trial in this matter on June 23, 2010. Following trial the parties filed post-trial briefs. (This is the second trial held in Hess Corporation's efforts to obtain permitting for 272 Hollis Street. The ZBA's denial of a special permit for this location was upheld at a trial held in 2006.) The Land Court issued a decision upholding the Zoning Board of Appeals decision to deny a special permit for the addition of a convenience store to the gas station. After Hess Corporation appealed the decision to the Appeals Court, the parties filed a notice of voluntary dismissal of the

		appeal dated June 7, 2011. This case has been fully decided in the Town's favor and is closed.
Levasseur v. Town of Framingham Conservation Commission	Wetlands	This matter arises out of the Conservation Commission's attempt to enforce wetlands violations at property owned by plaintiffs Roger and Dawn Levasseur at 49 Gates Street (the "Property"). The plaintiffs purchased the Property on or about December 12, 2008 from Leonidas and Elaine Exarchos. After conducting a review, the Commission concluded that the Property contains wetlands areas that have been disturbed, including by grass and fencing that was installed in connection with backyard expansion activities. The Levasseurs have alleged that the violations were committed by the Exharchoses or other prior owner(s) of the property. The Commission voted to issue an enforcement order on December 17, 2008, and issued a subsequent enforcement order (the "Enforcement Order") on January 7, 2009. The Levasseurs appealed the Enforcement Order to the Superior Court under the certiorari statute, G.L. c. 249, § 4. Thereafter, on June 8, 2010, the plaintiffs added a number of defendants to the lawsuit, including the Exarchoses and two attorneys involved in the closing. In their answer, the Exarchoses included a cross-claim against the Town and the Framingham Conservation Commission seeking money damages and attorney's fees. The plaintiffs filed a motion for judgment on the pleadings and the Court held a hearing on the motion on January 11, 2011. On March 7, 2011, the Court issued an order denying the plaintiffs' motion for judgment on the pleadings and affirming the Enforcement Order issued by the Commission. After initially appealing this ruling the Levasseurs elected not to pursue their appeal and it was administratively dismissed by the Appeals Court on August 11, 2011. The parties have not yet commenced discovery practice with regard to the Levasseurs' claims against the Exarchoses or the Exarchoses' claims against the Town.
Paulini Loam, LLC v. Town of Framingham ZBA, Land Court Misc. Case No. 318083 KCL	Zoning	This is the first of the Paulini lawsuits, and it is has been stayed by the court pending the outcome of the third lawsuit, which will be described below. In December of 2005, the Zoning Board of Appeals denied Paulini Loam's application for a special permit to construct a concrete batching plant at the Property. At the time of the initial application, the property was zoned General Manufacturing. Paulini claimed that the concrete batching plant was allowed under Section III.G.1.a of the Zoning Bylaw, which allows "manufacturing of any description utilizing processes free from neighborhood disturbing odors and/or other agencies" in the General Manufacturing district. The Building Commissioner had ruled that the proposed use required a special permit under Section III.G.2 as a use "which would be offensive because of injurious or obnoxious noise, vibration, smoke, gas, fumes, odors, dust or other

Paulini Loam LLC v. Zoning Board of Appeals of the Town of Framingham, et al, Land Court Misc. Case No. 325212 KCL	Zoning	objectionable features" Paulini filed this appeal seeking to overturn the ZBA's denial of the special permit, and to obtain a declaration from the Court that the proposed plant did not require a special permit. There has been extensive discovery, including depositions, in this case, but it has been stayed by the Court for several years. This case has also been stayed by the Land Court. In December of 2005, a Special Town Meeting approved two amendments to the Zoning By-law, one of which changed the zoning designation of the area to Office Professional, such that the proposed use became prohibited and could not be authorized even through a special permit. The second amendment changed the procedures and thresholds for site plan review. Paulini filed this second lawsuit, this time naming the town as defendant, challenging the validity of the Zoning By-law amendments. In the meantime, Paulini had filed a definitive subdivision plan for the Property, which was approved by the Planning Board, thereby freezing the zoning of the Property for 8 years from the date the subdivision plan was approved. As a result, the Property is still governed by the General Manufacturing zoning as it existed in 2005. We filed a motion for summary judgment on behalf of the Town in this case, arguing that the two amendments are valid as a matter of law. That motion
Paulini Loam, LLC v. Board of Appeals, Land Court Misc. Case No. 09 MISC 401214 KCL	Zoning	This case represents the most recent appeal filed by Paulini Loam, LLC, appealing the Zoning Board's 2005 decision to uphold the Building Commissioner's denial of a building permit for the proposed concrete manufacturing plant. Paulini's complaint includes two counts: the first is an appeal under G.L. c. 40A §17 of the Board's decision, and the second is a request for a declaratory judgment that the proposed use of the site for a concrete manufacturing facility is allowed by right under the Zoning Bylaw. The Board filed a motion for summary judgment on the grounds that it is not disputed that the plans submitted to the Building Commissioner showed a structure, within the meaning of the Zoning Bylaw, within a required setback. Since this is a violation of the Zoning Bylaw, and would require a variance from the Board of Appeals, the Town contends that this reason alone is sufficient to uphold the Board's decision, without the need for the court to review whether the denial of the building permit was also justified because the proposed use requires a special permit. Paulini also requested a declaratory judgment from the court under G.L. c. 240 §14A that the proposed use was a use allowed by right and did not require a special permit from the Board of Appeals. The Town argues in response that this count of the complaint should be dismissed because it is simply a duplication of the chapter 40A section 17 appeal and, in any event,

Revoli Construction Co., Inc. v. Town of Framingham	Construction	Paulini already has a request for a declaratory judgment in its earlier appeal, and therefore this count was barred by that prior pending action. The court held a hearing on the Board's motion for summary judgment on June 1, 2010. The court took the matter under advisement and has not yet issued a decision. This is a case filed by Revoli Construction Co., Inc. against the Town on February 25, 2011. Revoli seeks claims against the Town totaling approximately \$300,000 for additional compensation that Revoli alleges is owed by the Town in connection with Revoli's work on a sewer line replacement project on and near Water Street. The Town denies liability and has filed a counterclaim against Revoli for sums expended by the Town in securing Revoli's correction of its defective installation of a large segment of sewer pipe. In 2011 the parties exchanged various motions seeking to modify pleadings and add claims. The parties also served discovery requests. Discovery is expected to continue in 2012.
Robinson v. Town of Framingham	Labor	This case concerns the appeal to the Civil Service Commission of an original appointment bypass. The applicant was a candidate for an original appointment as a firefighter in the Framingham Fire Department. After a background check the Department bypassed Mr. Robinson in favor of another candidate lower on the list of eligible candidates. The matter was scheduled for a hearing in December of 2011. Mr. Robinson failed to appear for the hearing and the Commission dismissed the appeal for failure to prosecute. This case is now closed.
SB General Contracting v. Town of Framingham	Construction	This case involves a construction dispute between the Town and SB General Contracting, Inc. ("SB"), the general contractor for the New York Avenue Utility Corridor Project ("Project"), a Town public works project that was performed primarily in 2010. The Project consisted of work on two streets, New York Avenue and California Avenue, and generally involved replacing existing sewer force mains with new larger diameter force mains. In March of 2011, SB filed a lawsuit against the Town claiming the Town breached the Project agreement by failing to pay SB for certain items of work for the Project. The total damages alleged by SB are \$341,021 plus interest, which the Town disputes. The parties have engaged in written discovery and the Town recently served a motion for partial summary judgment seeking to dismiss a portion of SB's claims. The parties are presently attempting to resolve the case by voluntary mediation.

Spagnuolo v. Framingham Conservation Commission (Land Court Misc. 10 MISC 424760)		This case involves a certiorari appeal under G.L. c. 249, § 4 by the plaintiff, Gerard Spagnuolo, of the Conservation Commission's issuance of an enforcement order on December 2, 2009, as amended by the Commission in January of 2010. The Commission found that the plaintiff had conducted various unpermitted activities on property located at 545 Edgell Road within a wetlands resource area and/or buffer zone in violation of the Wetlands Protection Bylaw and the Wetlands Protection Act. The unpermitted activities that the Commission found to have been undertaken include, among other things, significant cutting, filling, and grading above and within a steep embankment (resulting in a deposit of boulders and debris in the wetlands), stockpiling of fill and sediment surrounding several mature trees, and failure to install erosion controls.
		On January 5, 2012 the Land Court entered an order transferring this case to the Superior Court in accordance with Land Court precedent holding that the Land Court lacks jurisdiction over wetlands disputes of this nature. The plaintiff appealed the Land Court's order. In 2012, the appeal will be defended by the Town and the Town intends to move for judgment on the pleadings.
Spagnuolo v. Framingham Conservation Commission (Land Court Misc. 11 MISC 450184)		This case is related to the above action between Mr. Spagnuolo and the Conservation Commission. On July 7, 2011, Mr. Spagnuolo filed a certiorari appeal of a further enforcement order issued by the Commission on or about June 22, 2011, which the Commission issued upon the discovery of new wetlands violations. The Commission removed the case to Federal Court in view of numerous allegations in Mr. Spagnuolo's complaint alleging violations of Federal statutes. The Federal Court remanded the case back to the Land Court on October 6, 2011, on the basis of its determination that Mr. Spagnuolo's allegations constituted defenses rather than affirmative federal claims.
		On January 5, 2012 the Land Court entered an order transferring this case to the Superior Court on the Town's motion because the Land Court lacks jurisdiction over wetlands disputes of this nature. The plaintiff appealed the Land Court's order. Upon transfer to the Superior Court (subject to the outcome of the Mr. Spagnuolo's appeal), the Commission intends to seek consolidation of this case with the above-referenced litigation between Mr. Spagnuolo and the Commission (i.e., Land Court Misc. 10 MISC 424760).
Talmo v. Zoning Board of Appeals	Zoning/Land Use	This case involves a request by Robert Talmo, owner of the property at 28 Nixon Road, for zoning enforcement with respect to the abutting property at 30 Nixon Road. Mr. Talmo alleges that a barn on the property at 30 Nixon Road, which is in a residential zoning district, is not in compliance with the Zoning Bylaw. The

Talmo v. Zoning Board of Appeals	Zoning/Land Use	Board has served discovery requests and responses upon the plaintiff. On February 10, 2012 the plaintiff filed a motion for summary judgment. Currently the Town is preparing an opposition to this motion. This is a second case filed by Robert Talmo against the Zoning Board of Appeals. By letter dated March 11, 2011, the plaintiff requested that the Framingham Building Commissioner enforce the provisions of the Town's Zoning By-law with respect to the property located at 30 Nixon Road. After the Building Commissioner denied the request, the Zoning Board of Appeals affirmed the denial on appeal. The Board's decision was filed with the Town Clerk's office on September 22, 2011. The plaintiff filed this case in the Land Court as an appeal of the Board's decision. However, because the plaintiff failed to file his notice of appeal with the Town Clerk until October 25, 2011, 33 days after the Board's decision, the Board moved to dismiss the complaint as untimely. Shortly after the Board moved to dismiss the plaintiff withdrew this appeal. This case is now closed.
T-Mobile Northeast, LLC v. Town of Framingham	Zoning/Land Use	This case involves an appeal by T-Mobile of the ZBA's July 13, 2010 decision denying T-Mobile's application for use and dimensional variances and a special permit in connection with T-Mobile's planned construction and installation, operation and maintenance of a proposed wireless communications facility on property leased by T-Mobile located at 300 Pleasant Street (the Decision). The parties filed an agreement for judgment in this matter on January 30, 2012. The Court approved the Agreement for Judgment on January 31, 2012 and entered an order terminating this case.
Town of Framingham v. Natick Mall, LLC	Contract	This matter concerned a suit against the owner/operator of the Natick Collection over unpaid sewer charges from 1995 through 2007, totaling nearly \$700,000, as determined by a recent audit of out of town sewer accounts. The Natick Collection asserted counterclaims alleging that the out of town rates they were charged violated statutory provisions for rate-setting requiring uniform rates, and that the Town's claims are unconstitutional in that they seek a "tax" on the Natick Collection outside of Framingham's local powers afforded to it by the legislature. Natick Collection successfully moved for summary judgment, obtaining a ruling from the Court that the claims for unpaid sewer charges prior to November of 2004 are barred by the statute of limitations. The parties subsequently reached a settlement on the Town's remaining post-2004 claims and Natick Mall's remaining post-2004 counterclaims. This matter is now closed.
Verizon New England Inc. v. Defelice Corp. and	Tort/ Construction	This case was filed by Verizon New England Inc. ("Verizon") in May of 2011 against Defelice Corp. ("Defelice") and the Town seeking damages of \$48,000 for damage caused by Defelice to a

the Town of		Verizon cable in 2009 while performing work on a Town project
Framingham		on Water Street. The Town filed an answer and a cross-claim against Defelice alleging that Defelice improperly refused to defend and indemnify the Town as required by its contract. Defelice subsequently agreed to defend and indemnify the Town as it agreed in its contract and the main litigation will continue in 2012.
VHS Acquisition No. 9 v. Planning Board	Zoning	This case involved the Metrowest Medical Center's appeal of the Planning Board's site plan approval of a site plan for a proposed 24,000-square-foot outpatient surgical center proposed by Newton-Wellesley Hospital at the former Comp USA facility at 500 Cochituate Road in Framingham. Newton-Wellesley withdrew its plans for the facility and the appeal of the Planning Board Decision is now dormant awaiting the filing of a stipulation of dismissal by the plaintiff.

B. Special Counsel/Insurance Defense Counsel Cases

Below is a list of significant cases that presently are being handled by special counsel or insurance defense counsel.

MATTER	TYPE	<u>STATUS</u>
Charton v. Town of Framingham	Employment	This case was filed by the Town's former Director of Human Resources in Middlesex Superior Court in August, 2009 against the Town and the former Town Manager, alleging constitutional, contract, defamation, emotional distress and state whistleblower claims in connection with the Town's termination of the plaintiff's employment in the spring of 2009. The Town's liability insurer, Massachusetts Interlocal Insurance Association (MIIA), has retained insurance counsel to to represent the Town and the former Town Manager. Certain of Mr. Charton's claims were dismissed by summary judgment. The Court has scheduled a trial the remaining claims in June, 2012.
Carney v. Town of Framingham	Civil Rights	In this case Mr. Carney alleges a variety of federal claims and civil rights violations against the Town in connection with its enforcement of wetlands violations at property located at and near 32 Parker Road. The Town recently filed a motion to dismiss Mr. Carney's amended complaint and is awaiting the plaintiff's filing of an opposition thereto.

Grassia v. Town of Framingham	Civil Rights	This is an action against the Town and two of its police officers for the allegedly wrongful arrest and prosecution of the plaintiff, Thomas Grassia. (Mr. Grassia is a local attorney.) The plaintiff alleges that there was no probable cause for his August 13, 2004 arrest on felony and misdemeanor charges of intimidation of a witness and criminal harassment. The plaintiff sought compensatory and punitive relief, as well as attorney's fees and costs for harm allegedly suffered pursuant to various provisions of the United States Constitution, 42 U.S.C. § 1983, the Massachusetts Declaration of Rights, provisions of the Massachusetts General Laws, and the common law. The District Court entered summary judgment in favor of the Town and the individual police officer defendants on August 3, 2010. The plaintiff appealed the judgment to the United States Court of Appeals for the First Circuit. On June 24, 2011 the Court of Appeals issued a ruling affirming the District Court's judgment. This case is now closed.
Nexum v. Town of Framingham	Zoning	This case concerns the developer's appeal of the denial of special permits in 2004 to construct the Ford's Meadow Project on Nixon Road. The developer contends that the Planning Board abused its discretion in not approving needed special permits by the requisite supermajority. The Planning Board was represented in this case by special counsel Hinckley Allen & Snyder. A trial was held in 2009. In July of 2009, the Court issued a 20 page Findings of Fact and Conclusions of Law deciding the case in favor of the Planning Board. Nexum appealed this ruling to the Massachusetts Appeals Court. The Appeals Court issued a ruling on March 18, 2011, affirming the Superior Court's judgment. This case is now closed.
Otero v. Town of Framingham	Discrimination	This case concerns a Charge of Discrimination filed against the Town and its Department of Public Works. MIIA has retained the firm of Brody, Hardoon, Perkins and Kesten to represent the Town in this matter. Position statements have been filed by the parties and we are awaiting a decision from the MCAD as to whether a Finding of Probable Cause will issue.
Tang v. Town of Framingham	Constitutional Law	This matter involves numerous federal and state court actions against the Town by a state prison inmate alleging, among other things, unlawful arrest, conspiracy and assault and battery. The Federal District Court of Massachusetts dismissed the case with prejudice in September, 2008. The United States Court of Appeals for the First Circuit issued an Order on April 23, 2009 directing the Clerk of Court not to accept any further filings by Mr. Tang in this matter. Mr. Tang subsequently filed several other lawsuits against the Town in Superior Court, which filings ultimately resulted in the Superior Court's issuance of a similar order barring further state court filings absent preliminary state approval. Mr. Tang appealed all or virtually all such dismissals to the

	Massachusetts Appeals Court. Four of these actions are pending before the Appeals Court, and Mr. Tang has served the Town in only one. Mr. Tang filed his brief on January 30, 2012 in this case and the Town's insurance counsel will file the Town's responsive brief shortly.
	1

III. Budgetary Overview

As in past years, I would like to conclude this report with a brief discussion of budgeting and legal expenses. In 2011 this office continued its positive track record of procuring new revenue for the General Fund or helping to avoid the imposition of additional costs to the Town. The services provided by the Office of the Town Counsel have resulted in monetary benefits to the Town that has resulted in direct revenue,

mitigation and avoided expenses approximately two times greater than the Town's FY 2011 appropriation of \$623,000.

Below is a chart summarizing the revenue, mitigation and avoided expenses achieved in FY 2011 by the efforts of the Office of Town Counsel working with other departments, boards or commissions, or through the substantial assistance of this office.

A. <u>FY</u>	2011 Revenue, Mitigation and Avoided Expenses
Matter:	Description:
Payments Received	Payments received in FY2011 for sewage transport under the
from Ashland for	February 13, 2004 Decision issued by the Department of
sewage transport and	Telecommunications and Energy, and pursuant to the January 1, 2007
litigation settlement	IMA between Ashland and Framingham. This represents an
in FY 2011	approximately 200-fold increase over what Framingham received
\$942,487.39	from 1964-2003 under the 1963 Intermunicipal Agreement with
(Revenue)	Ashland (\$5500 per year). Through 2011 the Town has received over
	\$6 million dollars in payments from Ashland (\$6,169,016) under the
	successful 2004 Decision and the 2007 IMA that resulted.
Pelham Apartments	By virtue of a prior year's favorable summary judgment ruling
and Framingham	achieved in the Pelham litigation, the Town was able to cease trash
Housing Authority	collection at the 550 units at the Pelham Apartments, which results in
Trash Collection	avoided expenses estimated at more than \$100,000 per year. By
\$300,000	virtue of the Pelham ruling, the Town also was able to cease trash
(Avoided Expense)	collection at approximately 1,000 units owned by the Framingham
	Housing Authority, thus realizing savings of approximately an
	additional estimated \$200,000 per year. These savings amount to
	approximately \$300,000 per year on an annual recurring basis without
	adjusting for inflation.
Calvao, et al. v. Town	As a result of the United States Court of Appeals for the First
of Framingham	Circuit's March 17, 2010 decision affirming the District Court's
\$150,000	decision allowing the Town's Motion for Summary Judgment with
(Avoided Expense)	respect to the Town's establishment of a 24-day work period under

	29 U.S.C. 207(k), the Town has avoided liability to date for approximately \$1,500,000 in damages, in view of the federal law that often allows for double damages and attorney's fees to be assessed against parties found to have violated the Fair Labor Standards Act. Additionally, the Town has to date avoided the need to pay FLSA overtime to officers who work more than 40 hours per week (CBA overtime is paid), thus saving the Town approximately \$150,000 per year on an annual basis.
TOTAL FY 2011	\$1,392,487.39

While we certainly cannot promise that the revenue, mitigation and avoided expenses achieved in FY 2011 by the Office of Town Counsel will continue at the same level in the future, we will continue to exercise creativity, diligence, and our best legal skill to address the litigation that does arise as we advocate on behalf of the best interests of the Board of Selectmen and the taxpayers of the Town of Framingham.

CONCLUSION

In closing, we wish to thank the Board of Selectmen and the residents of the Town for the opportunity to serve as your Town Counsel.

Christopher J. Petrini Petrini & Associates, P.C. Town Counsel March 1, 2012

Human Resources

Memorial Building, Rm B7 | 508-532-5490 | human.resources@framinghamma.gov

The Human Resources Division consists of the Department of Human Resources and the Department of Veterans' Services.

Human Resources

The Department of Human Resources has multiple responsibilities overseeing recruitment and hiring process for all Town positions in accordance with established Town policies and procedures, as well as conducting orientations for new employees. In addition, the department maintains, drafts; revises and interprets the Town's personnel policies and procedures; plays a key role in negotiating and implementing all collective bargaining agreements; fosters productive labor and employee relations; performs cost and staff analyses; assists in employee development and training; establishes, maintains, and analyzes employee benefit packages; and oversees employee recognition programs.

The department oversees the Town's Benefits and Workers' Compensation, Family and Medical Leave Act (FMLA), and unemployment insurance programs.

Payroll is no longer completed in this department, since being moved to the Accounting Department in 2010 as a result of consolidating that function with the School Department.

Patrick Reimels is the Benefits Coordinator. He administers health, dental and life insurance programs for the Town, the schools, and retirees. He is responsible for new employee benefits orientations and coordinates open enrollment periods. He is

also responsible for processing payments of health related bills and death claims. Patrick works closely with active, former, and retired employees. Patrick replaces Cindy McKellick who retired in June, 2011.

Judith Caron is a Human Resource Generalist/Analyst. She manages the employment and recruitment process, including advertising, reviewing employment applications, interviewing candidates. checking facilitating references, and background checks and pre-employment testing where applicable. She is also responsible for processing payment of department bills and assists with providing coverage with customer service. Finally, she oversees compliance with the Family and Medical Leave Act (FMLA).

Claudia Araujo is a Human Resource Generalist/Analyst. She oversees the Worker's Compensation program for employees of the Town and the School Department. She also manages the Direct Pay Program and provides assistance in the area of benefit administration.

2011 Annual Town Report

Brant Johnson is the Administrative Assistant. He provides administrative support to all positions in the office and manages monthly departmental vendor meetings, as well as HR-sponsored events, such as the Employee Recognition Dinner. Brant also coordinates the Employee Wellness program and the Sick Bank application process.

David Williams is the Human Resources Director, appointed in November 2010. He shares this title along with his other titles of Assistant Town Manager and Chief Procurement Officer.

The department is determined to continue serving the Town's employees, retirees, and

citizens in a courteous, efficient, and professional manner.

Respectfully submitted,
David R. Williams, HR Director/Assistant
Town Manager & CPO

Technology Services

Memorial Building, Rm B25 | 508-532-5829 | technology.services@framinghamma.gov

Staff: Carly Premo Melo Acting Director

Alan D. Holt Manger, Database Services

Nancy H. Lomas Technical Services Coordinator, Administration & Finance

Susan Joyce Roy Manager, User Services
James V. Schiavone Manager, Network Services

Debra P. Williams Public Safety Systems Administrator

FY10 Operating Budget: \$1,238,781

With reduced staff and resources, 2011 was another challenging but productive year. Normally a staff of 8, staffing ranged between 6 and 7 Full Time Employees over the course of the year. Despite our reduced resources, we strived to continue to deliver the highest level of service by utilizing and implementing the most current technology available while being fiscally responsible.

The Technology Services division is organized into 7 service areas.

Application Services

Application Services is responsible for the ongoing support of the Town's financial management systems for both School and Town supporting over 300 users. For the

majority of the year this position was vacant and support was provided by the Acting Director. The Munis-mandated migration of the financial system from the current Linux/Unix environment to a Windows/SQL platform began in 2011, including the installation of new virtual servers and migrating the users and data. The pre-installation preparation was intense and time consuming as all user data had to be transformed to match the requirements for the new version of Munis. The upgrade is anticipated to be completed in June 2012.

Database Services Alan D. Holt, Manager Permits and Licenses

- New tablet-style mobile inspection devices were issued to Building, Code Enforcement, and Fire Inspectors to begin real-time resulting of inspections and violations from the field.
- Over 11,000 new permits issued in 2011 along with over 6,000 renewals of annual permits and certificates.
- Permit history for over 200,000 permits, inspections, licenses, and certificates available to citizens through the Town's website.
- Public Works Engineering Trench Opening permits and field inspections added to the system. Approximately 500 trench permits are issued annually.
- Pilot testing for online permit applications, inspection scheduling, and online payment processing was started at the end of 2011.

Other Projects and Activities

- Replacement of our GIS servers, pavement management, Fire Incident Reporting, and Electronic Document Management systems with more cost/performance efficient virtual servers continues to drive down operating and maintenance cost while improving our disaster recovery capabilities.
- Weekly training sessions with the Public Safety Administrator continue to add to

2011 Annual Town Report

- her technical capabilities to support Police and Fire.
- Began weekly cross-training sessions for the Public Safety Administrator to provide backup support in the absence of the Data Services Manager.
- Other 2011 activities included participation in the evaluation group for regionalization of Police and Fire dispatch operations; development of an interface between Fire Mobile units and the Fire Incident Reporting system to get plan information into the hands of first-responders; drafting the capital project proposal for replacement of the out of warranty dispatch servers; and upgrade of the Fire Incident Reporting System to the latest major revision.
- The Town Clerk's Marriage Certificate application was replaced with a new inhouse application. Other projects during the year included a revision upgrade for the internal Help Desk/Asset Management system; a new interface on the Town's website to the Public Work's weather reporting station at New York Ave; upgrading the LaserFiche Electronic Document Management System, and upgrading the Public Works pavement infrastructure management system.

Public Safety

Debra P. Williams, Public Safety Systems

Public Safety is responsible for supporting key information technology applications and related technologies utilized by the Police and Fire Departments and ensuring that critical public safety systems function efficiently and effectively on a 24/7 basis.

System Installations and Upgrades

2011 was spent updating and maintaining the current public safety systems and applications. Updates were completed in the Fire and Police departments for Keystone Computer Aided Dispatching, and Masterclock's precise time synchronization system; Antenna Plus software and hardware and FireHouse Incident Reporting software for Fire;

Dynamic Imaging's Picturelink mug shot imaging system for Police; and operating systems and office automation software upgrades for the Public Safety desktops and laptops.

The Fire Department is current and fully compliant with its reporting requirements for The Massachusetts Fire Incident Reporting System (MFIRS). By law, any fire or explosion resulting in a dollar loss or human casualty must be reported to the State Fire Marshal's Office.

ACS Firehouse software was upgraded to the latest major revision and its server database was migrated to a new Windows server with minimal downtime and without any post-upgrade problems.

The Police laptop replacement project is in progress and on schedule. The 25 newly imaged ruggedized laptops have arrived and are slated for installation in the first quarter of 2012.

Public Safety systems information was provided to the Metrowest Regional Public Safety Council (MRPSC) to assist in developing a feasibility study that would provide single. fully integrated CAD/RMS/Mobile System for emergency police, fire, EMS and non-emergency informational services to the Middlesex County Sheriff and to eight suburban municipalities west of Boston

Network Services James V. Schiavone, Manager

Network Services plans, configures and maintains all Town of Framingham network hardware along with the institutional network that connects all town buildings. Key accomplishments this year included:

• Assisted DPW with connecting 7 river level sensors as well as providing the technology requirements for the new A St.

2011 Annual Town Report

- sewerage station and the renovations at both Grove and Pleasant water stations.
- Collaborated with Park and Recreation to implement an irrigation control system utilizing the municipal wireless network.
- In a continuous effort to shrink our carbon footprint, installed 2 Cisco UCS200 series servers optimized for Vmware as part of the Munis upgrade, which will allow 7 physical servers to be removed. Currently there are 20 production servers running in a virtual environment with 6 in pre-production testing.
- Upgraded the Town's Microsoft
 Exchange 2003 mail server to new
 hardware running Microsoft Exchange
 2007 Enterprise.
- Maintained 5 9's of uptime on all critical servers with the exception of scheduled downtime related to software updates and upgrades to stay current; maintained 5 9's of uptime on the network core and most remote locations with the exception of the locations without full time generators.
- Implemented a town wide network monitoring solution from Solar Winds; currently monitoring 2699 items on 193 network devices (Switches, Routers and Servers).
- Deployed public wireless at Bowditch Field press box and the DPW Capital building.
- Worked with our wireless vendor to upgrade the firmware on all access points and redesign the network to be in one subnet; work is ongoing with the vendor to determine maximum subnet size. We currently have 514 wireless nodes deployed.
- Installed Town owned fiber from Town Hall to Animal control, picking up Fire

Headquarters and the DPW Garage along the route to be used as redundant fiber to the existing RCN installed fiber that the town utilizes; added one additional location to the fiber network, the Goodnow water station.

Currently 47 IP cameras are deployed, 8
 of which are wireless; cameras added in
 2011 include the DPW garage facility,
 Indian Head water tank, Winter Street
 pump station, Oak Crest sewerage station
 Edgell Water Station, and an additional
 one at the RDC.

Administration and Finance Nancy Lomas, Technical Services Coordinator

The coordinator is responsible for the preparation of the department's programbased budget, capital and project planning, overall operations management, policies and procedures, and town-wide technology acquisitions. The coordinator also maintains computer asset management records for over 1400 technology assets, maintains the streaming video archive, and provides backup coverage for our helpdesk to assist with our ever-growing user base. In 2011, the coordinator took on posting of meeting minutes and updates to our website. Additionally, the coordinator completed training in IP telephone operations and advanced website functions.

User Services Susan Joyce Roy, Manager

User Services Manager is responsible for support services to technology Departments, including Help Desk support, set-up and training, email, Internet, hardware and software support, inventory maintenance, policy and licensed software audits. Services is also responsible for PC, printer and software upgrades and maintenance; Town Meeting equipment and presentation Town administration, assistance departmental staff, boards and committees.

2011 Annual Town Report

In 2011, User Services supported 406 PCs and 207 laptops with 548 users, including 47 new users. The Technology Services Help Desk answered 1196 Help Desk calls, of which over half of were resolved on the same day. In addition, 136 PCs were configured and installed; of those PCs, 61 were new PCs and 21 were new laptops/ToughBooks.

In 2011 a new HelpDesk ticketing system and a deployment tool were purchased and implementation began. These Dell KACE appliances will streamline support requests, new PC rollouts and patch management. Also in 2011, significant progress was made in the hardware/equipment upgrades, the OS upgrade from Windows XP to Windows 7 and the upgrade from Office 2003/2007 to Office 2010.

Voice, Web and Office Services Carly Premo Melo

In the absence of a director this position continued to assume the Acting Director responsibilities in addition to the daily operations and support of the Voice over Internet phone system and the continuing development and daily maintenance of the Town's website. In 2011 the Technical Services Coordinator cross-trained in the areas of Voice and Web to provide support for this position.

To increase redundancy as well as load-balancing, the Town installed a 3rd Call-Manager for the VOIP phone system.

Planning began in 2011 to virtualize the Town's web server for additional redundancy and disaster recovery as well as to bring the Content Management software to the current version. The Town's website is a critical tool for information dissemination, widely used by residents, businesses and visitors. Information available include Town Meeting warrants and background material, news announcements, staff directories, permit and property records, job opportunities, bids, meeting agendas and minutes and much more. A special thank you to all Town departments

that contribute to the continued success and expansion of the Town's website.

In closing, the accomplishments documented in this annual report could not have been achieved without the commitment of each and every member of our small but dedicated, motivated and innovative Technology Services staff. Once again, I thank each of them for another year of proud accomplishments.

Respectfully submitted,

Acting Director, Technology Services

Memorial Building, Rm 133 | 508-532-5485 | building.services@framinghamma.gov

The Building Services Department is primarily tasked with the facility maintenance of multiple Town-Owned buildings throughout the Town of Framingham. The department has been restructured in the last fiscal year to create two new positions after losing the longtime Director and Assistant Director through attrition. The newly created positions include Working Foreman a Administrative Assistant. The department head for this department works directly under the jurisdiction of the Assistant Town Manager.

Facing decreasing budget allocations and minimal staffing numbers, the department has modified its approach to obtaining its goals. Due to the aging of the buildings and the maintenance needs required, the department has subcontracted the general cleaning services of the Memorial Building out to a private contractor. This has allowed the staff of Building Services to focus their attention on the maintenance needs for the Town-Owned buildings. We have been working diligently, in collaboration with the Parks Department, to create a much safer and cleaner appearance for all Town citizens to see and appreciate when visiting the Memorial Building for regular business matters.

The Memorial Building is enclosing on the completion of the window renovation capital

project, which has increased energy efficiency for the building. The central air conditioning project is scheduled to begin in March 2012, with an anticipated 90 day completion date. These projects are being overseen by the Town's Capital Project Manager and coordinated with the Building Services Department to ensure effective and efficient results. The plans and funding have also been allocated to have the Nevin's Hall floors refinished once the interior painting has been completed.

In addition to facility management, the Building Services Department is responsible for the management of three Town operated parking lots. These include the Pearl Street Garage, Hollis Street Parking Lot, and the Waverly Street Parking Lot. By working in collaboration with local community service representatives, the department has been able to properly clean these parking locations to regularly remove garbage and debris.

I would like to thank my staff, Raymond Spurgeon, Gregory Adams, David DeMeo, Ashley Borges, Charles Weld, Ken Green, Ron Spurgeon and Doug Thibault, for their continued dedication to the Town of Framingham.

Respectfully Submitted, Eric Heideman, Foreman, Building Services

Capital Building Projects Memorial Building, Rm 123 | 508-532-5436 djg@framinghamma.gov

December 1, 2011 marked my third year of service as the Capital Building Projects Manager for the Town of Framingham. It has been a privilege to serve in this capacity. During the past year, I have been able to better understand the existing conditions of many of the Town-Owned properties, and determine where the financial and technical challenges exist moving forward.

Many Town-Owned Buildings are in need of help in the form of renovations or reconstruction in various degrees. Deferred maintenance has often been used to cut costs. This "sense" of saving money is actually false economy. Taking care of buildings before they crumble will save money in the long run.

As the Capital Building Projects Manager my duties include working with the Town Manager to help envision and expedite strategic building projects. The project this year included: Replacing all the Memorial Building Windows; repairing the Vault and Accounting Office Space and Floors; Maynard Building work; repair working on the Fire Department Headquarters, various Fire Stations and the Main Library. On these project I have acted as Project Manager, OPM, Architect and Clerk with the idea of providing a savings to the Taxpayers of Framingham. This has saved the Town considerable time and money since only on salary has to be paid for this work instead of four. The challenge is to do more with less, to manage time for the research, design, bid, execution and monitoring of all project simultaneously. The requirement is to keep the clients of each building happy while creating dust, noise and, ultimately, accomplishment.

The position of Capital Building Projects Manager has also allowed me to be an energy advocate on behalf of the Selectmen of Framingham. The desire is to decrease the energy consumption of Town-Owned Buildings. This will serve three purposes:

- 1. Saving the Framingham Tax payer's money
- 2. Reducing the "carbon footprint" of Framingham
- 3. Repairing or replacing the existing, outdated equipment, as required.

This part of my position has been interesting to me since energy saving technology has always been one of my keen interests. This part of my job has drawn the attention of State Officials and afforded the Town of Framingham the opportunity to take advantage of federal stimulus funding. This has created good jobs in Framingham over the past year.

As the Capital Building Project Manager during 2011, my position has included working the Framingham Disability Commission. I have met with the Disability Commission and the Historical Commissions within Town to learn, listen and understand their views and positions on key historical buildings regarding handicapped building access. These concerns are as follows:

- Construction of a ramp to the Union Street entrance of the Memorial Building
- 2. The construction of a sloped walkway at the Village Hall
- 3. Ongoing discussions to make existing entrances at the Main Library ADA compliant.
- 4. Completing these projects while maintaining the historical significance of all these buildings

Another major project this office has taken on is the exterior renovation of the Jonathan

General Government 37

Maynard Building as well as portions of the Memorial Building. The main goal during these renovations is to maintain the original historical details intact.

Respectfully Submitted, Douglas J. Goddard, AIA Capital Building Projects Manager

Media Services

Memorial Building, Rm B15 | 508-532-5517 | government.channel@framinghamma.gov

The mission of The Government Channel is to serve the community as a valued resource by providing timely news and events to inform Framingham residents on town programs and services. We do this by producing video coverage of public meetings, development of original series, and displaying important town announcements on our municipal electronic bulletin board.

The Government Channel is dedicated to programming which supports the goals and objectives of the various town departments, also to make the proceedings of local government more accessible to the public.

Some of the outreach, engagement activities, and production support that the government channel has participated in 2011 include the Memorial and Veterans day observance ceremony, Human Relations Commission lectures, DPW neighborhood meetings, Redistricting forums, New Open Meeting Law training, Park and Recreation updates, Arbor day education and observance, General Chemical site assignment hearing series, September 11th observance ceremony, Nyanza public hearings, Holiday season concert, and Live election night analysis.

The Government Channel also carries regular live coverage of the Board of Selectmen's Meetings, Planning Board and Town Meeting. Monthly coverage of the Framingham

Disability Commission and special coverage of Board of Health are an important component of the channel line-up that gives residences instant access to Framingham government both on their cable system and via the internet

The Government Channel can be viewed on RCN channel 13, Comcast Channel 10, and Verizon Channel 42. Programming schedules are available on the town's website, by accessing the government access portion of the department directory or at: www.framinghamtv.com

The Government Channel through programming is compiling complete and accurate public records for the Town of Framingham. Throughout the year a major effort to transfer historic archive videotapes to DVD has been undertaken. In addition to being a desirable format, DVD disks provide a more reliable and durable public record. These video recordings provide an enhanced ability to assess the accuracy of official print records of meeting minutes. All programming is available to the public upon request; selectmen, planning, and town meetings are also available via streaming video on demand for Internet viewing.

Respectfully submitted, Ron J. Rego Director of Media

Respectfully Submitted, Maryellen Rupp, Licensing Administrator

General Government 39

Chief Financial Officer

Memorial Building, Rm 127 | 508-532-5425 | office.cfo@framinghamma.gov

The Office of the Chief Financial Officer has both financial and policy duties. It is staffed by the Chief Financial Officer and an Assistant Chief Financial Officer. The Office administers Town finances with the assistance of three departments that have direct responsibility for financial management of Town government: the Assessing Department is responsible for the administration of the property tax system including the valuation of real and personal property and the assessment of taxes against these parcels and accounts. The Office of the Treasurer/Collector is responsible for the collection of all town revenues, the investment of all revenues, and the management of the Town's debt. The Accounting Department maintains the Town's accounting records, generates financial management information for use all Town departments their management ofoperations, processes Town-wide employee payroll, directs all audit activity and reviews compliance with internal controls.

The Office of the Chief Financial Officer is directly responsible for the development of the annual operating and capital budgets. The CFO works closely with all Town officials to develop these budgets. Upon adoption of the annual operating and capital budgets, the Office of the Chief Financial Officer monitors revenue and spending throughout the year. The CFO is also required to file a long term forecast for strategic planning of the Towns financial position.

Other responsibilities of the Chief Financial Officer include participation in management of workers' compensation claims; management of the health insurance plan, participation in collective bargaining and membership on the Retirement Board.

Calendar year 2011 was a step toward financial stability. For the first time in many years the Town was able to appropriate a level service School budget. While expenditure growth still exceeds revenue growth, the trend is slowing due both to increasing state aid and cost containment efforts. The Town must still live within its means. During calendar year 2011 the Town and the Public Employee Committee agreed to two new health insurance contracts that reduce the cost of health insurance both to the Town and to employees. The expectation is that health insurance will reduce its burden on the budget in FY13. The Town continued its investment of the room and meals tax to the Stabilization fund reaching a level of 3% of the total budget. If this plan is followed through FY15, the Town will have funded the Stabilization Fund to its policy level of 5% of the total budget. Continued responsible financial management is critical to the forward progress of the Town.

This Division has absorbed more responsibility without adequate resources, yet still provides the clarity and transparency of information to Town residents and excelling in their fiduciary duties. The staff has produced more data to more residents and officials than ever before and posted more information to

the Town website than has ever been posted before.

The CFO would like to thank the Assistant CFO, Jennifer Pratt, Richard G. Howarth, Jr. and his staff in the Accounting Department, Dan Dargon and his staff in the Assessing Office and

Stephen Price and his staff in the Office of the Treasurer/Collector. The commitment to their jobs and the quality of their work is much appreciated and highly valued.

Respectfully Submitted, Mary Ellen Kelley, Chief Financial Officer

Town Accountant

Memorial Building, Rm 205 | 508-532-5410 | town.accountant@framinghamma.gov

The Office of the Town Accountant is responsible insuring for that expenditures of the Town conform to the requirements of Massachusetts General Laws, Town Meeting appropriations and grantors, and do not exceed Town Meeting appropriations or grant authorizations. The Office also accounts for all financial transactions of the Town receipts and expenditures conformance with generally accepted accounting principles and the Uniform Municipal Accounting System promulgated by the Commonwealth of Massachusetts' Department of Revenue. It then makes this accounting information available to (1) the Town's municipal program managers to facilitate their management of program budgets, (2) independent auditors who must opine on the financial condition of the Town; (3) state and federal agencies for use in generating financial information for program and policy development, and, (4) credit rating agencies for their use in assessing the Town's fiscal stability and creditworthiness and Residents.

Significant activities of the Accounting Office include the submission of required financial reports, reconciliation of revenue and expenditure accounts, cash, and accounts receivable as well as auditing all accounts payable invoices for accuracy prior to payment. Starting in July of 2010,

the School's Payroll department was also placed under the direction of the Chief Financial Officer.

The June 30, 2011 (FY11) balance sheet was submitted to the DOR on October 7 2011, for certification of available funds. On November 8, 2011 the DOR certified the following amounts as available for appropriation: General Fund Free Cash: \$3,318,433, Sewer Enterprise Fund Retained Earnings: \$3,858,310, Water Enterprise Fund Retained Earnings \$5,224,481. These available represent unrestricted surpluses that are available for appropriation by Town They are generated from Meeting. positive operating results in relation to the budget; that is, they are derived from annual receipts in excess of budget estimates and expenditures less than the appropriations authorized by Meeting.

For Fiscal Year 2011, the Department processed over 13,000 purchase orders, reviewed over 43,500 invoices and issued over 19,500 accounts payable checks.

The top ten vendors paid during Fiscal 2011 are as follows:

US Bank \$69,265,740 Blue Cross/Blue Shield 39,952,883

Framingham Retirement	10,191,987
Keefe Technical School	8,424,181
P Gioioso & Sons Inc	8,340,432

Newport Construction Co Inc	3,465,473
Albanese D & S Inc	2,918,414
Accept Ed Collaborative	2,697,476

I would like to thank all the departments who have assisted us during the past year. I would like to especially thank CFO, Mary Ellen Kelley, Assistant CFO Jennifer Pratt, Treasurer Steven Price, Chief Assessor Daniel Dargon, Technology

Services Director Carly Premo Melo and their staffs for their guidance and assistance during the past year.

I would like to recognize the invaluable efforts the members of the staff, Assistant Town Accountant Judy Moore, Payroll Administrator, Anne Wynne, Shirley Tibbert, and Lynn Porter as well as the Louisa Caswell, Janine Ablondi and Anna Whitney.

Your obedient servant Richard G. Howarth, Jr. Town Accountant

Treasurer/Tax Collector Memorial Building, Rm 109 | 508-532-5430 | treasurer@framinghamma.gov

Fiscal Year 2011 was a good year in this busy office of 7. The Treasurer/Collector's Office continues to provide customer service and essential municipal services. As always, I am indebted to my staff for the firs-class job they do on my behalf as well as the Town of Framingham.

Our operating system on Munis continues to be updated on a regular basis. Collection amounts and percentages were as follows. Real Estate taxes collected were \$ 144,918,025.47 (97.73 %), and **Property** Personal taxes **\$9,731,108.49** (98.37 %). Excise Taxes collected were \$ 5,072,039.86 (86.44 %). Excise tax is collected on a calendar-year basis, which is reflected in the lower collection percentage. Tax Title collections were \$ 2,055,865.80, including interest and penalties. We have continued to work hard on delinquent taxes in every area and recently foreclosed on an unoccupied property and will schedule an auction soon.We have implemented the use of credit/debit card swipe machines and promoted our web based online biller and payment services in the Tax Collectors Office, to improve customer service.

Earnings on general fund investments for the year totaling \$ 139,034.07 were below budget.

We continue to monitor the bank rates to maximize our earnings. The Town's Bond Rating is currently at Aa2 with a Challenging outlook in FY 2012 from Moody's. The future will hold a challenge to maintain it but the goal is to work to that end. We need to improve our fund balances to help offset those areas that we

have little control over, such as per capita income levels. We issued one multipurpose bond anticipation note in 2011, awarded to J.P.Morgan Securities Inc., in the amount of \$33,167,977, including a premium of \$893,545.30 and net interest cost of 0.2909%., and a coupon rate of 3.00%.

Additionally we issued a general obligation bond in the amount of \$34,302,000 for multiple projects awarded to Raymond James & Associates, Inc. NY. at a true interest cost of 3.03309 % among several bidders. The bid included a premium of \$ 1,545,820.62. This was the competitive rate in the face of stable fed fund rates. Additionally, the Town issued interim loans totaling \$2,749,924.00 through the Massachusetts Water Pollution Abatement Trust at a rate of 0 .25 %, as well as permanently financing sewer projects in the amount \$20,859,233.77 at a rate of 2.00 % for various sewer improvement projects.

This department has worked diligently to meet the requirements of the laws, the challenges of the technology advances, and the Town's customer service policy. We treat taxpayers with respect while accepting their payments, answering their questions regarding process, and solving their problems as quickly and efficiently as possible. As per Town By-Law, I am reporting the following information regarding authorized debt schedules. The first schedule shows what is authorized and un-issued as of June 30, 2011. The second schedule shows the debt issued and outstanding during Fiscal Year 2011.

Respectfully submitted, Stephen W. Price, Treasurer/Collector

Massachusetts Department of Revenue, Division of Local Services Bureau of Accounts ~ Automated Statement of Indebtedness

Framingham Board of Assessors – Room 101 FY 2011 Annual Report - Addendum

Board of Assessors

The Board of Assessors' annual report for calendar year 2010 with statistics from Fiscal Year 2011 is as follows:

Because of the values established in Fiscal Year 2011, we received 502 abatement applications. These applications represented 2.44% of the total tax bills issued for Fiscal Year 2011.

In Fiscal Year 2012 the residential class contributed \$13.7 million dollars in new value. This growth was attributed to improvements made to the residential inventory during 2011 including new construction, remodeling and additions completed during the year.

Commercial, Industrial and Personal Property growth added \$36.2 million dollars of new taxable improvements to the CIP tax base with the largest contribution growth attributed to the completion of 74 New York Ave.

I would like to thank the Board of Assessors members Mrs. Kathryn Pierce, M.A.A & Mr. Arthur Holmes for their work throughout the Fiscal Year. Additionally I would like to thank the Assessing Department staff for all their hard work throughout the year. Also, I would like to thank Mr. James Sullivan, Esquire for his legal assistance.

After making a presentation to the Board of Selectmen on December 19, 2011 for the Fiscal year 2012 Tax Rate Classification Hearing, the Board voted to adopt a 75% shift in values of the Commercial, Industrial and Personal Property classes of property to maintain the share of the tax levy borne by these classes in Fiscal Year 2012. The Fiscal

Year tax rates are: Residential - \$16.94 and Commercial, Industrial and Personal Property - \$38.05.

The Board of Assessors' annual report for year 2012 with statistics for FY2011

PROPERTY AND TAXES ASSESSED AS OF Fiscal Year 2012 (7/1/11 – 6/30/12)

Fiscal Year 2012 Tax Rates:
RESIDENTIAL \$16.94
COMMERCIAL \$38.05

FY 2012 VALUATIONS: REAL ESTATE Assessed Value - \$7,281,054,678 Taxes Levied - \$154,275,654

PERSONAL PROPERTY Assessed Value - \$248,330,938 Taxes Levied - \$9,448,992

FISCAL YEAR 2011

MOTOR VEHICLE ASSESSED

2008 BILLS AND TAXES COMMITTED IN FY 2011 (14) Committed - \$1,290.84

2009 BILLS AND TAXES COMMITTED IN FY 2011 (116) Committed - \$27,780.38

2010 BILLS AND TAXES COMMITTED IN FY 2011 (9,226) Committed - \$747,377.46

2011 BILLS AND TAXES COMMITTED IN FY 2011 (54,299) Committed - \$5,749,461.31

FISCAL YEAR 2011 ABATEMENTS AND EXEMPTIONS GRANTED (7/1/2010 – 6/30/2011)

Purchasing

Memorial Building, Rm 123 | 508-532-5405 | purchasing@framinghamma.gov

The Purchasing Department seeks to identify the best overall value when expending public funds for goods and services. The Department ensures that purchases are made in accordance with local bylaws and in compliance with procurement statutes of the Commonwealth.

Purchasing has works closely with every Town department to produce invitation for bids for a multitude of projects ranging from floor finishing to Tax Title Auction services.

Routine contracts were awarded for School Department lunch commodities such as bread, milk, and food supplies; Police Department vehicle towing; Recreation Department park mowing; and various internal services such as photocopiers, insurance services, and cleaning services.

The Purchasing Department posts all invitations for bid on the Town's website, and advertises larger procurement

opportunities locally and in the Massachusetts Central Register.

The Department is currently staffed by a part-time assistant, Mona Haywood. David Williams, Assistant Town Manager & HR Director also serves as the Chief Procurement Officer. The Department has been grateful for its unpaid intern in 2011 – Eric Heideman, who was later hired as a Foreman in the Building Services Department.

In the coming year, the Purchasing Department will continue to seek out the best available pricing, including leveraging our options and selectively participating in purchasing consortia. The Purchasing Department will continue to conduct due diligence on every major purchase in order to get the best value for taxpayer dollars.

David R. Williams
Chief Procurement Officer (CPO) /
Assistant Town Manager & Human
Resources Director

<u>Retirement System</u>

<u>Police Department</u>

1 William H. Welch Way | 508-532-5906 | sbc@framinghamma.gov

As we move into 2012, it continues to be my honor and privilege to serve as Chief of Police for the Town of Framingham and I respectfully submit this annual report to the community, on behalf of the men and women of the Framingham Police Department. I am extremely proud of the Department and the excellent service which it provides to those who live, work, and visit Framingham. It is and has been my philosophy that we must strive to serve the community in the most efficient manner possible. During my tenure as Chief, I have continually sought new avenues to improve our effectiveness and increase the Department's efficiency, accountability and productivity. Given the current fiscal climate, these efforts are now more important than ever.

Even with limited resources and financial predictions which have required a reduction or elimination of certain services, the Department's dedicated staff is committed to delivering the very best public safety services possible. We remain proud to protect and serve the Town, while recognizing the value of excellence in public safety. This excellence has been recognized by our peers in public safety and the Department is proud to be leader in our industry. We have again achieved State Accreditation and are one of a small number of departments in the Commonwealth of Massachusetts to have earned this stamp of approval.

During the past year, the men and women of this department have achieved outstanding accomplishments in the areas of community partnerships and crime suppression. With the community's continued support, we look forward to continuing this success in the coming year.

Emergency Management

Framingham Emergency Management Agency (FrEMA) directs all emergency management operations in the Town of Framingham. Emergency management is the preparedness, mitigation, response and recovery of both naturally occurring like blizzards, ice hurricanes, flooding or earthquakes as well as any manmade disasters such as chemical spills, fires, transportation events and acts of terrorism. Framingham Emergency Management has worked extensively under its current structure to create planning groups, exercise response activities, secure funding from grants and state and federal sources and expand participation in this municipal function.

In September 2010 Frema in concert with Framingham department of public works and the Northeast Homeland Security Regional Advisory Council opened up an emergency equipment cache located at Framingham DPW. This cache is one of only three in the State and will be used to disperse equipment and supplies during emergencies. FrEMA in conjunction with state federal authorities, and prepares, administers and implements Framingham's CEMP (Comprehensive Emergency Management Plan) as well as the federal mandated NIMCAST. In 2007 the entire CEMP was rewritten and printed; this is the first time since 1997. The FrEMA also implemented a mass notification system in 2007. This system

The FrEMA also implemented a mass notification system in 2007. This system (Connect CTY) allows public safety officials to notify residents and businesses in Framingham in a matter of minutes, and enables us to give pertinent information and instruction.

In 2011 the system made 35 calls contacting 395,515 residences and businesses. A survey was conducted with the system in December 2007 and 95.4% of respondents stated they felt safer with the system in place.

This year was extremely challenging as we had two events, Hurricane Irene in August and the Halloween snow storm that disrupted power in Framingham for several days. Each event the emergency operations center was activated and worked closely with Nstar. We continue to work with Nstar to be better prepared in the event of prolonged power loss.

In 2010 Framingham also joined five other communities (Ashland, Natick, Holliston, Hopkinton and Sherborn) to form the Metrowest Regional Emergency This planning Planning Committee. committee conducted a tabletop exercise on November 17, 2011. The exercise tested our ability to communicate and effectively move assets during a multiagency event. Framingham will continue to be a leader in the ever increasing role of emergency management in a post 911 era, roles and responsibilities are increasing and the Town will need to recognize the value of emergency preparedness.

Jail Diversion Program

During 2011 the Jail Diversion Program evaluated 683 individuals with mental illness that the police department had come into contact with. Of those 683 evaluations 124 had committed minor arrestable offenses but were diverted away from arrest and into mental health treatment programs. Fifty eight of the evaluations would normally have been evaluated at the Emergency Room at Metrowest Medical Center but instead were diverted away and handled by the program's clinician. Ten of the individuals were in fact arrested for their offences but due to their mental health condition received court ordered treatment instead of punitive sanctions.

Revenue

The Framingham Police Department generates monies through the issuance of licenses and permits, administration fees and fines from parking and traffic citations. This revenue is not entered into the police budget but that of the town's general fund. Revenues are as follows:

Animal Control Department

50 Western Avenue 508-532-5870 Fax 508-620-4872 Animal.control@framinghamma.gov

Staff
Katherine J. MacKenzie
Director of Animal Control, Animal
Inspector
William C. Sage
Animal Control Officer, Animal Inspector
Joseph R. Shepard
PT Animal Control Officer, Animal
Inspector

The Framingham Animal Control Department is staffed by 2 full-time and 1 part- time Animal Control Officers. The Officers provide service to the residents of Framingham and care for the animals held by the department 365 days a year.

Animal Control Officers responded to more than 5,574 calls in 2011.

Approximately 954 wildlife calls were fielded by the department. Approximately 1,263 canine calls were fielded by the department. Approximately 366 feline calls were fielded by the department. Other calls such as animal quarantines, police assists etc. totaling approximately 2,991. In addition to regular shifts, the Animal Control Officers also respond to off-hour emergencies as needed. All members of the department are certified Animal Control Officers and sworn Massachusetts Animal Inspectors.

Framingham Animal Control Officers work cooperatively with many outside agencies such as the Massachusetts Department of Agriculture, Massachusetts Society for the Prevention of Cruelty to Animals, Boston Animal Rescue League and Metro-West Humane Society.

Animal Control Officers work in conjunction with other town of Framingham departments such as the Board of Health, Police Department and Fire Department.

The Animal Control Officers respond to calls regarding domestic animals, livestock and wildlife. There are more than 40 different locations that keep livestock and fowl within the town of Framingham.

The annual livestock census, required by the Massachusetts Department of Agriculture, Division of Animal Health, is taken by the members of this department. The Officers offer educational materials and information to the public regarding animal safety, disease prevention and disaster preparedness. This material obtained through the Massachusetts Division of Fisheries and Wildlife, Massachusetts Department of Public Health, MEMA, and the Massachusetts Department of Agriculture Division of Animal Health.

Respectfully submitted, Katherine J. MacKenzie Director of Animal Control

SWAT

During 2011 the Framingham SWAT Team conducted three tactical missions. These operations were in support of the narcotics unit during the execution of search warrants. The SWAT team consists of the Tactical Unit, Tactical Emergency Medics (TEMS) and the Crisis Negotiators. Each tactical team member trained 144 hours. Training consisted of firearms proficiency, less lethal weapons, TASER, building search techniques, arrest tactics, trauma medical care, and use of force applications.

The Negotiators and Medics also conducted training throughout the year to hone their skills. Negotiators train an average of 96 hours annually per member in crisis communication skills and the Medics train approximately 96 hours annually in emergency rescue and trauma techniques.

Auxiliary Police

The 22 dedicated men and women of the Framingham Auxiliary Police completed another outstanding year of service for the community. For the past 69 years, the Auxiliary Police have been an active and vital component of the Police Department.

The Auxiliary Police, under the guidance of Auxiliary Captain Marc Spigel, have a well-defined training program in which officers attend an academy for reserve police officers; and are trained in first responder first aid and CPR/AED. Annually the Auxiliary Officers keep their skills and certification current with field and in-service training. The result is a professional Auxiliary Police Organization that stands ready to assist this department.

Respectfully Submitted, Steven B. Carl, Chief, Framingham Police Department

Total Alarms:

The Framingham Fire Department responded to a total of 10,399 emergency calls in 2011, a five (5) percent increase over 2010 and nine (9) percent since 2009.

Emergency Responses	10,399
Non-Emergency Responses	7,926
Total Responses:	18,325

ADMINISTRATION:

Framingham Fire Department provides Fire, Rescue and Emergency Medical Services to those who live, work and travel through the community. Calendar year 2011 was the busiest year in the history of the Framingham Fire with Department our department responding to more than 10, 399 9-1-1 calls, a five percent increase over 2010. In addition to the 9-1-1 emergency responses, the department handled almost 8,000 additional calls for non-emergent assistance.

HIGHLITES IN REVIEW:

On January 7th we paid our last respects to Active Duty Firefighter Michael Urban who passed away after a valiant fight with cancer. Mike was assigned to Engine #2 at the time of his passing and is sorely missed by all.

January 7th we promoted Captain Richard Garvey to the rank of Deputy Chief

February 3rd we promoted Captain Paul Barbieri to the rank of Deputy Chief, Lieutenant Steve Stone to the rank of Captain and Firefighter Kurt O'Rourke to the rank of Lieutenant.

May 20th we promoted Captain Joseph Hicks to the rank of Fire Marshal and Lieutenant Michael Dutcher to the rank of Captain.

June 1st we promoted Firefighter William McLean to the rank of Lieutenant

Also on June 1st the Fire Department responded as part of the Massachusetts State Fire Mobilization Task Force to assist the residents of Springfield which was ravaged by a devastating tornado. The Task Forced operated in Springfield for over 12 hours.

At around 02:30 on June 10th, the Fire Department Dive Team was called to Learneds Pond to search for a missing

Framingham man. At approximately 05:30 the divers were able to locate and recover the missing man who had succumbed in the water.

September 11, 2011- The department mustered at Cushing Park to mark the 10th anniversary of the tragic events of September 11, 2001.

September 30th, we proudly pinned badges on Probationary Firefighters Jarred Griggs and Edgar Villalobos who successfully completed their firefighter training at the Massachusetts State Firefighting Academy.

November 19th the department responded to 22 Longview Rd. for a house fire which resulted in the death of one of the occupants. It was the first fatal fire House Fire in Framingham in many years.

We were successful in obtaining some outside funding through grant awards from the Federal Assistance to Firefighters Grant Program, Massachusetts Executive Office of Public Safety and Massachusetts Department of Fire Safety and will continue to seek additional outside revenue sources and grants. Some of these grants are listed below:

- Assistant To Firefighters Grant (AFG): \$21,600.00 pay for new Thermal Imagers
- SAFE-Student Awareness of Fire Educations: \$6,300.00 public safety education
- MDU-Mobile Decontamination Unit: \$3,000.00: training and maintenance of state De-Con Unit

In addition to the new Thermal Imaging Equipment, the department was granted Capital Acquisition money from the Annual Town Meeting and we were able to purchase new protective coats and pants for all of our personnel along with new Automatic Defibrillators and upgraded Hazardous Gas Detection equipment.

The department is fortunate to have firefighters who serve in the Armed Services and the Town and Department provide assistance and support to the families of these military members when they are deployed for active combat duty; many thanks to those who have served on our behalf.

The operation of the Fire Department is large and complex. We do more than simply respond to fires, rescues and medical emergencies. Because some of the incidents we encounter are larger or more technical than the resources readily available to the fire department, we work collaboratively with various departments and agencies both in and outside the town. Some of these collaborations include:

- Unified Fire and Police Fire Investigation Unit (FIU).
- Fire District #14 Regional Technical Rescue Operations.
- Fire District #14 Collaborative Dive and Underwater Recovery Unit.
- Tactical Emergency Medical Team (TEMS).
- State Wide Hazardous Materials Response.
- Massachusetts Emergency Management Agency.
- Regional Emergency Planning Committee (REPC).

With an uncertain economy, we will continue to strive to be even more creative in the way services are delivered, doing more with less while at the same time maintaining the core mission of the department.

I would like to thank the Board of Selectmen, Town Manager, Town Meeting Members and Committees and the residents for the continued support that has been given to the Fire Department.

Framingham Fire Incidents by Type:

	Fire:	Rescue:	EMS:	Service:	General:	False:
2009	406	46	6199	1054	466	1327
2010	457	59	6244	1323	485	1324
2011	469	57	6557	1267	696	1353

FIRE PREVENTION DIVISION:

The Division of Fire Prevention is comprised of one Fire Marshal, Assistant Fire Marshal and one Inspector that have the following responsibilities:

The Fire Marshal is responsible for the day-to-day operation of the fire prevention office. He is also responsible for conducting fire investigations and coordinating activities between the Framingham Police Department and the State Fire Marshal's office. responsibilities of the Marshal include giving safety talks for Framingham's schools, citizens groups, group residences, and setting up tours of the fire stations. The Marshal also meets on a regular basis with other town departments to assist in the planning of the town's future. The Marshal also sits on the Traffic and Roadway Safety Committee.

The Assistant Fire Marshal is responsible for reviewing the construction plans that are submitted to the Fire Department. He also meets with contractors regarding fire alarm and sprinkler systems, as well as conducting meetings with contractors, engineers and property owners for up-

coming projects and any problems that arise during construction. He coordinates with other Town Departments on important issues such as overcrowding, boarding and lodging house issues.

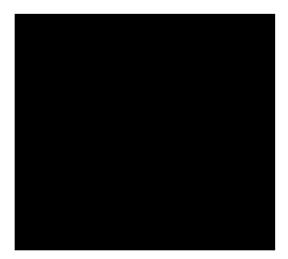

The Inspector is responsible for issuing permits and conducting the inspections required by state and local codes. He also inspects and test all new homes, new and remodeled commercial buildings as well as renovation projects. The Inspector investigates and works in conjunction with other town departments to handle complaints by citizens and departments to assure the safety of Framingham's residents, their guests, and the ever-increasing Framingham business community.

The goal of the Framingham Fire Department is to establish a fire and safety education program that will be delivered to preschool, day care, grades K-6, Boy and Girl Scout troops as well as church, community groups and the elderly. By visiting these groups on an annual basis, the safety message that they receive will become part of their lives and each child as they grow will always be

aware of fire safety. A total of \$201,967.20 was collected in revenue and deposited in the general fund in 2011. \$113,899.36 was collected in non-permit fees, such as

master box annual fees and site inspections. \$88,659.84 was collected in permit fees.

TRAINING:

The primary objective of training is to facilitate safe and effective operations. National statistics continually emergency vehicle operations as the greatest are of liability. To that end it was the first major training area to be addressed in 2010. A professional outside agency was brought in to deliver an emergency vehicle operator course to the Department. The course consisted of a classroom component in which all general laws and best practices were highlighted, and a practical component in which all members had to manipulate their assigned apparatus through an obstacle course of highway cones. This standardized emergency vehicle operations class is parallels the commercial driver's license course. This training helped to identify needs and establish some goals and objectives for the upcoming year's

training; specifically the daily vehicle check, operator's brake system check and new driver training. All three training needs are in development and will be implemented in the spring of 2011. The Framingham Fire Department Training will remain proactive in regards to safe emergency vehicle operations.

The majority of training hours are devoted to basic firefighting and medical rescue skill maintenance. Most of this training is conducted by the officers as company level drills. Of the basic skills, the self-contained breathing apparatus (SCBA) poses the most liability and remains a top training priority. SCBA training is broken down into two sections — basic procedures and emergency procedures. On a regular basis all members must demonstrate proficiency in both areas. Other company level drills follow

standardized tactics and procedures and cover a diverse range of skills such as ground ladders, hand tools, extrication, metering devices and medical care. With the exception of Sundays and holidays, training is conducted on every shift. All training is documented electronically and quality controlled by the training officer. Each Framingham Firefighter logs hundreds of hours of training annually.

Technical rescue disciplines are also an integral part of the Department Trench rescue, collapse rescue, confined space rescue, hazardous materials response and dive team operations are all specialized

FIRE ALARM

The Fire Alarm Division is responsible for the general maintenance of traffic signals, controls, the municipal fire alarm system, master boxes, street boxes and underground and aerial cable.

Seven (7) new master boxes were added in 2011. We now have a total of 917 boxes in service in strategic locations throughout Framingham. Of the 917 boxes, 560 are master boxes that protect individual properties, and 357 are street boxes.

In addition to the regular duties of maintaining and installing the fire alarm and communication system, the Fire Alarm Division was also responsible for maintaining and repairing forty-four (44) traffic signals, six (6) 4-way flashing signals, twenty-eight (28) school zone signals and two (2) 30mph 'S' curve signals. The following is a breakdown of traffic signal repairs:

64 calls for traffic signals not working;

13 calls for signal heads turned;

32 calls for re-lamping traffic signals;

areas that the Department is fortunate enough to have several members actively participating with established teams. Members of the Department that are not be trained to the operational level must be trained to a support level to be able to operate in any technical rescue.

In addition to having our own highly skilled Dive Team the Framingham Fire Department works cooperatively with the State Hazardous Material Response Team and the Fire District 14 Technical Rescue Team

123 calls for changing of time, checking preemption, Opticom, repair broken pedestrian buttons, repair knock downs, meetings with contractors digging up roads to mark underground pipes, meetings with contractors doing traffic signal improvements, preventive maintenance and investigations.

14 traffic signals knocked-down in motor vehicle accidents: 5 were reported to the Police Department, 9 were hit and run. The Fire Department is responsible for the cost of replacing these knockdowns.

95 calls for school zone signals not working properly that required time adjustments, new lamps and new clock installations. This also included time adjustments made at the beginning and the end of the school year.

The Division installed approximately 2,685 feet of new fire alarm cable for new master boxes and replacement of deteriorated cable.

27 pole transfers for Verizon were completed.

The Fire Alarm Division worked jointly with Fire Prevention in reviewing all fire alarm plans submitted to the Department.

In addition, the Division attended meetings with contractors for new interior fire alarm installations and master box locations. Both Fire Alarm and Fire Prevention worked together to perform interior fire alarm system inspections in new and existing buildings.

Total of 57 meetings

Total of 110 plan reviews

Total of 124 fire alarm inspections

EMERGENCY MEDICAL SERVICES:

American Medical Response (AMR) continues to provide Emergency Medical Services (EMS) to the Town of Framingham. Currently AMR is contracted to provide three Advanced Life Support (ALS) Paramedic level ambulances. Framingham has experienced a steady rise in medical calls as we responded to 6,557 calls for medical

The following new master boxes were added in 2011:

<u>Box #</u>	<u>Location</u>
128	66 New York Avenue
134	15 Edmunds Road

314	Concord Street
538	522 Concord Street
1629	900 Edgell Road
3349	20 Eames Street

assistance in 2011; this is an approximate 4% increase over 2010. Continued demands on Emergency Medical Services have forced the administration to reevaluate our EMS operations. AMR provides Basic and Advanced Life Support training to Framingham Fire personnel at no additional cost.

Smoke and Carbon Monoxide Detectors Save Lives

Respectfully Submitted,

Gary T. Daugherty, Sr., Chief Framingham Fire Department

Board of Health

Memorial Building, Rm 221 | 508-532-5470 | health@framinghamma.gov

THE BOARD OF HEALTH MISSION IS TO PROTECT, PROMOTE, AND PRESERVE THE HEALTH AND WELLBEING OF ALL FRAMINGHAM RESIDENTS

To accomplish its mission, the Board of Health members and staff are responsible for a diverse array of public health inspections, investigations, enforcement, permitting, consultation and education including:

Environmental Health:

 Food Establishments – Food Service, Residential Kitchens, Plan Review, Food Retailers, Caterers

- Housing Conditions
- Lead Poisoning Prevention
- Tobacco Control
- Bathing Beaches
- Swimming Pools
- Summer Camps
- Tattoo Establishments
- Body Piercing Establishments
- Tanning Establishments
- Kennels and Animal Facilities
- rDNA Research Facilities
- Sewage treatment and disposal
- Trash disposal
- Medical Waste disposal
- Private and public water supplies
- Bottled Water
- Air Pollution
- Odor Pollution
- Water Pollution
- Hazardous Materials and Safety
- Pest Control and Safety
- Solid Waste Facilities
- All nuisances and hazardous conditions

Public Health Nursing:

- Immunizations(outbreak control, individual and public K-12 school required)
- Food-borne Illness Investigation
- Vaccine Specific Clinics (Pertussis, Pneumonia, Hepatitis)
- Communicable Disease Investigation / Containment
- TB Screening (high risk, recent exposure, new arrivals)
- TB Case Management
- Influenza Clinics
- Cardiovascular Screenings
- Sight and Sound Screenings
- Skin Cancer Awareness
- Immigrant Health
- Childhood Obesity Prevention Education
- Camp Inspections (Health)

- Sharps Waste Disposal
- Teen Reproductive Health
- STI/STD Counseling
- Lead Level Screenings
- Health presentations (Professional/Clinical)
- Health programs (Public/Population Specific)
- Mentor nursing and health career students (undergrad and graduate)
- Blood Pressures
- Employee First Aid, Heart Health
- Hording Task Force
- Pandemic Response Team Emergency Preparedness:
- Framingham Medical Reserve Corp (MRC) – approximately 200 volunteer member organization providing community and medical support in emergencies.
- Member of a 34-community emergency preparedness region
- Member of the Local Emergency Planning Committee (LEPC)

Board Members and Staff

Board of Health Members are: **Michael R. Hugo**, Esq., Chairman (8 years); **David W. Moore, MD**, Vice Chairman (2 year); **Nelson Goldin**, Secretary (12 years).

These Board Members have selflessly given their time and skills for meetings, discussions, hearings, drafting of documents, writing regulations, setting policy and guiding the seven member staff.

The Board of Health held three hearings at the Woodrow Wilson School to review the 1994 Site Assignment of General Chemical Corporation on Leland Street. The site assignment hearings will continue in 2012. In addition, the Board of Health

wrote and amended the following regulations in 2011:

- Tobacco Regulation
- Fee and Permit Schedule
- Flu revolving account

Due to severe budget restrictions, the Board of Health lost one staff position in 2011. Michael Fridley, administrative assistant, was laid off. We will miss his calm demeanor and trilingual expertise in a demanding and busy office. The eight members of the staff include Ethan Mascoop, MPH, MUA, Director of Public Health. Lise Mespelli, MPH, RS serves as the Chief Sanitarian of the Department and is responsible for the daily oversight of the field inspection program. Kelly Pawluczonek, BS, RS, provides the highest level of professional service as a member of the environmental health staff and she is currently completing a master degree in emergency preparedness at Massachusetts Maritime Academy. Felix Zemel, MCP, REHS/RS, a member of the environmental health team, is currently finishing his Master of Public Health at Boston University with a concentration in Environmental Health. Kitty Mahoney, RN, BSN, MS serves as the Chief Public Health Nurse and is responsible for the functioning and oversight of the public health nursing program and administers Epidemiology and Infectious Disease program. She is the recipient of the 2011 Massachusetts School Nurse Friend Award and she is completing her second term as President of her Professional Public Health Nursing Organization (MAPHN). Laurie Courtney, RN, BSN, completed her third year as a Framingham Public Health Nurse. She is currently studying for her MSN from Framingham State University. As the Clinical Coordinator for the Medical Reserve

Corps, she coordinated the successful CDC audit of the Emergency Dispensing The nursing and inspection programs are supported by Maria Goncalves, administrative assistant, who provides all office, budget, translation and related services in a professional and calm manner in a hectic office environment. In addition. Annette Alderman, provides expert nursing coverage at peak demand periods. Joan Seariac, a volunteer from the Council on Aging, keeps the files in order and most importantly she keeps everyone sane with her cheerful disposition.

The Board of Health maintains information on its web site www.FraminghamMa.gov.

Environmental Health Services

The environmental health division 2,068 conducted inspections investigations; an increase of 62% from 2010. In addition, the staff conducted numerous plan reviews of establishments, septic system designs, summer camp applications, swimming pools and other establishments. A total of 559 inspections related to food sanitation accounted for approximately 27% of the total inspections conducted. The staff investigated 73 food establishment related complaints in 2011, 4 were food-borne illness complaints.

The Board of Health must investigate all housing complaints as required by the State Sanitary Code. These complaints are followed until compliance is attained. The Board responded to **1,152** housing complaints, of which **441** cases required re-inspections. **6** lead paint determinations were conducted which are required in units (pre-1978) where children under the age of 6 live.

Improper disposal and handling of trash and debris resulted in 36 trash related complaints. The office received 81 Title 5 (septic disposal and design) requests for field inspections and design review/approvals. 149 pool and bathing beach inspections were conducted. Recreational camps required inspections and additional extensive plan and camp staff reviews. 6 tanning and body massage establishment inspections were conducted. The Board received 55 complaints including tobacco, nuisance, odors and other miscellaneous conditions.

Public Health Nursing

The Public Health Nursing Division of Board Health provides the of investigation, surveillance and case management/containment for infectious and communicable diseases providing early and vital interventions communicable disease and cluster illness control including tracking and trends. Daily clinic hours at the Board of Health Office are: Monday-Friday: 8:30-9:30am, 4-4:45pm, a 33% reduction in service due to the elimination of the one-day a week evening clinic.

There were over **5,000** patient encounters by the public health nurses.

Immunizations

There were **2,700** office immunizations (increase of **56%**) from 2010 which includes vaccines given at shelters, employee health and at high risk settings.

Communicable Disease:

- 242 cases reported.
- Monitor all reportable, communicable and infectious diseases; track disease trends; investigate outbreaks and review statistical data for the MA Department of Public Health and the Centers for Disease Control and Prevention.

• Framingham Public Health Nurses are trained in MAVEN: immediate electronic reporting network.

<u>Tuberculosis:</u>

- Provides free tuberculosis tests for residents who are at high risk. Residents who request testing for school or work receive the test at nominal fee.
- Active tuberculosis cases are closely monitored through home/office visits for medication compliance and supervision.
- There were 4 confirmed cases of infectious tuberculosis.
- There were 101 cases of latent tuberculosis infection (LTBI). LTBI requires supervision of care plan compliance to prevent TB advancement. LTBI cases are NOT but have the potential to be infectious. All suspect cases are also investigated.

Influenza

- Approximately 2000 influenza doses dispensed in clinics, in office, to providers and for school health services for school staff.
- Significant changes of CDC and MDPH guidelines recommending that all residents 6 months and older be vaccinated.
- Successful pilot Vote N' Vax Partnership between the Health Department and the office of the Town Clerk.
- Framingham School Health Services now play a large role in the delivery of vaccine to school age children.
- The Framingham Twin Site School Model has been replicated in other states.

Camp Inspections:

- Review of staff, junior staff and camper applications for their health history and immunization requirements.
- Health lodges are also inspected.

Immigrant Health:

- Outreach included: partnerships with the Latino Health Insurance Program, United Way, Wayside Youth and Family Services, Advocates, South Middlesex Legal Service, Kids Care, Women With Infants and Children (WIC), South Middlesex Opportunity Council, Framingham Public Schools, Y.M.C.A., and various cultural community groups.
- Outreach efforts included: establishing a dedicated telephone line for health messages available 24/7, Face book, Twitter, Website, flyers, links and RSS Feeds to Health appropriate HTTPs, connect ED, exterior lit signage, radio broadcasts, cable programs and print media.

Student Interns

Student internships through Boston University School of Public Health, Worcester State College, Anna Maria College, Massachusetts College of Pharmacy, and Keefe Vocational Technical School Health Careers.

Medical Reserve Corps (MRC)

The Framingham Medical Reserve Corps (MRC) is an approximately 200 member local medical and non-medical volunteer group trained in emergency preparedness and is under the administration of the Board of Health. The MRC is a specialized component of a 34-community emergency preparedness region, and a member of the Local Emergency Planning Committee (LEPC) and Citizen Corps, a national network of volunteers dedicated to homeland- hometown security. In 2011 the Framingham MRC continued to grow, steered by the dedicated members of the Executive Committee: Annette Alderman, Alice Hsu, Cindy Tracy, Dave Robbins, Florence Goliger, Joan Metcalfe, Kathie McCarthie who held monthly planning meetings. Framingham is one of 13 sentinel communities in Massachusetts which represents the entire

state in the national Cities Readiness Initiative. MRC volunteers work under the direction of local health and safety officials, and in collaboration with other local emergency response programs. A state grant provided funding to retro-fit, stock and organize the MRC trailer which holds and transports emergency supplies. The MRC joined MA Responds, the Massachusetts Department of Public Health's online registration system, for database and messaging management. Because of its role as one of the 13 sentinel communities in Massachusetts, which represent the entire state in the national Cities Readiness Initiative, Framingham's Emergency Dispensing Plan was audited by the Centers for Disease Control and Prevention, MRC members participated in trainings, gave out health information at local fairs, staffed shelters locally and state wide following multiple weather events including the hurricane and tornado, took part in drills related to emergency preparedness, helped staff all the Town's flu clinics, and more.

East Middlesex Mosquito Control Project

The East Middlesex Mosquito Control Project conducts a program in Framingham consisting of mosquito surveillance, larval and adult mosquito control, ditch maintenance and public education.

Moderate rains during the spring and early part of the summer produced normal mosquito activity through mid-summer. Frequent rains during August and September resulted in large populations of floodwater mosquitoes. The adult mosquito surveillance program used traps to collect mosquitoes from 5 Framingham locations. Data was compiled from 29 mosquito trap collections over 9 nights.

During the summer and early fall, selected trap collections from Framingham and other Project communities were tested for West Nile Virus (WNV) and EEE by the Mass. Dept. of Public Health. During 2011 there were 6 human WNV cases in the State including 5 cases from the metro-Boston area and 2 EEE cases that contracted in southeastern Massachusetts. A graduate student intern monitored recently constructed stormwater detention basins within the district to evaluate the capability of these sites to produce mosquitoes following individual rain events and during periods of frequent rains.

The larval mosquito control program relied on the larvicides Bacillus thuringiensis var. israelensis (Bti) and methoprene, which are classified by the EPA as relatively nontoxic. An April helicopter application of Bti controlled mosquito larvae at 69 wetland acres. Field crews using portable sprayers applied Bti in the spring and the summer to 20 wetland acres when high densities of mosquito larvae were found in stagnant water. Project personnel applied time-release methoprene pellets to control Culex mosquito larvae at 6,059 roadside catchbasins. Culex mosquitoes are considered the primary vectors of WNV

For adult mosquito control, there were 6 crews assigned to apply Sumithrin to 3,870 acres at night using truck mounted aerosol sprayers when survey traps indicated high mosquito populations.

Advance notification of the spray program was done through notices in the MetroWest Daily News and on the Town website.

The Project used an excavator to maintain waterways at four sites including 158 feet of a channel by Georgetown Drive and Walnut St., 57 feet by Grant St. Extension, 96 feet by Bishop St. and 81 feet of a waterway by Sloane Drive. Hand tools were used to remove debris from waterways at two sites including 246 feet of a channel by Grant St. Extension and 200 feet by Raleigh Rd.

The Project's public education program is designed to develop awareness within the public and the private sectors as to their roles in mosquito control. The Project serves as a resource to residents, municipal officials and the local media on mosquitoes and mosquito borne diseases. web www.town.sudbury.ma.us/services/health /emmcp provides residents with information on mosquitoes, control programs and related topics.

Respectfully submitted, Ethan Mascoop, MPH, RS, Director

Inspectional Services

Ed Hicks, Electrical Inspector
Suellen Seta, Asst. Sign Officer
Paul L.M. Kelley, Code Enforcement

James Paolini, Local Inspector

James Murphy, Local Inspector Mark Shahood, Plumbing-Gas Inspector

Mark Hughes, Plans Examiner
Dave Keniry, Nuisance Officer

Michael McCarthy, Code Enforcement

Office Staff: Mary Tiziani, Office Manager Tracy Quintanilla, Admin Asst.

FY 2011 Operating Budget (Actual):\$707,031.00

FY2011 Fees Collected: \$1,329,806

For 2011 the Inspectors, Administrators and Code Enforcement Inspectors within the Building Department have had a very active year providing quality customer service and effective solutions toward resolving citizen concerns.

The focus of the Department continues to be the pursuit of the highest quality of public service by responding to concerns as they arise, to follow up on previous concerns, maintain a record of property activities reviewed by inspectors and investigators and be responsive to consumer protection.

The mission of the Building Department is to provide knowledge and service regarding local, state, and federal codes and standards in a manner which supports our commitment to the safety of our residents and to the integrity of the department. We willingly participate in programs of continuing education to keep our staff informed of the latest technology and requirements within the building trades industry as well as customer service and computer literacy.

The year of 2011 was a carbon copy of 2010 in that the permits and inspections

were virtually at the same levels. Some very interesting high end construction projects were undertaken this year by Genzyme, Bose, Staples, Boston Heart Labs, Town of Framingham DPW, TJX, and the Edward M. Kennedy Health Center.

New single and two family homes remained at last years' pace while residential additions and renovations were at record levels which is a leading indicator of our economic times whereas consumers are either buying existing homes or fixing what they currently have.

The valuation on commercial permits has dropped by 50% however this could be attributed to size or type of buildings which normally changes year by year.

The Nuisance Officer has investigated and pursued over 500 cases involving Trash & Debris, Commercial Vehicles, Unregistered Vehicles and Vehicles Parking within the front Setback.

Code Enforcement inspectors responded to over eight hundred (800) complaints of which more than 50% involved housing. The report illustrates that the inspectors addressed 58 Rooming House, 77 Illegal

Apartment, 27 Basement Apartment complaints and monitored 186 foreclosed properties.

Sign enforcement and permitting was a constant challenge due to the Sign Officer position being cut by 50%. Sign enforcement activities are down by comparison as a result of this cut. Next year's challenge shall be compounded by the Sign By-law requirement that every sign in town be compliant by December 1, 2012.

The Plumbing-Gas Inspector and Electrical Inspector averaged 8 to 12 inspections per day and also responded to an average of 1-2 after hour calls per week from the Fire and/or Police Department.

The two Building Inspectors averaged 10-12 inspections per day each and also conducted over 100 Liquor License inspections from October 15th thru January 6th. Both inspectors responded to an average of 2-3 after hour calls per week from the Fire and/or Police Departments.

The office staff processed over 2300 Building Permits, 1706 Plumbing & Gas Permits, and 1424 Electrical Permits as well as the general administrative day to day duties. Our Plans Examiner processed over 1450 plans and documents.

I would like to thank all the Town of Framingham officials, and departments that we have worked with during the course of the year. We at the Building Department appreciate the knowledge and professionalism exhibited town wide.

I would like to personally thank the Information Technology Department for their knowledge and dedication in implementing the changeover of our permitting system that will streamline permits and inspections.

In closing, I extend a special THANK YOU to the entire Building Department staff whom I have truly appreciated working with during this past year. Our combined efforts have proven to be an asset to the Town of Framingham.

Respectfully submitted,
Michael A. Tusino, CBO
Deputy Building Commissioner/Zoning
Enforcement Officer

The following is a list permit activities for the calendar year of 2011 with a Five Year Activity Summary:

Number of Permits Issued	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>

Weights & Measures

The Weights & Measures Department is required by state statute to inspect all weighing and measuring devices in the Town of Framingham each calendar year. In 2011, the Department inspected 1216 weighing and measures devices, including scanning audits. The Department collected \$43,761 in inspection and sealing fees during 2011. This surpasses the revenue for 2010. The Department issued 10 civil citations in calendar year 2011, for the following: pricing errors (scanning), unsealed gasoline meters. The total fines amounted to \$4612.50 for the calendar year of 2011. The non-criminal average fine was \$461.25. The Department had NO cases in Framingham District Court (criminal) for overcharging consumers.

The Department during 2011 saved consumers and businesses in Framingham well into the hundreds of dollars by conducting both mandated and spot inspections. This is in addition to the fees and fines collected for the town. Errors were found and corrected which resulted

in sufficient savings to consumers. The Department checked well over 4075 items in local retail stores to ensure that they scanned correctly. The Department found that 99.1% were priced correctly, .8% was underpriced and .1% was overpriced.

This was an improvement over the previous years and shows that our education and inspection program is working. The Department investigated approximately 15 consumer complaints during the year.

I want to thank Mr. Michael Tusino, the Acting Director of Inspectional Services, the town's part time Weights & Measures Inspector, Edward R. Gentili, and the Office Manager of Inspectional Services, Mary Tiziani for all their help and assistance.

Respectfully Submitted,

Edward R. Seidler Sealer of Weights & Measures

ENGINEERING AND TRANSPORTATION DIVISION

The Engineering and Transportation Division is responsible for the planning, design and construction of capital roadway and utility infrastructure projects, maintaining compliance with various State & Federal programs such as NPDES Phase II stormwater, managing the Town's Street Opening Permit and Trench Opening Permit reviewing development programs, redevelopment plans to ensure roadway and utility changes conform to the Town's construction standards, inspecting and modifications and expansions to the roadway, water, sewer and stormwater networks. The Division also provides technical expertise to the operational divisions of the Public Works Department, other Town Departments, various Boards. Committees. maintains Commissions. extensive Geographical Information System (GIS) and is the custodian of a large collection of irreplaceable paper plans and documents.

In 2011 a significant portion of the Division's resources were directed toward the Department's extensive capital improvement program. Many of the projects in this program are mandated under MADEP Administrative Consent Order (ACO).

The ACO requires the Town to undertake major sewer construction and rehabilitation projects over several years with the primary focus of alleviating reoccurring sanitary sewer overflows, a violation of State and Federal law. Failure to comply with the conditions of the ACO can result in administrative civil or criminal action. Continued improvements to the infrastructure and maintenance management of the wastewater system have resulted in significant reductions in Sewer System Overflows (SSO's).

During 2011 twenty-eight major capital improvement projects were completed or advanced. Almost fifty-four thousand linear feet (over ten miles) of water and wastewater mains were replaced or rehabilitated. Locations included Concord Street, A Street, Gorman Road, Grant Street, Grant Street Extension, Hartford Street, Arthur Street, Old Connecticut Path, Edgell Road, Auburn Street, Auburn Street Extension, Beulah Street, Elder Street, Eliot Street, Mansfield Street, Pond Street, Everit Avenue, Lawrence Street, Webster Street, Kingsbury Street, Clark Street. Clinton Street, Bishop Street. Winthrop Street, Coburn Street, Bridges Street Extension, Saucier Street, Naples Street, Hilton Street, Pleasant Street, and New York Avenue.

Construction continued on the new A Street wastewater management facility. This facility is expected to be operational in May 2012. Rehabilitations of the Pleasant Street and Pump Grove Street Water Stations commenced and both projects are expected to be completed in March 2012. Storm drain system improvements included replacement of over five thousand linear feet of pipeline on Concord Street and Edgell Road and a three foot by six foot box culvert crossing Roaring Brook on Route 30 near the Framingham/Southborough town line.

Major transportation projects included the reconstruction of eighteen hundred linear feet of roadway and twenty three hundred linear feet of sidewalk on Water Street; the reconstruction of twenty three hundred linear feet of roadway and twenty nine hundred linear feet of sidewalk and the installation of three raised crosswalk tables on State Street; and the resurfacing of forty six hundred linear feet of roadway on Saint Lo Street, Guadalcanal Road, and the southern portion of Concord Street.

The Division also coordinated with the MassDOT to advance several bridge projects. Construction was substantially completed on the Fountain Street and Danforth Street bridge replacement projects and designs progressed for the replacement rehabilitation of the Winter Street Bridge over the CSX Railroad, the Central Street Bridge over the Sudbury River in Saxonville and the Wickford Road Bridge over the Sudbury MassDOT is scheduled to bid the construction for the Winter Street, Central Street, and Wickford Road Bridge projects in mid to late 2012.

In 2011, eighteen design projects were advanced, six to completion. Significant ongoing design work includes sewer capacity improvements downstream of the Technology Park and transportation and streetscape improvements in the downtown area. The Division is pursuing grant funding over and

above the \$12.9 million already obtained through the Massachusetts Life Sciences Center (MLSC) to continue infrastructure improvements necessary to support additional economic development in the Technology Park and has secured almost \$5 million in funds for the downtown federal transportation improvements. The Division is also advancing the permitting necessary to reactivate the Birch Road well field. effort includes working with the United States Geological Survey (USGS) to refine a sophisticated groundwater model.

While the U.S. Environmental Protection Agency (EPA) delayed the release of the new NPDES Phase II Stormwater permit, the Division continued its planning efforts based on the requirements contained in the draft version of that permit. Work included outfall testing and inspections, public education and outreach, and quantifying the resources (staffing and funding) that will be necessary for compliance if the terms of the final permit are consistent with those in the draft version that the EPA promulgated. Also completed was the second phase of a comprehensive town-wide Stormwater Master Plan.

In addition to updating the GIS system to capture the significant amount of construction work completed by DPW, the Division also assisted several other departments in 2011. These included the School Department with elementary school enrollment mapping, the Town Clerk's office with the 2010 Census redistricting process, the Board of Health with environmental action mapping, and the Middlesex District Attorney's office in support of several school/park zone drug cases.

The Division continued the document scanning efforts initiated in 2010. In 2011, six thousand additional historic paper records were scanned and inventoried.

The Division reviewed three hundred and forty seven plan submittals received either

directly or routed to DPW from the Building Department, Planning Board or Zoning Board of Appeals; and processed four hundred and ninety seven Street Opening Permits and three hundred and eighty three Trench Opening Permits.

HIGHWAY MANAGEMENT PROGRAM

The Highway Division is responsible for the maintenance and repair of the Town's roadway and sidewalk infrastructure including; pavement markings, granite and bituminous curbing, street and regulatory signage, stormwater utilities, traffic islands and public shade trees.

Stormwater Management

The Stormwater Management System consists of more than 200 miles of surface and subsurface drainage systems, 12,200 catch basin and manhole structures, and more than 600 drainage outfalls. 2011 construction projects completed by Town and contracted personnel included the installation of 290 linear feet of new drain line, stormwater pipe and catch basin installation on Waverley Street, drainage system installation on Spring Street, as well as the repair of 104 drainage structures and cleaning of 105,000 feet of drain line. 1,550 feet of drain channels were dredged by the State Trust Agency for mosquito control and 277 drainage structures were repaired or adjusted in conjunction with the Capital Road Program. The Division also upgraded the drainage system at the Western Ave Public Works Facility by installing 160 feet of drain line and a precast headwall. The Division has instituted a monthly inspection process in its proactive drainage structure maintenance program.

The Division is responsible for maintaining, inspecting and operating the Town's Saxonville flood levee system which consists of 2,550 feet of earth dikes, 1,340 feet of concrete flood walls, 1,000 feet of channel realignment, a pumping station, interior drainage and a vehicular flood gate.

In order to maintain compliance with the U.S. Protection Environmental Agency's Stormwater Phase II Permit, the Highway Division made a vigorous year-long effort to visit and clean catch basins utilizing both Town crews, as well as contracted services, to silt, sand, and debris remove approximately 5,680 catch basins. Over 1,295 tons of catch basin debris was removed from catch basins and hauled to an accepting facility by Town equipment and personnel. The storm drain cleaning program has continued to produce a significant repair list as the inspection process progresses. The Beaver Dam Brook and Hop Brook continue to be significant operational challenges for the Division as even modest rain events may cause the brooks to surcharge at the many culvert headwalls in both South Framingham and the Gregory Road and McAdams areas of North Framingham. The deficiencies in the stormwater systems throughout the Town are a major cause of unscheduled overtime and emergency repair cost incurred by the Town.

In an effort to minimize the amount of sand entering and further diminishing the capacity of the system, the Division has continued strict control practices for the use of de-icing materials during the winter months. In addition, an aggressive and comprehensive post-winter street and sidewalk cleaning program is performed annually to remove as much sand as possible from the streets and thereby minimize the opportunity for accumulation in the drainage system.

The Division performs a comprehensive town wide street cleaning routine as well as overnight sweeping in the streets and sidewalks of the commercial areas to minimize the entry of materials into the drainage system and to provide a cleaner environment in the downtown area. The removal of sand and debris from the Town's catch basins and manholes remains an operational priority each year.

Pavement Management

The 2011 road program addressed more than 18 lane miles of roadways in the Town. The construction projects included the replacement or upgrade of roadway elements and appurtenances so that both regulatory guidelines and directives continued to be adhered to and visual enhancements could be made. New pavement markings, street signs, sidewalks, granite and bituminous curbing, wheelchair ramps and curb-cut control measures were addressed during construction.

Through the integration and management of specialized contracted equipment with in house resources, the Division repaired over 3 miles of deficient roadways through a milling and paving method. The development of this program has led to greater cost control, quality control, and accountability while performing repair work on defective roadways. The strategy and design behind this program had drawn the attention of other large communities in the Commonwealth. In addition, the Division responded emergency repairs, preventive maintenance, and filled over 10,000 potholes in 2011. The Division has replaced 2,640 linear feet of defective guardrails through this ongoing, state financed (Chapter 90), road program.

Winter Storm Management

The Highway Division is responsible for the provision of a safe automotive and pedestrian environment both during and after winter storm events. This effort involves the plowing and treating of 550 lane miles of public roadway, 36 municipal parking facilities, 77 miles of sidewalks and public pathways, 183 crosswalks, 187 cul-de-sacs and 31 school crossing-guard stations and student drop-off areas. Snow and ice operations are among the most important of responsibilities charged to the Department of Public Works. No activity performed by a Town entity encompasses more uncontrollable factors, nor has a greater impact on the community than does that of the proper handling of snow and ice events. Those factors include weather, the amount of snowfall, rate of snowfall, duration of the storm, and type of precipitation. Not only do these factors have to be considered, their impact on resources and costs, including manpower, equipment, and materials must be understood and appropriately managed.

The Division has integrated the Town's Geographical Information System (GIS) with an Incident Command Structure to manage each event. The purpose of this strategic effort is to provide a high level of accountability while applying the appropriate amount of resources to each storm event. In order to be fiscally responsible, the Department has developed a strategy to focus on main roads with greater speeds and higher traffic volumes, while utilizing a measured response on secondary roads, making them safe and passable.

All town spreader trucks are equipped with a computerized distribution system that operates according to ground speed, thus ensuring the uniform distribution of de-icing materials.

Tree Warden & Forestry Management

The Highway Division is responsible for the maintenance management of the Town's estimated 12,000 public shade trees and for the development of a Public Shade Tree program for the community. The purpose of this program is to promote, preserve, and enhance the shade tree environment of the community through the application of best management practices and public education campaigns. The Town of Framingham was named a Tree City USA again in 2011 by the Arbor Day Foundation. This designation provides a framework for public education, a positive public image and citizen pride.

The Highway Division oversees the Town's vegetation management program that is permitted annually by the Massachusetts Department of Agricultural Resources Pesticide Bureau. This program allows the

Department to apply best management practices for the control of curbside vegetation that otherwise would grow uncontrollably and require the commitment of substantial and sustained labor to control unwanted growth.

A primary and recurring function of this operating group is the statutory requirement to maintain minimum clearance over the 550 lane-mile roadway network. In 2011, 58 miles of pruning were completed to provide clearance and safe travel lanes. The Town's shade trees, while providing a great public amenity to the Town, require routine maintenance so that they do not also become a public liability. The tree crew performs an town-wide survey to annual identify hazardous trees and diseases and undertake corrective follow-up actions. These steps reduce potential tree related damage and emergency responses during weather events. In the event of severe weather, such as 2011's Tropical Storm Irene and the October 29-30 snow storm, the Division is responsible for the cleanup and removal of storm debris. particular storms in destroyed Those requiring of removal. hundreds trees Thousands of others were injured or compromised that require present and future attention. The Division was responsible for two curbside brush collections provided for residents following these events.

The Tree Warden conducts frequent hazardous assessments, prescribes tree treatment, oversees removals, and participates in public hearings on issues related to trees within the right of way. The Department routinely responds to residents' inquiries and requests for service, and Forestry Management personnel removed 161 dead, diseased, and/or hazardous street trees in 2011.

Traffic Systems Management

The Traffic Systems section of the Highway Division manages the maintenance, fabrication, and placement of the Town's

regulatory and street signage, steel-beam safety guardrail, installation of new and annual maintenance of existing pavement markings, and the work zone safety program for operations. section Division This responsible for advance planning of traffic management coordination for roadway construction, for the as well as "no implementation ofstreet-by-street parking" postings required to efficiently advance the street sweeping program. The pre-planning for traffic management during the construction season maximizes efficient production of the work, and also contributes to a safe environment for motorists and work crews alike.

The Traffic Systems section managed the annual contract and divisional painting of 81 miles of yellow centerline, 93 miles of white edge line, over 700 crosswalks, 771 stop bars, and 362 arrows throughout the Town.

The Division installed and or replaced hundreds of regulatory signs and advisory signs either by direction of the Board of Selectmen, the Traffic and Roadway Safety Committee, or as required through routine maintenance practices.

SOLID WASTE MANAGEMENT PROGRAM

Solid Waste Management

The Solid Waste Management Program is responsible for the management and oversight of the Town's Solid Waste and Recycling Programs. Materials are collected by means of curbside and containerized collection programs, the leaf and yard waste drop-off area and the operation of a Resource Recovery Center located on Mt. Wayte Ave. The Division manages the collection of refuse and recycling from 19,508 dwelling units weekly, averaging more than 3,900 curbside collection stops and 90,000 pounds per day collected curbside.

During 2011 the Town experienced two major weather events; Hurricane Irene and the October Nor'easter. Among other things, these storms resulted in major tree damage throughout the community. As a result, in conjunction with the Highway Division, two special town wide curbside brush and tree limb collections were performed. This allowed residents to remove tree waste storm debris from their yards. The two divisions collected, managed, and recycled close to 70,000 cubic yards of tree waste. By comparison, the division managed 1,700 cubic yards of similar material at the Dudley Road Yard Waste Facility during 2010 in its entirety.

July 1, 2011 marked the transition of contractors providing our curbside recycling service. This also marked the change to an every other week recycling collection This change resulted in a schedule. \$200,000.00 savings in the FY2011 budget. While the recycling is now collected on an alternating week schedule, the use of the recycling carts has continued to allow for increased recycling participation and trash reduction. On average, in 2011 the typical homeowner recycled fifty pounds more per year and disposed of 90 pounds less trash per year over 2010. This resulted in an additional trash disposal cost avoidance of \$60,000.

Since the initial cart distribution many home owners have requested to enlarge the capacity of their cart. To date, the division has satisfied close to 1,800 service requests from residents to exchange their cart to the larger, 96 gallon, size.

The radio frequency cart identification system (RFID) is now fully functional. This allows the town to track what home carts are assigned to, how often and what time of day they are serviced. This has become a valuable tool for the town to maintain contractor accountability ensuring the proper delivery of service has been performed.

The division has continued to employ a multi facetted approach to decrease the Town's overall trash disposal costs. Some of these approaches included:

- 1. The attainment of waste reduction grants from the Massachusetts Department of Environmental Protection (MassDep).
- 2. In April 2011, the division sought and was awarded a \$100,000 Municipal Grant from MassDep's Sustainable Materials Recovery Program (SMRP). This grant was specifically earmarked to reduce the town's cost for the purchase of the wheeled recycling carts.
- 2011 is the second year of a MassDep pilot program grant sought by the division for the elimination of Styrofoam lunch trays and food composting in the public schools. Currently, Barbieri Elementary has installed dishwashing machines and is utilizing reusable lunch trays. This change has allowed the division to cut trash disposal cost by 50 percent at that school. We are in the process of updating and installing efficient dishwashing machines at two other schools to continue the elimination of the Styrofoam trays in the district.
- 3. Starting in July 2011 the Resource Recovery Center began selling natural mulch and compost to homeowners and landscapers at a reduced rate. This helped reduce disposal cost, raise additional revenues for the town, and create a full circle recycling loop. The division has provided these materials for various town projects such as creating a garden at the high school, as a soil amendment in athletics fields, landscaping at the Village Hall and has been used at the Resource Recovery Center itself. These materials are provided at no cost to other town departments allowing them significant financial savings.
- 4. Public Education 2011 continued our themed monthly events and programs. These events and services are offered to residents at no additional cost. These

include Household Hazardous Waste Day, the Earth Day Celebration and the Town Wide Green-Up Day. Our most popular events continue to be the Shred Fest (secure confidential document shredding) and Electronics Day. Furthermore, the electronics take-back day has allowed the town to donate hundreds of pounds of non-perishable food to local food pantries as participating residents are encouraged to make a donation. This has also helped the Town to properly recycle and dispose of thousands of pounds of discarded electronics.

The Resource Recovery Center (RRC) located on Mount Wayte Ave has continued the tradition of providing quality service to residents. In 2011 the division had robust sticker sales issuing 6,898 permits to residents providing access to the solid waste and recycling services offered at the facility. center continues to provide excellent customer service at reduced costs to the residents as well as generate a significant revenue stream. The Town continues to partner with the Town of Wellesley, the Town of Needham and private entities in the marketing of recyclables. This has allowed a greater revenue stream to be produced for the recyclables received. Through fees collected for divisional services and marketing of the recyclables during CY2011, \$229,945.84 was generated for the General Fund.

In 2011 the town continued to enjoy the successes derived by making it easier for residents to recycle. In addition to the hazardous and hard to manage wastes collected at the RRC, the center collected 373.39 tons ofrecyclables. Curbside recyclables collected totaled 4,707.23 tons (358.83 tons higher than 2010). This represented an overall trash disposal cost avoidance of \$462,336.42.

WATER AND WASTEWATER MANAGEMENT PROGRAM

The Water and Wastewater Program is responsible for the provision of a drinking water supply, a fire suppression service, and a sewer collection service to the 70,000 residents of the community that it serves.

The Water Department is responsible for the distribution of a public potable water supply and for the provision of fire suppression service to the 17,000 residential commercial accounts within the community. The average daily water demand of nearly seven million gallons per day (mgd) is purchased from the Massachusetts Water Resources Authority (MWRA) and subsequently distributed throughout the Town by means of a complicated system of pumps, pipes, valves, and reservoirs. Water Department program provides for the maintenance and repair to the water distribution infrastructure that includes; 250 miles of pipe, 17,000 service connections, 2,000 hydrants, 4,800 gate valves, 22,000 meters, 4 pumping stations, 3 booster stations, and 6 above ground water tanks having a storage capacity of nearly 9 million gallons.

The Wastewater Department is responsible for the collection and transport of 5-10 million gallons of sewage each day. A significant portion of wastewater flow during peak periods is infiltration and inflow (I/I) from sources such as leaking pipes and sump pump discharges during wet weather. Sewage is conveyed from town systems to the MWRA which is charged with the transport and treatment of sewerage from its forty-three member communities. The town's collection system consists of 226 miles of gravity mains, 18 miles of force mains, 50 pump stations, 6,600 manholes, and over 40 miles of cross-country sewer-line easements.

The Division's capital improvement programs have been substantially under-funded in recent decades and, as a consequence, the critical infrastructure has experienced ever increasing incidents of failure. The system

continued to grow and expand over time, but the funding for the aging and expanding infrastructure did not keep pace with capital needs. As a consequence, the Division was historically engaged solely in performing unscheduled maintenance and was unable to devote resources to perform critical the This maintenance to system. underscored by the issuance of an Administrative Consent Order (ACO) and ofNoncompliance Massachusetts Department of Environmental Protection (MADEP) during March 2007. The ACO requires the Town to undertake major sewer construction and rehabilitation projects over several years with the primary focus of alleviating reoccurring sanitary sewer overflows, a violation of State and Federal law. The ACO has several other requirements including increased staffing levels, major equipment purchases, implementation of a SCADA system to remotely monitor and control pumping stations and strict reporting requirements. It is anticipated that the key components of the ACO will be completed on schedule by the end of 2013. Failure to comply with the conditions of the ACO can result in administrative civil or criminal action.

The Department also faces the continuing challenges of managing second a Administrative Order originally issued by the Massachusetts Water Resources Authority in 2003. The MWRA Settlement Agreement limits the level of sulfide that the Town is authorized to discharge to the MWRA system through operational efforts. Sulfide generation can cause odor and corrosion problems in sewers which sometimes can be catastrophic. Activities which the Wastewater Department performs to mitigate the generation of sulfide chemical dosing include at selected pumping stations, targeted wastewater collection system cleaning and inspection, and grease interceptor enforcement of requirements at food establishments. A major cause of sulfide is the wastewater detention time associated with the 50 pumping stations and 19 miles of related sewer force main sewer. The Department plans on eliminating up to eight wastewater pumping stations and related force mains over the next several years as part of its Capital program.

In recent years the Department of Public Works has developed a professional and knowledge workforce at all levels and disciplines. This progression has provided an opportunity to identify and fully carry out capital projects of limited scope from design through construction using Public Works staff. This practice not only provides the Town with a significant cost savings over contracting for these services but is used as a tool for continually training our employees. During 2011 approximately 2,675 feet of water and/or sewer infrastructure was replaced using this approach in Freeman Street, Davis Street, Milton Street, Torrey Street, Broderick Drive, and Wood Avenue.

The aforementioned construction activities were in addition to the excavations required by department staff to repair over 205 water system failures and 122 sewer system failures during the course of the year. Additionally the Water and Wastewater Division responded to over 1,900 first response calls and replaced 30 fire hydrants. The Wastewater division, performed video inspection of over 119,000 linear feet of sewer pipe whereby the condition of the sewer is documented using a camera unit which is remotely controlled and travels through the pipe. The inspection process reveals areas of the system that have actual or potential problems that may require repair or replacement.

Twice each year the Water Department Collects drinking water samples from fifteen homes which are subsequently analyzed for their lead content. The U.S. Environmental Protection Agency has set the action level for lead in drinking water at 15 parts per billion (ppb), the level which triggers corrective actions to be undertaken by the water supplier. The results of our sampling program have successfully met that goal once again

during 2011 as they have for the past several years.

The Water Department also performs approximately 900 bacteriological tests annually to ensure the quality and protection of the Town's drinking water. The Town maintained continuous compliance throughout the year with the Environmental Protection Agency's standards related to bacteria testing (Total Coliform Rule).

CONSERVATION COMMISSION

The Conservation Commission Office is responsible for implementing local, state, and federal wetland laws, managing over 400 acres of conservation land, and engaging the public in conservation efforts.

The Conservation Office is responsible for reviewing all proposed and on-going municipal, private, commercial, and industrial projects to determine if they fall under the iurisdiction of local, state, and federal wetland laws. Conservation staff conducts inspections, attends pertinent meetings and represents the Commission in legal matters. Staff advises and provides technical expertise to the Conservation Commission to assist with the protection of the environment. Other duties include: managing conservation land owned by the Town; overseeing the Framingham Stewardship Program; directing the Aquatic Management Program and providing education and outreach to residents.

1. Wetlands Protection Achievements, the Commission and staff:

- Reviewed, for jurisdictional relevance, all applications for 199 interdepartmental reviews (Building Permits, Planning Board Permits, and Zoning Board of Appeals Permits);
- Held 21 Public meetings to discuss project applications, land management efforts, and public education efforts;

- Reviewed 27 and permitted 27 Notices of Intent applications though one applicant withdrew their NOI;
- Reviewed 11 and permitted 11 Requests for Determination of Applicability applications;
- No Emergency Certifications were issued;
- Performed numerous site visits and inspections to gain first-hand information on-site conditions and verify wetland delineations.

The Commission continued to oversee active projects from prior years. It issued:

- 6 Amended Orders of Conditions for project changes
- 1 Permit Extension
- 11 Certificates of Compliance
- 7 wetland violations
- 2. Land Acquisition and Stewardship The Conservation Achievements: Commission succeeded in supporting Land Acquisition and Protection as well as Open Space for 2011 by signing two Conservation Restrictions, working with other departments to successfully receive a grant application for the acquisition of Eastleigh Farms, and acquired approximately 12 acres of new open space by 618 Grove Street. In addition, the Framingham Conservation Commission's Stewards continuously maintained Conservation Lands by cutting vegetation that overgrew onto the trails, and cleaning debris. The Stewards also informed staff of any issues with Conservation Land. Due to the severe weather events experienced in 2011 the Commission coordinated with the Highway Department to alleviate trail hazards to keep lands open to the public
- **3. Educational Achievements:** The Conservation Office held three events for education and outreach purposes. The Conservation Office supported Earth Day which was held by the Framingham Sierra

Club. The Conservation Office had a table at event explaining Conservation Commission jurisdiction, public land, and their roles in the Town. In addition, the Conservation staff Geocaching/Letterboxing event which had over 40 participants on September 24, 2011. Informational clues geared conservation and sanitation themes were created for children participating in the event. The Conservation Office ran a stewardshiporiented event at Riverfest (June 2011), where there was a canoe ride showing the resource area (Sudbury River), and a Nature Walk where Commissioner Pam Helinek walked through the trail and pointed out plant species and their properties (i.e. edible, medicinal purposes, etc).

4. Administrative Achievements: Conservation Commission works closely with DPW, Park and Recreation Dept., Planning Board, Building Dept., and Community and Development ensure Economic to compliance with state and local wetland laws. Conservation Commission Staff works closely with several local organizations such as Sudbury Valley Trustees, New England Wildflower Society, Bay Circuit Trail Alliance, SuAsCo Wild and Scenic River Stewardship Massachusetts Department of Council, Conservation and Recreation, Massachusetts Department of Fisheries and Wildlife, and the Massachusetts Department of Environmental Protection, to protect the Town's wetland resource areas and open space.

FLEET, FACILITIES AND COMMUNICATIONS PROGRAM

The Fleet, Facilities and Communications program continues to provide a critical support service to various Public Works' programs and also provides vehicle and equipment maintenance support to other agencies within the Town. This Program is accountable for; the development and implementation of professional fleet management standards and practices, the design and procurement of all public works

vehicles and equipment, and for providing standardized maintenance management practices for all public works facilities including water, wastewater and pumping stations. The Division is also charged with the management technical of telecommunications network and thereby provides a critical service component to the Department's Emergency Management Response Plan.

The Fleet, Facilities, and Communications Division's role is to provide logistical support to the Department through the provision of fully operational equipment, facilities and telecommunications that together, ensure the effective and efficient delivery of essential services to the residents of the community. These vital services include the provision of public safety, public works, and public utility functions for the residents of Framingham.

This year we were able to upgrade the Town's emergency channel 3 with digital capabilities which will give the Town of Framingham's Emergency Management Agency full interoperability and provide a secure link between department heads and managers in the event of a public communication system breakdown. This was accomplished with grant money from the Framingham Department.

The Town continues to be one of three major equipment and materials cache sites for the Northeast Homeland Security Regional Advisory Council (NERAC). In the fall of 2011 the cache site's equipment was utilized during the Tropical Storm state of emergency. pumps were delivered to Massachusetts Emergency Management Agency (MEMA), a light tower was delivered the Town of Sherborn and communications tower was delivered and set up for the Town of Stow. Also, one of the large standby generators was used at our pump stations due to various power outages throughout the Town. The Highway Division

utilized one of NERAC's wood chippers to help with the Town-wide cleanup.

Fleet Management

In 2011 the Division researched, designed and prepared specifications for the procurement of the following specialized equipment: One brush chipper, two sidewalk tractors for snow removal, a large self-contained snowblower, two 40,000 GVW snow fighting trucks with sanders, front plows, center scrapers and wing plows. Also included were four heavy duty pickups with plows, two medium duty dump trucks with plows, six heavy duty utility body trucks with plows, a heavy duty rack body truck with a lift gate and plow, and a 72,000 GVW automated refuse packer with a plow.

Technician training sessions continue both inhouse and off site to help keep our technicians current with the ever changing industry.

This has been the fifth winter season that we have setup a temporary site at the King School for technicians who are assigned to be on the north side of town during plowing events. This continues to work very well in providing the technicians a more functional area to work so repairs can be performed more effectively and reducing the vehicle's 'out of service' time that would occur returning to the Western Avenue facility.

In 2011, Fleet Services wrote 2,204 repair orders, performed 476 scheduled preventative maintenance services and completed 166 Commonwealth of Massachusetts Registry of Motor Vehicles Enhanced Emissions State Inspections.

The Division also managed the acquisition & distribution of more than 272,000 gallons of gasoline & diesel fuel.

Facility Maintenance

Again this year the Department of Environmental Protection's Stage II Vapor Recovery Certification program was

performed for the fuel system at Western Avenue along with the annual calibration of the fuel pumps which was performed by the Town's Sealer of Weights & Measurers. The oil/water separators at Western Avenue and the Mt. Wayte recycling facility continue to be inspected quarterly and pumped out in compliance with DEP regulations as needed but at least annually. We continue to perform full load tests on the emergency/standby generators at both the Western Avenue and Henry Street facilities. This is done quarterly to ensure proper operation along with a semiannual maintenance program. The annual fire sprinkler inspection was performed at the Western Avenue facility.

During the winter the roof on the recycling storage building at the Mount Wayte facility was compromised due to the amount of snow that had fallen. This building was condemned and was removed. A new storage facility was constructed in its place and was ready for occupancy by December 1. The cost of this facility was covered by the Town's insurance.

We have completed the replacement of the yard lighting at the Western Avenue facility. The lighting units were replaced with energy efficient LED pole lights. This replacement program was partially funded through an NSTAR grant.

The Spill Prevention Control and Countermeasure Plans (SPCCP) are reviewed annually to insure accuracy. This plan is necessary so there are guidelines in place to respond to any type of uncontrolled release of hazardous materials. This plan also includes all of the town's pumping stations and the Resource Recovery Center.

Fleet Services continues to do a monthly inspection of the Watson Place flood station and performs any necessary repairs.

ADMINISTRATION & FINANCE

The Administration and Finance Division provides for the consolidation of all

administrative and financial functions within the Department of Public Works. The Division strives to enhance the efficiency and accuracy of financial and administrative functions within the Department through the use of professional practices.

The core mission of the Division of Administration & Finance is to provide service and technical support to the major Divisions within the Department of Public Works: Engineering, Conservation, Highway, Solid Waste, Fleet, Water and Wastewater as well as providing other Town Departments with information in a timely and accurate manner.

The Division is also responsible for the management of grant funding, as well as federal reimbursement activities that are related to storm emergencies and other events.

Water and Sewer utility billings for the Town of Framingham are also managed by this Division. Staff issued approximately 73,000 bills in 2011. Most residential customers in Framingham are billed quarterly for water and sewer usage, while commercial, industrial and high volume customers are billed monthly. The staff also administers the Senior Discount and Utility Abatement policies on behalf of the Board of Selectmen.

During 2011 this Division worked with the Treasurer's Office and an outside vendor to enhance the on line payment process for residents. This new option was made available to residents during 2011.

In July 2010 a new software system was implemented for utility billing activities.

During 2011 Division staff completed the first full year cycle of billing processes. This robust software along with the benefits of the automated meter reading (AMR) system greatly improved the efficiency and accuracy of utility billing and enhanced customer service. The number of estimated bills released by the department has declined significantly since the AMR system success rate consistently exceeds 99%.

The AMR technology provides meter readings for each property four times a day. This feature has been an important tool in helping customers understand their usage and identify leaks. It is also a key tool in the evaluation of abatement requests.

Three federal emergency declarations were issued during 2011: a January snow event, the August Tropical Storm Irene emergency and the October "Halloween Storm". Reimbursement of \$291k was received from Federal Emergency Management Administration (FEMA) for the January event. The Department has submitted costs to FEMA for the August event totaling \$102,288.07. Department staff continues to work with FEMA representatives on the Halloween storm.

Members of the department oversee the Drain Layer License renewal process and the processing of personnel related activities for the 150 members of the Public Works Department as well as the processing of thousands of vendor invoices.

Respectfully Submitted,

Peter A. Sellers, Director of Public Works

Memorial Building, Rm B37 | 508-532-5450 | planning.board@framinghamma.gov

PLANNING BOARD

The Planning Board strives to work with both project proponents and the public to shape projects that minimize impacts to the community while accommodating new growth. Such growth provides excellent employment opportunities and a growing tax base to the Town. Highlights of the year and of the range of projects before the Planning Board in 2011 are provided below:

THE BOARD

The five (5) present Board members are Susan P. Bernstein, Andrea Carr-Evans, Christine Long, Thomas F. Mahoney and Carol J. Spack. On April 7, 2011, the Board elected Andrea Carr-Evans to the position of Chair, Susan P. Bernstein to serve as Vice-Chair, and Christine Long as Clerk. The Planning Board Office is staffed with three employees. John W. Grande served as Planning Board

Director. Mary Ruth Reynolds served as Administrative Assistant. Amanda Loomis served as the Associate Program Planner.

In calendar year 2011, the Board held 43 regular meetings and 7 additional meetings (working sessions, site visits or joint meetings with other Boards or Commissions or neighborhood groups. The Board held public hearings and meetings to consider applications for the following: 11 Site Plan Review Approvals, 10 Special Permits, 4 Modifications to Approved Site Plans, 4 Public Way Access Permits, 13 Approval Not Required Plans, and 3 Modifications to a Scenic Road.

APPROVED PROJECTS

9-11 Arbetter Drive

The Applicant proposed to expand the previously approved existing parking along the westerly side of the driveway to twenty (20) parking spaces for the existing long term health care facility, "Oaknoll". The additional parking is to alleviate overflow of parking that is taking place on the access driveway.

29 Upper Joclyn Avenue

The Applicant, Framingham School Department, proposed to alter the existing parking lot area and access driveway, including parent drop off locations for the Juniper Hill School, in order to comply with the Americans with Disabilities Act related to parking and access requirements and provide stormwater infrastructure to control stormwater runoff on the property.

98-100 Dudley Road

The Applicant, Town of Framingham School Department, proposes to expand the existing parking lot area and access driveway to provide a dedicated student drop off and parking area. The proposal is to construct 60 new parking spaces. The additional parking and student drop off area will allow for bus pick up and drop off to be relocated from Cushing Park to the school property improving traffic circulation for the school and reducing traffic congestion on Dudley Road.

30 Worcester Road

The Applicant proposed to raze the existing restaurant/office building and rebuild it in a new location at the property known as 2 and

30 Worcester Road, Framingham and 1450 Worcester Street, Natick.

The proposed project, which will be built in two phases, consists of: Phase 1 (i) razing the Existing Front Building; (ii) rebuilding a new structure in a new location further back from Worcester Road, increasing the building size slightly from approximately 11,786 square feet to approximately 12,532 square feet; and (iii) installing significant landscaping and lighting improvements; and Phase 2 (i) renovating the Rear Building by removing the loading dock; and (ii) upgrading the Project Site by adding thirteen (13) parking spaces and installing related landscaping and lighting improvements.

39 Grant Street

The Applicant proposed to install 19 parking spaces in the basement at 39 Grant Street. The dimensions of the spaces themselves meet all dimensional requirements; however, due to the location of the columns in the basement and the width of the garage entry, the parking layout did not comply with the aisle width requirements of the By-Law. The Applicant's representatives requested a Waiver from the Dimensional Requirements to allow the aisle widths as depicted on the submitted Plans.

The Applicant's representatives explained that the 18 spaces shown on the approved 2002 Site Plan behind the property at 39 Grant Street were in fact installed; 4 parking spaces shown on the Approved Plan in the area of the parking entry to the Dennison Triangle Complex were not constructed. The Applicant's representatives requested that this area remain landscaped, agreeing to land bank the parking spaces and to install them at a later date if determined by the Planning Board to be necessary for the use.

47 New York Avenue

The Applicant proposed to install approximately 16,500 square feet of

temporary modular office trailers. The location of the trailers will be in the same general area as the location of the former transportation center. The installation of the new temporary trailers would abut and connect to the existing trailers on the site.

The temporary above ground sanitary sewer line will be replaced with a new connection to the existing sewer line.

As for parking, the plan is to restripe the existing parking area. Accordingly, upon completion of the Project, there will be 134 parking spaces on the site which will accommodate the needs of the 130 employees which are anticipated.

115 Beaver Street

The Applicant proposed to update the site, including repair and repaving portions of the paved areas within the site, and improve existing lighting. The lighting has been examined to make sure that there is no light spillover onto residential areas. Additionally, the Applicant has also added a landscaped area adjacent to the entrance to the site along Beaver Street.

The premises consist of lot with an area of approximately 159,210 square feet or 5.8 acres, an industrial building containing approximately 21,440 square feet of gross floor area and a second building containing an area of approximately 3,000 square feet.

The Applicant has entered into an agreement with Safeway Services, Inc., ("Safeway") to lease the trucking terminal building together the surrounding concrete bituminous pavement. Safeway expects to employ approximately 16 persons at this site. A total of 21 conforming, off-street parking spaces will be lined in the area adjacent to the easterly side of the building as shown on the Safeway will have two tractortrailers and two 24-ft. long box trucks that would be used to deliver its products. These will be stored overnight within the fenced, paved areas.

222 & 236 Cochituate Road

The Applicant proposed to demolish the existing structure and to combine both parcels and to construct thereon, a 4,122 square foot dentist's office.

The driveway location was kept as far east as possible to avoid any conflict with the intersection of Route 126 and Route 30. The drainage system will be updated by current requirements and will maintain the general drainage characteristics with the recharge of the stormwater as approved in the original design. Other site improvements include buffers and landscaping improvements.

A total of 27 parking spaces will be provided on site. A 6 foot sidewalk is proposed along the building.

375 Cochituate Road

The Applicant, REI, proposed to add two rows of solar panels, pedestrian modify existing improvements, and to landscaping on the property. The project proposed the landscape to be renovated around the solar carports by creating mini habitats within each island using native plants. The installation of the carports will required the removal of the existing trees.

Other site improvements include repair and replacement of the existing curbing, low clearance signage, new landscaping, and decorative trim on the carport piers and measures to protect the piers from being hit.

500-540 Worcester Road

The Applicant proposed the expansion, renovation and modernization of the existing Acura vehicle showroom, including a second floor for office and conference room facilities, and a new enclosed vehicle service reception/drop-off area. The total gross floor area will increase by 8,535 square feet (41,475 s.f. existing, 50,010 s.f. proposed.) The building façade will be reconstructed and various modifications and enhancements will

be made to the landscaping, lighting, signage and drainage systems. All signs not complying with the Sign By-Law including the two non-conforming free-standing signs will be removed. The site plan proposes customer parking, service department parking, and vehicle storage areas on the site.

500 Staples Drive

The Applicant proposed to use the existing parking area for structure parking garage and an employee fitness center. The physical improvements are located on the southwesterly side of the existing headquarters facility and impact an area which is presently used for parking of approximately 4.41 acres. The construction of the garage will result in a lawn area of approximately 13,000 square feet available for employee use. As a result of the development of green space, the total impervious coverage of the site is reduced by 7,000 square feet. In addition to the reduction in the impervious coverage of the site, drainage improvements are being made in the area of alteration to provide attenuation of storm increased pollutants.

Staples Headquarters site consists of approximately 650,000 square feet. Staples Headquarters operates twenty-four hours a day and seven days a week. The property is located within the Light Manufacturing District on Staples Drive. The property also provides access to an additional parcel of land owned by Staples, Inc. across Roaring Brook. In addition, the site contains a day care center for Staples' employees, which consists of approximately 16,400 square feet.

The employee fitness center will be 9,600 square foot, the parking requirement increases by 38 spaces, thereby requiring a total of 2,680 parking spaces for the employee fitness center, Day Care Center, and office Headquarters. With the four-story parking garage, there will be a total of 3,069 spaces on the site, thereby complying with the Requirements of the By-law.

As a result of changes to the Site, not only will there be a decrease in impervious coverage, there will be a significant increase in the landscaping on the Site. Specifically, over 36 additional trees and over 374 additional shrubs will be installed. In addition, handicapped parking will be provided in closer proximity to the building to enhance the access to the Headquarters Facility and the employee fitness center.

618 Grove Street

The Applicant proposed to preserve the existing residential structure which identified as Parcel 2-1 together with various house lots abutting the subject parcel. The total area of the open space parcel is 432,277 square feet (9.9 acres) which is 55.6 percent of the entire property. A third parcel, identified on the Plan as "Parcel C" consisting of 109,593 square feet (2.156 Acres) is identified as "Not a Building Lot" will remain in the name of Applicant. Parcel B will be transferred to the Town of Framingham, the Conservation through Commission, without cost to the Town, for conservation purposes as set forth in this Decision. Parcel A is also identified on the plan as "Not a Building Lot" and will be conveyed to the Town.

ZONING BY-LAW AMENDMENTS

The following Zoning Amendments were adopted at the Annual and Special Town Meetings and approved by the Attorney General during the 2011 calendar year.

The zoning amendments were as follows.

April 26, 2011

Article 3 §IV.Q. Drive-thru Facility Regulations, new section.

Article 3 §III.C.1.d.(2) Neighborhood Business District, updated to reference Drivethru Facility Regulations.

Article 3 § III.C.2.d.(3) & (4) Community Business District, updated to reference Drivethru Facility Regulations.

Article 3 § III.C.3.d.(3) General Business District, updated to reference Drive-thru Facility Regulations.

Article 3 § III.C.4.d.(3) Central Business District, updated to reference Drive-thru Facility Regulations.

Article 3 § III.C.5.d.(2) Business District, updated to reference Drive-thru Facility Regulations.

Article 4 § III.A.2.(d) Conversion of Single-Family Detached Dwelling deleted.

Article 4 § III.C.4.b.(3) Conversion of Single-Family Detached Dwelling deleted from Central Business District.

Article 5 § I.E. Definitions clarified for Lot Line, Front.

Article 5 § IV.G.4.a. Lot access and frontage requirement modified for lot frontage requirements.

Article 6 § IV.G.7.b.1. Exception to Maximum Height Requirements.

Article 6 § IV.G.7.b.3. Exception to Maximum Height Requirements, update section with new section of Rooftop Screening Requirements.

October 18, 2011 Zoning Maps Amendments

Article 15 § Rezone 474, 480, 486, 492, 498, and 506 Concord Street and a portion of 7 Lindberg Road to Community Business District (B-2)

SPECIAL PLANNING STUDIES

Town-wide Master Plan

In relation to preparation of a Master Plan, M.G.L, Chapter 41 §81D states, "A planning board established in a city or town or such part or parts thereof as said board may deem advisable and from time to time may extend or perfect such plan". In 2007, the Board began the development of Framingham's first comprehensive Master Plan since 1988.

The Board completed the first phase of the Master Plan and published the Baseline Conditions Report, which is available online. The commencement of the second phase of the Master Plan was delayed, due to lack of funding. Town Meeting approved the appropriation of unassigned mitigation funds to complete the Master Plan.

The final draft of Master Plan Land Use is under review. The Board has engaged the Cecil Group to complete the plan. The Master Plan is anticipated to be presented at the Spring 2012 Annual Town Meeting.

Comprehensive Improvement Plan for the Framingham Technology Park

The Board, as a condition of their site plan approval for Genzyme's Biologics Support Center and with the agreement of Genzyme Corporation, initiated a planning process to develop a comprehensive improvement plan for the Framingham Technology Park. The Board engaged Terra Tech Rizzo to provide develop the plan. The planning process is a collaborative effort between town officials and park owners and tenants.

The plan evaluates the sufficiency of current infrastructure to meet the forecasted development needs and will explore options for substantially upgrading the appearance of the Park in a comprehensive and cohesive manner. The plan will, in a specific way, provide an overall vision for the Framingham Technology Park and define expectations related to streetscape elements such as lighting, signage, pedestrian accommodations and landscaping so that as the Park is upgraded through public grants or private

initiatives it is done in a manner consistent with a documented plan. The plan address broader issues related to transportation and utility infrastructure and emergency services in a more general way, focusing on identifying current and future system deficiencies and potential solutions. The draft plan was issued in 2010 and the final plan was issued October 21, 2011.

Planning Board Rules and Regulations Article 18: Landscape Design Guidelines

In 2011, the Board updated their Rules and Regulations to include Article 18: Landscape Design Guidelines. Article 18 was adopted by the Board to aid developers in the proper landscape plant selection and to guide the landscape design process. Included in Article 18 are plant recommendations for tree, shrubs, groundcovers, and rain gardens; in addition to an example landscape schedule, special landscape notes, and a landscape maintenance schedule integrated turf grass and pest management plan.

ANNUAL AMERICAN PLANNING ASSOCIATION CONFERENCE

In April of 2011, the Planning Board and Planning Board Staff attended the annual American Planning Association Conference held in Boston. The Conference brings together hundreds of Planners, Planning Town/ City Boards, Officials, private developers, non-profits, educators, students for a four day event. With over 200 conference sessions and 60 mobile workshops participants can educate themselves in diverse fields such as rapid transit, urban agriculture, economic development, land use, historic preservation, zoning, and topics of law.

COLLABORATED WORK EFFORTS

Mass in Motion, Community Transformation Grant- Healthy Communities

Through the Mass in Motion/ Community Transformation Grant, the Town of Framingham will be working in collaboration

with the communities of Hudson and Marlborough to create incorporate healthy communities initiative town or city. The purpose of the Community Transformation Grant is to implement policy, systems and environmental change strategies to increase healthy eating and active living. CTG strategies need to include broader policy, environmental, programmatic or infrastructure changes to promote health rather than an emphasis on programs.

In 2011, the Planning Board wrote a letter of support for the Board of Health to support the work efforts involved in a healthy communities transformation. In 2012 the Planning Board will work in collaboration with the Framingham Board of Health, City of Marlborough, and the Town of Hudson to incorporate the goals of the grant into the Town.

Framingham Downtown Renaissance

The Planning Board has actively been involved in the to efforts revitalize Framingham, through Downtown Framingham Downtown Renaissance (FDR). The Planning Board provides FDR with technical assistance needed to ensure that the goals of FDR are met. The Planning Board has attended the monthly Thursday morning meetings in the Town Hall, provided staff to sit on various committees related to FDR, and provided technical documents to help guide future development and reinvestment in the Downtown area.

Route 9 Route 9 MetroWest Smart Growth Plan- Sustainable Communities Consortium

In 2011, the Planning Board wrote a letter of support for MetroWest Regional Collaborative (MAPC) for a Smart Growth Plan Grant; MAPC was awarded this grant and will start work on the Route 9 Plan in 2012. The scope of the plan includes a collaboration effort between Framingham, Natick, Southborough, and Wellesley on a Route 9. The Route 9 plan would further

develop the recommendations outlined in a recently completed Route 9 Corridor Analysis which determined that the development potential of the Route 9 corridor under current zoning could result in almost doubling the current floor area, severely exacerbating traffic congestion. The study suggested that future development on Route 9 should include more mixed pedestrian and bicycle friendly environment. The planning concept is to create denser Smart Growth Opportunity Areas that could also be better served by public transportation and generate fewer automobile trips than the current development pattern.

ADMINISTRATION

The Board has continued to work with the Treasurer's Office to prospective developers to obtain certification from the Town's Treasurer/Tax Collector that no local taxes, fees, assessments or other municipal charges are outstanding prior to submission of an application. As a result of this process, many applicants have been obligated to bring unsettled accounts up to date before the Board would consider their development proposals. Since first employed in May of 1993, this noteworthy process has been a source of substantial uncollected taxes for the Town. By the end of calendar year 2011over \$2.4 million had been collected to date through these efforts.

In calendar year 2011, the Board collected a total of \$21,234.00 in revenue from associated project review fees and from the sale of Zoning By-Laws, Zoning Maps, Subdivision and Regulations, and minor miscellaneous revenues. The projects reviewed by the Board will create hundreds of construction jobs. In addition to actual offsite improvements constructed by project applicants, the Planning Board has also collected off-site improvement obligations in the amount of \$3.758M through calendar year 2011 according to our most recent financial report. Upon occupancy of these projects,

the net increase in positive tax flow to the Town is estimated upwards of \$7 million.

In addition to these contributions to the General Fund, the Planning Board obtains significant Town-wide amenities through the process of negotiated mitigation. In the course of its review the Planning Board requires applicants to provide improvements such as roadway widening and reconstruction, signalization, enhancements for transportation and landscaping to offset adverse project impacts. Through calendar year 2011 the Board received \$104,000.00 in direct mitigation performance guarantees and payments.

The Board continues to improve the website to increase availability of the information to the public. The Zoning By-Law and Subdivision Regulations are available for downloading and printing to make the document more widely available to the public. The Board continues to post on the website

zoning amendments, which are current through Annual Town Meeting 2011, weekly agendas and approved minutes. Submissions for larger projects review are available on the Board's website. A specific Master Plan webpage is also available, which provides citizens the ability to keep updated on the status of the Plan, find out where and when public participation sessions will occur and be able to provide comments or questions from this page. A webpage is also available for the Comprehensive Infrastructure Improvement Plan for the Framingham Technology Park.

Once projects are approved, the Board also ensures that they conform to the conditions of approval by conducting conformance reviews during the permitting and construction phases for approved projects.

Respectfully submitted, Andrea Carr-Evans, Chair

Community & Economic Development

Memorial Building, Rm B2 | 508-532-5455 | planning.department@framinghamma.gov

Community and Economic Development 2011

Community **Economic** and Development Division (C&ED) undertakes a wide variety of projects, all of which are focused on protecting and enhancing the quality of life Framingham's residents. The projects are multi-dimensional, ranging from securing grants and providing policy analyses to promoting homeownership strengthening and expanding the tax base appropriate encouraging new development.

The Division consists of three departments: Planning, Zoning Board of Appeals (ZBA), and Community Development (CD). While each department concentrates on different planning functions, there are strong

interrelationships between and amongst the departments as well as other municipal divisions, boards and committees.

PLANNING DEPARTMENT

The Planning Department concentrates on promoting economic development and supporting our residential neighborhoods. Planners also manage a wide variety of projects and provide policy analyses for the Town Manager and Board of Selectmen.

Economic Development

The department is committed to encouraging appropriate economic development in order to support and expand the tax base, thereby contributing to the fiscal health of the town and minimizing the tax burden on property owners. Planners are responsible for

implementing the Town's Economic Development Strategic Plan, which is based on the recognition of the critical roles that the commercial sector plays in improving the quality of life for residents by contributing to the tax base, providing employment opportunities, and making available a diversity of goods and services. Consisting of four interconnected components, the Plan is directed at: identifying and planning for key sites and districts, facilitating Town investment to establish a framework for the private sector, creating a business friendly environment, and marketing the town's assets to attract new development and redevelopment.

Downtown Revitalization

The Planning Department coordinates ongoing and planned projects to revitalize Framingham's central business district. The department works closely with the Town Manager, Department of Public Works, Building and Wires Department, and Planning Board as well as state, regional and federal agencies and legislators to insure that all projects are moving forward in a coordinated and expeditious manner.

Underlying the Town's approach to improving the economic viability of Downtown is the recognition that public infrastructure improvements leverage private investment. Public investment is directed at facilitating vehicular and pedestrian circulation patterns, improving safety, and beautifying the downtown as well as upgrading water and sewer infrastructure.

Working with DPW and its consultant as well as the Town Manager, Board of Selectmen and Planning Board staff, the Planning Department has helped guide the development of a long-term

revitalization strategy for the downtown that addresses the rail crossing issue, seeks to incorporate Farm Pond into the downtown, promotes mixed-use development, significantly improves safety and traffic flow, and enhances the physical appeal of the downtown. The State is currently undertaking an Environmental Review of a long-term plan to introduce a grade separation into the downtown.

The Town has also developed plans to effect significant vehicular and pedestrian improvements to address traffic flow and improve safety in the more immediate future. These plans, combined with major streetscape improvements to beautify the downtown and help entice visitors to the district are nearing 25% completion at which time the State will conduct a public hearing to solicit input into the design plans.

Framingham Downtown Renaissance

C&ED staff works collaboratively with Framingham Downtown Renaissance (FDR), a non-profit organization focused on the revitalization of our downtown. With the support of the CD and Planning Departments, FDR made significant inroads this year in adapting the National Trust for Historic Preservation's Main Street Program to the downtown. This partnership has already generated tangible results including an FDR-sponsored of survey downtown businesses conducted by Framingham State University students. FDR also coordinated an exciting "winter wonderland" event in the downtown during the 2011 holiday season, which attracted new visitors and consumers.

FDR posted a job description for a Main Street Project Manager who will be hired in the spring of 2012. The Project Manager will be charged with aggressively furthering the goals of the Main Street Program in support of the combined efforts of FDR and C&ED to promote real change in Framingham's downtown. In addition to staff support, C&ED is contributing \$30,000 in (federal) Community Development Block Grant funds to help finance the Project Manager's salary.

Neighborhood Commercial Areas

The Planning Department also focused efforts on the partially vacant Nobscot and Mt. Wayte shopping centers. The Board of Selectmen tasked the Economic Development Industrial Corporation (EDIC), staffed by the Planning Department, to generate a development plan for the Mt. Wayte shopping center. C&ED is working with the Nobscot neighborhood as well as the brokerage firm recently hired to market Nobscot in order to facilitate lease-up of the property.

Brownfields Project

Framingham has a considerable number of brownfields, which are properties that contain or potentially contain hazardous substances, pollutants or contaminants that complicate the property's refinancing, expansion or redevelopment. Brownfields are not only a blighting influence on their surroundings, but typically are underutilized. thereby representing enormous potential to generate significant new property taxes once they are abated or it is established that that they are not contaminated.

In prior years, the department secured two EPA grants to identify, abate and eventually redevelop brownfields. We submitted an additional grant application in 2011. We continued to administer the previously awarded grants, which involves targeting sites, interfacing property owners, and working with a licensed site

professional (LSP) hired by department to conduct environmental site assessments (ESAs) of selected properties. The LSP has undertaken nine ESAs including two for the site on which a new branch library is planned. One noteworthy project entailed use of use of Brownfields funds to assess a Parks and Recreation Department parcel on Pratt Street. The results allowed the Town, with the support of the Agricultural Advisory Committee, to establish a community garden in the summer of 2011.

Appropriate Economic Development

New development is one of the few mechanisms available to expand the tax base, thereby reducing the financial burden on existing property owners and/or increasing the availability of funding to improve municipal services.

In recognition of the tremendous potential of Technology Park, Planning Department works with prospective developers and the State to encourage and facilitate appropriate development. The C&ED Director participates in a quarterly meeting with Tech Park property owners and tenants together with other Town officials to identify issues of mutual concern and how we can strengthen our partnership to address these issues and maximize the economic potential of the area.

The department is also working to target and promote the development of major parcels for (re)development throughout town. Although the lack of available credit has seriously undermined the progress of several private developments, we are focused on creating a favorable development environment and encouraging redevelopment of vacant and underutilized property in the downtown and community-wide.

Residential Neighborhoods

While economic development initiatives support residential neighborhoods by generating additional taxes, the Planning Department also undertook projects that were directed specifically at protecting and improving Framingham's neighborhoods. The department continued to respond to a Board of Selectmen policy that places a priority on encouraging homeownership and targeting efforts to vulnerable neighborhoods. Both the Community Development Block Grant and HOME Programs are focused on improving neighborhoods.

Neighborhood Stabilization Program

home The dramatic increase in foreclosures that began in 2008 persisted in 2011. The Planning Department implement continued to the Neighborhood Stabilization Program (NSP), funded by three grants secured and administered by C&ED totaling \$1.35 million. The mission of NSP is to acquire and convert foreclosed properties into owner-occupied homes to reduce the potential for blight and help stabilize neighborhoods.

The success of NSP represents the combined efforts of the Planning Department, CD Department and the Board of Selectmen as well as the Framingham Housing Authority (FHA) and its subsidiary, the Framingham Housing Development Corporation. Thus far, the Program has resulted in the purchase of five homes, all of which have been completely renovated and three of which were sold to income-eligible applicants in 2011. One two-family property was retained by FHA and the fifth property is currently for sale. Closing on a sixth property is scheduled for the spring of 2012. Net sale proceeds are

reinvested in the purchase and renovation of additional properties. These renovated properties have dramatically improved the appearance of the neighborhoods in which they are situated and returned abandoned properties to active uses that contribute positively to the neighborhoods in which they are situated.

For more information, please go to: www.framinghamma.gov/foreclosures

Promotion

Interrelated with both the Economic Development and Neighborhood Services Strategic Plans, a concerted effort is underway to market the desirable attributes of Framingham in order to encourage individuals, families and firms to locate, invest, and shop in our town. Planners have developed a marketing campaign, a major component of which is a web site created and maintained in conjunction with Technology Services. The two divisions will continue to refine the web site, which can be accessed by clicking on www.chooseframingham.com.

State and Federal Grants

The Planning Department constantly identifies and analyzes the applicability of grants as well as researches the availability of funding for specific projects.

The department applied for \$1.2 million in grants during 2011. We successfully received the following:

\$ 20,000 State Attorney General housing rehabilitation grant
\$500,000 State Local Acquisitions for Natural Diversity (LAND) grant to help purchase a Conservation Restriction on Eastleigh Farm

The following applications were unsuccessful:

\$250,000 HUD Community Challenge
Grant application for
downtown revitalization
\$400,000 Brownfields Environmental
Site Assessment Grant from
EPA to fund ongoing and
proposed brownfields
activities including
redevelopment and area-wide

The following grant application is pending, with notification anticipated in the spring of 2012:

planning

\$400,000 Brownfields Environmental Site Assessment Grant from EPA to fund ongoing and proposed brownfield activities including redevelopment planning

The extraordinary assistance and cooperation provided by the school and other municipal departments have been instrumental in the department's success in securing grants. Similarly, the Planning Department is available to provide staff support to other divisions in identifying and preparing grant applications.

Policy Analyses, Studies, Project Management, and Special Projects

C&ED undertakes projects, prepares policy analyses, and coordinates inter-departmental projects. Some of these 2011 projects include the following:

Wireless Communication Facilities (WCF) Working Group

The working group retained a consultant in 2011 to review our WCF bylaw and identify how the needs of the wireless industry can be accommodated consistent with federal law with the least impact to our neighborhoods. The consultant's report will be issued in February 2012.

Open Space Plan Implementation Committee (OSPIC)

Planners staff the OSPIC, which is charged with implementing the 2008 Open Space and Recreation Plan. The committee's first task was to update the 2008 action plan. The committee also studied the town's three aqueducts—Weston, Hultman, and Sudbury—and assessed how best to provide public access for recreational use.

Transportation

C&ED works closely with DPW to insure that Framingham's transportation improvement priorities are identified on the state's Transportation Improvement Plan (TIP), which is a prerequisite for federal and state funding.

Cochituate Rail Trail (CRT)

The Planning Department is working closely with DPW to coordinate design and construction activities along the rail Design plans for the trail were submitted to MassDOT in 2011 and its design review process is underway. The department secured a \$600,000 MassDOT transportation grant in 2010 to help complete the trail. The basic infrastructure of the trail is under construction as part of DPW's East Framingham Sewer Improvement Project. It is anticipated that the CRT will be completed in 2013.

C&ED also retained a consultant to develop the 25% design for the 500 Old Connecticut Path/CRT intersection. A decision on whether to proceed with this design will be made in 2012.

Bruce Freeman Rail Trail (BFRT)

The Planning Department manages the planning process to develop the Framingham component of the proposed 35-mile rail trail that will extend from Lowell to Framingham. The department has been seeking grant funding and working with the regional committee representing all of the communities through which the trail will traverse.

Aqueducts

Planners are actively engaged in improving public access to the Weston Aqueduct. A series of meetings took place in 2011 with Town, regional and State officials. It is anticipated that a pilot project for a segment of the Weston Aqueduct in Saxonville will be initiated in 2012.

Subsidized Housing Inventory (SHI)

The Planning Department carefully monitors the Town's status on the Commonwealth's Subsidized Housing Inventory in order to insure that Framingham's subsidized housing units are accurately and fully counted. The Town's SHI remains in excess of 10%, which limits the applicability of Chapter 40B Comprehensive Permits (subsidized housing development that is not subject to municipal Zoning Codes).

Provide Support to Town Committees

C&ED provides staff support to several Town committees, including:

Economic Development Industrial Corporation (EDIC). The EDIC is charged with creating a pro-active capacity to plan for and carry out economic development activities.

Multiple Hazard Mitigation Planning Group. The C&ED Director serves on

the committee, which consists of representatives of various Town divisions as well as citizens. The group is responsible for overseeing the implementation of the Town's Multiple Hazard Mitigation Plan, required by the Federal Disaster Mitigation Act of 2000. Consistent with federal requirements, the Group updated the Plan, which was officially adopted by the Board of Selectmen in 2011.

ZONING BOARD OF APPEALS

Memorial Building, Room B2 (508)532-5456 zba@framinghamma.gov

The Zoning Board of Appeals (ZBA) is the Permit Granting Authority and the Special Permit Granting Authority for projects that do not meet requirements of the Town's Zoning The ZBA's function is to Bylaws. approve or deny requests for variances and special permits, and issue findings through the public hearing process by determining if the required criteria, as stated in the Zoning Bylaw, have been The ZBA also administers the Comprehensive Permit process affordable housing as set forth under M.G.L. Chapter 40B.

The ZBA is a three-member Board appointed by the Selectmen. In 2011, Full Members of the Board were Philip R. Ottaviani, Jr., Chair; Susan S. Craighead, Vice-Chair; and Stephen E. Meltzer, Clerk. Karl Thober, Edward (Ted) Cosgrove. Robert Snider and Kevin Gatlin served as Associate Members. Eugene Kennedy, Assistant Director of Community and Economic Development, also serves as the ZBA Administrator. Mr. Kennedy prepared the Board's decisions and advised the Board on procedural and other issues. Alice Clapper continued her duties as Administrative Assistant. Town Counsel advised the

Board as required. John Szczesny was hired in October 2011 as a Planner and provides support to the ZBA Administrator and Board.

The Board of Selectmen approved the following increased fees to the ZBA Filing Fee Schedule effective May 24, 2011:

Application	Fee
Finding/Appeal	\$ 300
Special Permit/Variance	
Residential	\$ 300
Commercial	\$ 500
Industrial	\$ 1,000
Wireless	\$ 2,500
Communications Facility	
Sign Appeal	\$ 250

Total filing fees in 2011 amounted to \$40,700. The new filing fee schedule generated a total of \$35,850 of revenue from May 24, 2011 through December 9, 2011. Under the old filing fee schedule, revenue would have been \$13,950 for a difference of \$21,900. ZBA filing fees had not been increased by the Board of Selectmen since April 2002.

Fifty-nine petitions were filed with the ZBA office in 2011. Twelve petitions that were filed in 2010 were decided in 2011. These 71 cases represent 16% more than the 61 cases processed in 2010.

Of the 71 cases heard in 2011, 17 were requests for variances, 34 for special permits, 8 for findings, 9 for variance and special permits, and 3 appeals of the decision of the Building Commissioner. Variance and special permit requests included those for relief from dimensional requirements for: construction of, and additions to, single family homes; placement of sheds on residential properties; construction of two-family residences and automotive and restaurant

uses; and changes of use for local businesses. Some of these filings were the outcome of changes in zoning districts in past years resulting in non-conforming lots.

Three Associate Members presided over sign appeal applications, with the fourth Member selected as the Alternate. Six sign applications were filed in 2011.

The Board generally meets on the second and fourth Tuesdays of every month at 7:00 P.M. in the Deborah D. Blumer Community Hearing Room. Members of the public are welcome and encouraged to attend ZBA meetings.

COMMUNITY DEVELOPMENT AND HOME PROGRAMS

Since 1975, Framingham has received over 20 million dollars in Federal Community Development Block Grant Program (CDBG) funds. The Town also federal receives Home Investment Partnership Act (HOME) funds, which must be used exclusively for developing and rehabilitating residential units. combination, the programs seek to: arrest deterioration in the housing stock and stabilize neighborhoods through financial and technical rehabilitation assistance to property owners; develop programs to preserve and expand affordable housing opportunities; eliminate architectural barriers; improve Town-owned facilities and infrastructure to prolong their useful lives and stabilize eligible neighborhoods; improve the quality of life for low and moderate income residents through the provision of social services; administer the programs effectively and equitably to ensure that all members of the community may participate in or benefit from program activities.

The following summarizes several major accomplishments during 2011:

Housing Rehabilitation Assistance

The program provides technical assistance and CDBG/HOME loans for rehabilitation of substandard homes. Three dwellings were repaired with loans and related assistance services through the provision of grants and loans to incomeeligible property owners (those with low or moderate incomes or a majority of tenants with low or moderate incomes) in 2011. An additional six properties are in of receiving process housing rehabilitation loans. Administrative support is provided to implement the Neighborhood Stabilization which acquires, rehabilitates and sells foreclosed property.

Homebuyer Assistance

The Town's Downpayment Assistance Program provided homeownership opportunities to two income-eligible households with CDBG/HOME funds in 2011, in conjunction with the Division's Neighborhood Stabilization Program.

Code Enforcement

CDBG provides funding to conduct coderelated inspections of properties located in eleven Census Block Groups, each with a population that has predominantly low or moderate incomes. Inspectional staff (with the equivalent of one full-time position made possible by CDBG funds) and one administrative staff person were employed by the Building Department. Staff speaks Spanish and Portuguese. The Building Department maintains a data base on inspectional findings and maps where problems are occurring. During the past program year, over inspectional cases were initiated and closed.

Public Facilities Improvements: Accessibility Adaptations

CDBG grants continued to fund several handicapped accessibility improvements to Memorial Building, including athe installation of a new, mobile ADA stage lift in Nevins Hall. The program also funded: reconstruction of Arsenal Street; and construction of accessible sidewalks, pathways and pedestrian crossings at the Juniper Hill School.

CDBG funds were also used to upgrade public parks and recreational facilities including the installation of new lighting and landscaping at Butterworth Park.

Façade & Sign Improvement Program

Assistance was offered to business and property owners as well as merchants located in and around Framingham's central business district and surrounding commercial core in order to undertake façade, signage, and storefront improvements. One local business was offered funds to renovate the façade of a historic structure; these improvements are anticipated to be constructed in 2012.

Public Services

The following initiatives were undertaken with CDBG funds to serve youth: a summer employment and counseling program (Community Connections Summer Work Program); and a special program for high school students facing issues that have impeded their ability to learn and achieve (Resiliency for Life). Adult programs included: literacy training (Literacy Unlimited); English-as-a-Second Language (Framingham Adult ESL Plus); limited financial assistance to prevent homelessness (Homeless Prevention Program) and referrals to health insurance coverage and social services (MAPS Inc). Over 430 individuals were served by the activities.

Subsidized Housing Support

CDBG and HOME funds supported subsidized housing projects including: Rose Kennedy Lane (ADA access improvements to two units) and the Housing Authority's Memorial House congregate dwelling facility (five units).

Administration

Administration of both the CDBG and HOME Programs is staff intensive and requires diligence to identify and comply with applicable federal regulations. CDBG and HOME funding reimburse the Town for the salaries of benefits of staff assigned to manage the programs.

Respectfully Submitted, Alison C. Steinfeld, Director Division of Community & Economic Development

Metropolitan Area Planning Council (MAPC)

60 Temple Place, Boston, MA 02111 | 617-451-2770 | bleish@mapc.org

This year has been transformative in many ways for both MAPC and the region. With an infusion of federal dollars through HUD's Sustainable Communities Regional Planning Grant, MAPC has been honored and challenged with a great responsibility this year: to support and showcase the best smart growth projects and policies across Greater Boston, and to serve those up as models for others across the country. Notable projects that have funded bv the been Sustainable Communities are:

- The Regional Housing Plan and Fair Housing Equity Assessment will outline the region's housing needs, link fair housing with a broader set of regional issues, and recommend housing development and policy goals.
- The Framingham Tech Park Transportation Management Plan will recommend investments in transit, infrastructure, and incentives to facilitate economic development in an old industrial park along Route 9. Goals include improved access to employment and a reduction of vehicle miles traveled in the region.

We are proud to report that 2011 was another successful year for our work under the District Local Technical Assistance (DLTA) program, which is an essential vehicle for helping communities achieve more sustainable land use and more effective local governance. DLTA funding is provided by the Legislature and Governor to help cities and towns to regionally on housing, collaborate development, economic and environmental protection projects. The funding can also be used to help municipalities to coordinate and more efficiently deliver local services. This year, MAPC funded 19 projects, 8 in land use planning and 11 in municipal services.

MAPC Staff also worked with the 495/MetroWest Development Compact to help identify priority development and preservation areas and significant transportation and infrastructure investments for that region. We worked with our neighbors to the west, the Central Massachusetts Regional Planning Commission, and other allied organizations, hold community to meetings in almost 40 cities and towns,

yielding both local and regional priorities for both residential and economic growth, as well as priority land for preservation and protection. MAPC is working to make sure commercial and residential growth respects open space resources, transportation networks, and water resources in the region.

In 2011 we added two new divisions to MAPC: energy and public health. now have several staff devoted exclusively to providing technical assistance and policy guidance to bolster efficiency and reduce greenhouse gas emissions (GHG), to help in the regional renewable development of resources, and to procure energy products and service for groups of municipalities. We hope this work will advance markets for clean technology while reducing GHG and dependence on fossil fuels. example, we brought together communities to hire and Energy Services Company (ESCO) and we created a new Local Energy Action Program to help communities plan and implement local clean energy projects. We especially want to thank the Barr Foundation for their support of MAPC's energy work.

MAPC continued a robust legislative agenda in 2011, focusing on topics such as transportation funding, zoning reform, and pursuing a more sound financial footing for the Community Preservation

Act. With many allies, we achieved a major success when Governor Patrick signed into law legislation reforming health insurance for municipal employees on July 12, 2011. This law will help dozens of municipalities to negotiate savings on health care costs for their employees and retirees. This law strikes a balance that gives municipalities a chance to manage their way through the fiscal crisis while preventing layoffs and ensuring high-quality health insurance for all municipal employees and retirees.

Finally, as the discussion and debate around the MBTA's struggling financial picture takes shape, we are poised to influence policy decisions and advocate for key revenue changes as part of our new Transportation Campaign. We've hosted forums on transit funding throughout the year and are planning more as pending fare hikes approach for transit riders. If you are interested in joining us, visit our website to get started.

As we move forward into a new year, we know that MAPC will continue to be involved in creating a healthy, strong, more vibrant region consistent with our MetroFuture goals. Visit www.mapc.org throughout the year for news and updates about our work.

Respectfully Submitted, Bruce Leish, Director

Metrowest Regional Transit Authority (MWRTA)

160 Waverley Street, Framingham, MA 01702 | 508-935-2222 | ed@mwrta.com

The MetroWest RTA was created by a vote of the Framingham and the Ashland Boards of Selectman in December of 2006. By the summer of 2007, seven additional communities had joined, a budget and fares were put in place, and an

Administrator was hired to oversee the daily operation of the LIFT which had been under the Framingham Planning Department. MWRTA "fixed route" service was then initiated on December 1st, 2007 with a new contracted provider

and 10 new buses obtained from Federal and State grants. At the same time, the MWRTA was paying the MBTA to continue its RIDE service in the Framingham and Natick area.

In 2008, the original Framingham LIFT and the Natick Neighborhood bus routes were integrated into a unified transit system. That year, Marlborough and Southborough joined MWRTA, expanding demand response service delivery by 2,000 rides a month.

In 2009, the Authority, through a Federal grant, expanded again to create a link to the Woodland MBTA Station in Newton (Route #1) setting the stage for using the Charlie Card system wide. Additionally, the Authority took over the MBTA's RIDE provision in Framingham and Natick expanding again the demand response provision by another 5,000 rides a month.

In 2010, the Authority, using state and federal funds, purchased and rehabilitated a facility at 37 Waverly St. which will serve as the "Hub" and maintenance depot for the system. In 2011, Wellesley joined the Authority as its 12th member. Additionally the MWRTA began collaboration with Framingham State University, supporting a student operated system with capital and

training that is fully funded by the University.

Route #1, as mentioned above, is MetroWest's link to the MBTA's Green Line. Routes #2 and #3, which loop entirely within Framingham, are the most highly routes: consistently traveled averaging over 4,000 rides a month. Route #4 connects Market Basket to the Shopper's World/Mall area and provides service to the Beaver Street neighborhood. Route # 5 connects Framingham to Hopkinton, Route 6 connects Framingham to Holliston, and Route #7, which also consistently averages over 4,000 rides a month, connects Framingham to Southborough and Marlborough. Route #9 component of Route #1 during the commuter hours and runs exclusively on Route 9 during the off commute hours.

The MWRTA will continue to build upon the over 400,000 rides provided in FY10 by using technology, an emphasis on customer service and the more effective and efficient delivery of transportation service. For further details and for real time transit options and customer service, please visit our website: www.mwrta.com.

Respectfully Submitted, Ed Carr, MWRTA Administrator

Framingham Housing Authority

One John J. Brady Drive, Framingham, MA 01702 | 508-879-7562 | kbumpus@framha.org

Formed in 1946, the Framingham Housing Authority is led by a dedicated five-member Board of Commissioners. Together, with Executive Director Kevin Bumpus and a supportive staff of 42, the FHA maintains over 1000 units of public housing and administers rent subsidies for

over 900 units of private housing, in cooperation with federal, state and local authorities.

State Funded Housing

The Framingham Housing Authority administers 249 units of state-aided family

housing (185 units under Chapter 200-C Family Housing; 76 units under Chapter 705-C Family Housing) at Oran Road, Concord Street, Anzio Road, Corrigidor Road, Guadalcanal Road, Normandy Road, Pearl Harbor Road, Arsenal Road, St. Lo Road, Beaver Park Road, Marian Road, Taralli Terrace and Second Street.

The FHA sold (6) 705-1 units on Hollis Street and the following are replacements: (2) Units at 234-236 Beaver Street, (2) units at 8-10 Webster Street and (2) units at 46 Bethany Road.

State-funded senior housing – 536 units (under Chapter 667C Elderly Housing, Chapter 667-2, 667-8 Elderly Housing) – is located on Everitt Avenue, John Gallagher Drive, Grant Street, Rose Kennedy Lane, Normandy Road, Arsenal Road, Guadalcanal Road, Cochichuate Road and Hollis Street.

Twenty-four units of state-subsidized handicapped housing (under Chapters 689, 689-1 and 689-2 Handicapped Housing) are situated on Temple Place, Alexander Street and Underwood Avenue.

Rental Assistance through the Mass. Rental Voucher Program (MRVP) includes 62 units -- 12 units on Gordon Street, 21 units (SRO-DMH) on Gordon Street and Union Avenue, 15 units (SRO-DPH) on Evergreen Street, five units on Prospect Street (SRO-DMH), six units on Wellington Avenue (SRO-DMH) and three on scattered sites.

The Musterfield at Concord Place

The renovations and remodeling of The Musterfield Development has been completed and all 110 units are occupied.

There is a new Musterfield Activity Center with an After School Program for children

ages 5-12. The curriculum is Sports and Recreation in our state of the art playground, Homework Assistance and Arts and Crafts. We have a partnership with Framingham State University to provide interns. We also have collaborated with Early Childhood Alliance for a Preschool Music, Movement and Story Hour.

Federally Funded Housing

Federally aided family housing administered by the FHA includes 125 units (under MA028-001 Family Housing) at Beaver Street, Carlson Road and Pusan Road. Senior units (under MA0028-002 Elderly Housing) include 110 apartments on John J. Brady Drive.

The FHA also administers 983 federal Section 8 Rental Assistance vouchers for apartments in privately owned properties located throughout Framingham and surrounding towns.

Family Unification Program

This is a program under which Section 8 vouchers are provided to families for whom the lack of adequate housing is the primary factor in the imminent placement of the family's child or children. FUP vouchers may also be used for youths at least 18 years of age and not more than 21 who left foster care at age 16 and who lack adequate housing. The FHA administers this program in partnership with the Dept. of Children and Families, who are responsible for referring families and youths to the FHA for determination of eligibility for rental assistance.

Family Self-Sufficiency Program

The FHA has two FSS programs, one for Public Housing and one for Section 8 participants. This is a five year voluntary program where an individual service plan is designed with goals in education, career planning and financial literacy are worked

on. The past two years FHA has collaborated with the Town of Framingham in addressing neighborhood stabilization by renovating and remodeling foreclosed properties in designated census tracts. This has been very successful and two of the Section 8 participants in the FSS program have purchased homes in Framingham. Two single family homes, one two family and one condominium have been sold with another single family home on the market presently.

Respectfully submitted,

Kevin P. Bumpus Executive Director

Commissioners: Stephen P. Starr, Chairman Edward F. Convery, Vice Chairman Phyllis A. May, Treasurer Faith C. Tolson-Pierce, Asst. Treasurer Robert Merusi, Member

Parks, Recreation, & Cultural Affairs

475 Union Avenue | 508-532-5960 | parks.recreation@framinghamma.gov

Parks and Recreation Commission

Barry Bograd served as chairman with other members Robert Brown, Dan Jones, Joan Rastani and Kevin Salvi.

The Annual Town Meeting voted for an annual FY12 operating budget of \$2,340,965 for Parks Administration, Maintenance and Recreation. This amount allowed us to resume the maintenance of the school athletic fields which had been significantly curtailed from previous budget reductions.

The Capital Budget Committee approved a new F250 4x4 Pickup Truck to be used for the daily maintenance of park projects including the replacement of the docks for Learneds Pond to be installed in 2012 and new Tennis Lighting at Butterworth Park. The lighting project was accomplished with significant savings from the appropriated amount thanks to the Keefe Technical School Electrical Lab students completing the infrastructure for the project. Currently, specs are being developed for Furber Playground improvements and for computerized irrigation throughout the parks. Both projects will be implemented in the spring of 2012.

Other tasks approved by the Board included the opening of a new handicapped accessible playground at Farm Pond; the completion of Phase 4 at Cushing Park, and new signage at various parks. We entered into a formal written agreement with the School Department to assist with school bus storage needs at our Long's Athletic Complex.

The Park & Recreation department managed the Summer Concerts on the Green for the first time in 2011. Attendance continues to be strong and some concerns regarding the location of the stage will be reviewed and addressed for the 2012 season.

The Department Mission Statement was reviewed by the Board and modified to read "To create recreational opportunities, preserve open space, manage public athletic fields and parks, and administer recreation programs for the population of Framingham."

Parks and Recreation Department The received the 2011 Massachusetts Architectural Access Board and Boston Society of Architects Design Award at the State House for incorporating handicapped accessibility into the design of the new Bowditch Field Athletic and Cultural Complex. In addition to the 345 events scheduled at the Bowditch complex, stadium events included American Cancer Society Relay for Life, Marian High School's League Track Meet, and the United Soccer Memorial Day Tournament as well as a host of high school and college athletic events. The Department is still holding payments on the General Contractor until corrective masonry work is completed.

Beautification Projects were implemented throughout the Town with the use of volunteers. The most noticeable areas include Route 30/126 Island, Jonathan Maynard Building, Sax Dam, Old Burying Grounds and Nobscot Park.

The Agricultural Committee was issued a permit to establish a Community Garden at the Pratt Street property. A new parking area and water lines were installed with hopes to implement a green space for the development of a neighborhood garden. It is hoped the

Agricultural Committee will continue to utilize this improved area for community gardening opportunities.

The Department continues to be an economic driver for our community. Our excellent recreational facilities attract thousands of people to sports activities and tournaments. They in turn spend money in our stores, hotels, gas stations, and shopping malls. Research continues to demonstrate clean parks and well maintained athletic fields improve property values and attract new industry to our tax base.

We would like to thank Town Meeting, the many Town boards, committees, departments and volunteers for supporting our services. We would also like to thank the hundreds of user organizations and volunteers for their continued support.

Barry Bograd Chair, Park and Recreation Commission Robert I. Merusi Executive Director

Robert L. Merusi, Executive Director, Parks, Recreation, and Cultural Affairs

Recreation

During the past year, The Recreation Department offered 273 different programs with a total of 16,302 participants. Summer use of the beaches at Saxonville, Learneds and Waushakum increased 2% from the previous summer for a total of 15,800 visitors. New programs offered this year included Zumba, Special Needs Swimming, Art, and Dance, Go for your Goals for Girls, Walk with the Parks and Adult Aikido.

This was the first year the department managed the ever popular "Friday Night Concerts on the Green." An eight week schedule of local talent included the sounds of the 'Infractions,' 'Common Ground,' 'The Three Swinging Tenors,' 'XRB,' 'Off the Hook' & 'Three of a Kind.' The weather prevented the 'Heritage Pops Orchestra' and the 'Reminisants' from performing. The season was a success with some concerns

expressed about the stage placement due to the glare from the setting sun. These concerns will be addressed for the 2012 season.

Assisted by the Friends of Framingham Recreation, the department sponsored the following special events this year: Pumpkins in the Park, Green Up Day and the Egg-citing Egg Hunt. These events continue to grow in popularity and size. Additionally, with thanks to Framingham Co-operative Bank for the funding, walkers at Cushing Park were surprised to be offered hotdogs and hot chocolate as they visited the Park on several occasions over the course of the year.

In conjunction with the Framingham Police Department, Framingham Fire Department and Selectmen, the Parks & Recreation Department hosted a special remembrance ceremony and vigil on September 11, 2011 for the 10th anniversary of the attack of the United States. In addition to honoring the 17 individuals that had ties to Framingham, the event included the placement of nearly 3,000 American Flags to represent each person who lost their life on that tragic day. The ceremony was held at the 'September 11th Living Memorial' located in Cushing Memorial Park.

Our Department has joined other members from the community on the Framingham Youth Development Collaborative, an initiative implemented by District Attorney Gerard Leone. This group meets every other month and is working toward developing programs and job opportunities for the youth of Framingham.

The Department experienced some transition this year with the retirement of PAL Basketball League Coach Tom Click as well as several longtime instructors and coaches who were replaced in our Summer Swim Team, Crafts, Keyboard and Playgroup classes. The PAL basketball league is now led by the new Director Alan Williams and once again challenged the New England Patriots Jerod

Mayo, Sebastian Vollmer, Mike Wright and Brian Hoyer in an exciting game of Basketball with the win going to the Patriots in overtime. We are thankful for the many successful grants that enhanced our 2011 programs. The Department of Public Health and the State of funding Massachusetts provided continued Youth at Risk programming. Future Skills funded two summer counselors for our Recreation Centers while Project Bread and the United States Department of Agriculture Food and Nutrition Service provided free breakfast and lunch for the Recreation Special Needs Program. would also like to thank the Sudbury River Tennis Club for their generous donation which was used to help defray the cost of the summer tennis lessons. Additionally, Friends of Framingham Recreation was able to grant numerous scholarships Recreation for Programs to families in need.

We would like to thank the Town Selectmen, Town Meeting Members, Town Staff and numerous community volunteers for their support and dedication. Without their continued support, we would not be successful in offering quality programs to the residents of Framingham.

We welcome input from Town residents and we value both your feedback and involvement in our programs. Respectfully Submitted,

Trisha Powell Superintendent of Recreation

Robert L Merusi, Executive Director, Parks, Recreation, and Cultural Affairs.

Parks Maintenance

The Parks Maintenance Division continues to provide some of the best maintained facilities in the Metro West area. We have implemented a quality maintenance program to maintain the condition of our high use turf areas with a balanced turf management plan of aeration, top dressing, fertilization, seeding, mowing and proper irrigation.

With the increased demand for additional practice and game fields, over use of facilities and the decline in turf quality is a major problem that we face. There continues to be an increase in participation in some of the seasonal sports. Long range planning for alternative field space still needs to be a priority, yet this will be a challenge due to the funding increases required. The second phase of field renovations at Fuller Field was completed in 2011.

Our Maintenance Department continues to support the athletic programs of three high schools, Framingham High, Marian High and Joseph P. Keefe Technical High School. Others that rely on our department for a portion of their athletic program needs are Framingham State University and Mass Bay Community College. In addition to school athletics, the Department provides scheduling and facilities for hundreds of other user groups from the Framingham community. In addition, our staff took responsibility for the *Concerts on the Common* series this past summer with great success.

Our working relationship with Keefe Technical School enabled our department to complete some major projects. In the Fall, Keefe's electrical lab provided labor to finish the second phase of the Butterworth Tennis Light Project. This was a CDBG project that had been divided into two projects; one for infrastructure and a second phase to relight the tennis courts. This mutually beneficial relationship with Keefe Tech provides the Town of Framingham with access to cost professionally supervised effective and electrical, carpentry, plumbing and metal fabrication, while affording students the benefit of practical "real world" learning experiences in a commercial setting.

Infield renovations to Longs and Bowditch baseball fields were completed in the Fall. The

renovations enabled us to improve/repair the poor drainage and uneven play areas from these two highly used sites. We are also renovating many of our playground area fall zones and replacing old wood chips with safety zone wood fiber mulch. We have begun installing signage to some of our parks and will continue to make our areas identifiable.

Through our Capital Budget program, we were able to purchase a new vehicle for our fleet; purchase beach docks for Learneds Beach and make some handicap accessible improvements at the Furber Park playground. After a delay due to a contractor's problem, we were able to bring another handicap accessible playground on line at Farm Pond.

The department also collaborated with Sudbury Valley and the Framingham Agricultural Committee to start a community garden program at the Pratt Street property. The area was used by local residents allowing an opportunity for them to cultivate their own produce.

This year's Arbor Day of Service project in Framingham was collaboration with our staff, Keefe Tech and the Public Works Department and was in memory of Jason Pierangeli, a Keefe Tech teacher who passed away earlier in the year. The groups worked together to enhance the grounds of the school and a tree was planted in Jason's memory as well.

Our active tree maintenance program continues by concentrating on the removal of hazardous trees and the pruning of trees for safety and structural reasons.

The hurricane and early snow of October brought a lot of damage to trees in many areas. Our department spent 811 man hours to clean up the storm damage to parks and school areas within our purview. The town wide beautification program continues to be a successful collaboration with our department, volunteer groups and court system labor. We

continue to benefit from the donation of labor and services provided by private companies to improve high visibility roadside areas and offer them the opportunity to promote their donations at the same time.

I would like to thank all the volunteers and volunteer groups that worked with us on many projects over the year. Their support is and always will be a tremendous resource. We continue to give support and resources to other Town Departments including the School Department, Building Services, Public Works and Conservation. We would also like to thank all of the Town departments for the cooperation they have provided throughout the year; it would be very difficult for us to achieve these successes without their help.

Christopher A. McGinty Superintendent, Parks Maintenance

Robert L. Merusi, Executive Director, Parks, Recreation, and Cultural Affairs.

Cemeteries

The Cemetery Commission consists of a three member board appointed by the Board of Selectmen. The Cemetery Commissioners Robert Brown and Kevin Salvi elected Barry Bograd as Chairman at its meeting of November 16, 2011.

True Green Chemlawn is in the first year of their contract to perform the routine grounds maintenance for Edwards Cemetery, Main St. Cemetery and Old South Cemetery.

The Parks Maintenance staff continues to perform grave openings. There were two burials and four cremations at Edwards Cemetery and one cremation at the Main Street Cemetery during the year. There is a moratorium on the general sale of new lots which is still in effect. Fee schedules for associated cemetery activities were raised and approved and are now up to date and on par with surrounding communities. In addition,

there continues to be an increase in requests for historical records associated with the cemeteries.

Report submitted on behalf of the Cemetery Commission by:

Christopher A. McGinty Superintendent, Parks Maintenance Robert L. Merusi Executive Director Parks, Recreation, and Cultural Affairs

Cemetery Commission

Barry Bograd Chairman Robert Brown Kevin Salvi

Loring Skating Arena

Loring Arena is in its 49th year of operation. In addition to the normal services the arena provides, we are continuing to create a user friendly atmosphere.

The Loring Arena Committee members are appointed as an advisory board. Appointed by the Town Manager, the members who continue to serve on the committee are cochairs Joe Tersoni and David Friday, and John Hart, Jack Jagher, Bob Brown, Richard Callahan and Joan Rastani.

During the spring of 2011, a new valve was installed on the 49 year old ammonia system. This new valve was essential to isolate ammonia in the event of a leak. During the installation, the bulls-eye column on the main receiver was also replaced as it monitors the liquid level of ammonia.

In the summer of 2011, the arena added a new exterior LED sign. The sign was custom made to fit the existing frame and the cost was significantly lower than if the sign had been replaced. The new sign provides increased exposure for all arena events. New light sensors were installed in all bathrooms and locker rooms to decrease the use of electricity. A new electric motor was installed on the evaporator condenser as well.

During the fall of 2011, the arena staff added two mesh Parks & Recreation logos in the ice surface. In addition, a new electric hydraulic motor was installed on the Zamboni.

The Stanley Cup made a special appearance at Loring Arena on October 15, 2011. This was made possible by a board member of the Framingham Youth Hockey Program along with Loring Arena. Approximately 600 people were able to view and be photographed with the Stanley Cup over a two hour period while Loring Arena personnel provided security for this special event.

Loring Arena continues to host events and provide services to all and continues to be a source of pride to the community. Loring Arena contributes to the economic environment by attracting visitors to the Framingham area.

Arena management continues to focus on improving the infrastructure and maintaining the rink to high standards.

The following is financial information relating to business conducted through the fiscal year ending June 30, 2011:

Total gross revenue as of June 30, 2011: \$478,650.67 (includes \$16,730 for insurance reimbursement for lightning damage to main electrical panel)

Total Rink Operational Expenditures as of June 30, 2011: \$448,116.37.

Richard Weston, Loring Arena Director Robert L. Merusi, Executive Director, Parks, Recreation, and Cultural Affairs.

Council on Aging Callahan Center

The Raymond J. Callahan Center is a multipurpose, multi-functional center for

programs, activities and services for older adults and the people who care for them. The Council on Aging Board assesses the needs of elders and advises them on programs and services to meet their needs. The Center is staffed by four full time municipal employees and 14 part time employees who are funded by grants from the state and private foundations. The center also benefits from the thousands of hours donated by hundreds of volunteers. These volunteers perform a variety of functions: providing tours of the center, answering the phones, assembling the newsletter for mailing, working in the Heritage Gallery consignment shop and helping with numerous activities at the center. The Friends of Callahan is a non-profit, 501(C) 3 program that raises funds to assist the center in offering its many programs and activities.

Accomplishments:

Attendance in activities and programs at the Callahan Center increased from 30,625 in 2010 to 31,548 in 2011. Many people come in on a daily basis. The significant increase in the number of seniors participating in the many exercise classes we offer indicates they are taking an active role in maintaining and improving their health and well-being. Interest in the Callahan Center Travel program has grown with 130 new clients in 2011 and a total of 40 trips were enjoyed by more than 1,000 seniors.

The SHINE program provided more than 1,200 sessions of assistance regarding health insurance information for seniors. Loans of durable medical equipment were made free of charge to almost 300 seniors.

In September, the Callahan Center became the ninth senior center in Massachusetts to be awarded accreditation by the National Councils on Aging/National Institute for Senior Centers. Only 199 other senior centers across the country have achieved this recognition of meeting nine standards of excellence established by the national groups.

Once again in December, seniors at the Callahan Center partnered with students and teachers from the Miriam McCarthy School in raising funds to donate to the Kate McSweeney Homeless Fund.

Seventy seniors who are 90 years of age and older were feted at the annual *Jewels of Framingham* event in May with students from Keefe Technical School offering their talents to accentuate the beauty of this fabulous group of seniors.

New and improved services and programs:

In the Spring, the Friends of Callahan began offering a luncheon for seniors once a month, catered by Mark Curtis of American Eagles Grille. It was so successful that by the end of the year they agreed to offer the luncheon twice per month. The fee is \$4 per person it is a great deal. For those who prefer solitary activities, WiFi access was made available in the Friends' café that also offers a new puzzle table that was donated.

The number of support groups offered at the Center has grown from nine to eleven with the addition of *Living with Cancer* and *Men's Prostate* groups. More than 150 seniors benefit from all these monthly support groups.

The Callahan Center now offers assistance with the new applications for the fuel assistance program to those seniors who qualify. In addition, we worked with 39 eligible seniors to receive a credit of up to \$725 on their property tax bills. In return, they volunteered approximately 89 hours of assistance to town departments in a variety of ways in the "Senior Tax Work Off Program."

The Bi-Lingual Outreach Aide collaborated with the Latino Health Insurance Program to provide additional assistance to the Latino community. We continue to encourage Latino elders to participate in activities at the Callahan. ESOL classes for the Asian

community of elders are also held twice a week.

A group of 75 volunteers were recruited from local businesses, religious groups, parents, teachers and students of several area schools to provide 225 hours of yard work/cleanup for 14 senior households.

New events and happenings in 2011!

An effort was made to appeal to younger seniors from the Baby Boomer generation by offering "Evenings at Callahan" once a month where the center remained open until 9 p.m. with a series of programs geared to their interests. Due to a lack of interest from this age group, the evening program was canceled after a few months. We will continue to seek

other opportunities to connect with younger seniors in the future.

On December 16, 2011, after a lengthy search, Grace O'Donnell of West Roxbury was offered the position of Director of Elder Services. Grace will replace Mary Parcher who served as the Director for many years. The community wishes much happiness to Mary in her retirement and thanks her for all her years of service. Grace O'Donnell will begin as the new director in January 2012.

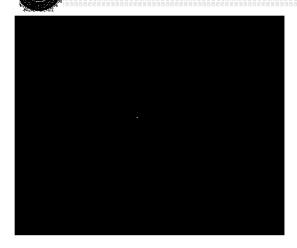

Tom Pedulla, Chairperson Council on Aging Board

Grace T. O'Donnell, Director of Elder Services (2012)

Robert L. Merusi Executive Director, Parks, Recreation, and Cultural Affairs

Fuller Middle School, 31 Flagg Drive | 508-626-9117 | shiersche@framingham.k12.ma.us

FY12 Budget

As the year began, the School Committee spent several months in budget deliberations with the Chief Financial Officer, the Finance Committee, Ways and Means Committee and Standing Committee on Education. In April 2011, the School Committee voted a FY12 level-service budget of \$92,281,151. Superintendent Steve Hiersche presented a series of budget reductions, which though not recommended, would enable the School Committee to close the budget gap to the CFO's initial budget recommendation of \$90,637,218. In early May, the CFO provided a new FY12 budget recommendation of \$91,177,164. In mid-May, the School Administration identified a budget projection error which reduced the gap to the CFO's budget recommendation. The School Committee voted unanimously an FY12 Budget request to Town Meeting of \$91,620,343, resulting in a \$443,179 budget deficit to the CFO's recommendation. In late May, the School Committee successfully negotiated a one-year contract with the Framingham Teachers Association. The FTA accepted a zero percent cost-of-living adjustment and agreed to defer movement on

the steps until mid-year, as well as other contract changes that helped ease the School Department's budget issues. On May 26, 2011, Town Meeting passed a School Department appropriation of \$91,320, 323, representing an approximately 3% increase from last year.

In the fall of 2011, the School Committee voted to support a series of district rebuilding priorities including: one foreign language teacher; one late bus at Fuller Middle School; kindergarten aides; second school secretaries and two full time library assistants. At a Special Fall Town Meeting, the CFO's recommendation to transfer \$207K to the School Committee's FY12 budget passed. Since one-fifth of the school year had already passed, these funds would cover the rebuilding priorities.

Bus Privatization

In April 2011, the School Committee considered the privatization of its bus fleet and drivers as a means to reduce costs to the While considering the value of a successful, effective and efficient school bus transportation system and the loyalty of Framingham's bus drivers to the Town of Framingham over the past 70 years, the School Committee had to consider significant savings to the Town, primarily in employee health care costs, which could be realized if the School Committee decided to privatize. On April 25, 2011, the School Committee voted to accept the low bid for buses and drivers by Durham School Services for the five-year period beginning in the summer 2011 through the summer of 2016.

Superintendent Search

In August, Superintendent Hiersche publicly announced that he would be leaving Framingham for professional and personal reasons at the end of his three-year contract on June 30, 2012. Chair Beverly Hugo expressed gratitude to Dr. Hiersche for his service and his intention to help the School Committee ensure a smooth transition for his successor.

In October, the School Committee hired Future Management Systems, Inc., of Beverly, MA as its superintendent search consultant. In November, the School Committee appointed a 15-member Superintendent Search Screening Committee including Paula DelPrete (Principal, Potter Road Elementary School), Kim Taylor (Principal, Dunning Elementary School), Judy Friedland (SAGE Teacher at Woodrow Wilson/Barbieri, former member of Ashland School Committee and the FTA appointee to the Screening Committee), Sam Miskin (FTA President and FHS Math teacher), Judith Styer (Director of School Health Services and Framingham Health Advisory Council Chair), Melanie Goddard (Chair, Standing Committee on Education, Town Meeting member and Fuller Technology School Specialist), Middle Michael Phipps (Partners in Education, Genzyme, Walsh parent and the Board of Selectmen's appointee to the Screening Committee), Susan Arndt (Co-President, Framingham Special Education Advisory Council and parent), Dr. Scott Greenberg (Framingham State University Dean of Graduate and Continuing Education and Assistant Vice President of Academic Affairs and a Fuller/FHS parent), Ernest Herrman (President of TJX Corporation and a Brophy/Walsh/FHS parent) and Viviana (Co-president Bilingual Vilches Parent Advisory Council and a Barbieri/FHS parent), Susanne Olson (Townwide PTO appointee to the Screening Committee and parent), Ken Ferguson (Deputy Police Chief, Framingham Police Department and member of Board of Directors of multiple youth initiative and

community organizations) and School Committee members Beverly Hugo and David Miles.

Policy

In 2010, the School Committee began a cover-to-cover review of the Framingham Public Schools Policy Manual in conjunction with the Massachusetts Association of School Committee and district principals, administrators and staff. The district's manual contains approximately 200 policies, some originally written prior to 1970. The review continued throughout 2011. The School Committee hopes to complete this work in the spring 2012 and post the FPS Policy Manual online by the end of the 2011/2012 school year.

Curriculum & Instruction

The Committee requested the administration's review of its many major programs throughout the year. Specifically, directors and principals presented analysis recommendations for the following: Special Education, Bilingual, Gifted and Talented, middle school math, potential changes to middle school STEM initiatives, the Blocks Preschool, district scores on national and state tests, including APs, SATs and MCAS, evaluation of implementation of Baccalaureate International program Wilson, and the potential of establishment of the Barbieri Two-Way school as a Horace Mann Charter, as encouraged by Department of Elementary and Secondary Education.

In addition, the committee partnered with the administration and the Framingham Teachers' Association in addressing the federal Race to the Top initiative regarding modifications to Teacher Evaluations in order to qualify for \$700,000 in funding for Framingham over the next three years.

Facilities

Upon the approval of Town Meeting of the School Department's capital budget requests,

the district was able to implement much of the next phase of its 10 year facilities plan. The B&G work necessary to relocate the Blocks Preschool program from the King building to Juniper Hill was completed over the summer of 2011, for program movement over the summer of 2012. Administration from three current temporary locations will subsequently be moved to King.

The Committee also closely monitored the hearings at General Chemical and their impact on the Woodrow Wilson Elementary School.

School Choice

The Committee reviewed the analysis of School Choice vs. Neighborhood Schools completed by the Superintendent, Dr. Hiersche. In sum, he found that the buildings are primarily located in the north of the town, while the majority of students in the district reside in the south. Over 600 of the district's 8,200 students would need busing regardless of any student assignment plan. In addition, savings due to placement of particular programs in only 1-2 schools would be lost if those program were needed to be replicated in each school due to a neighborhood model.

The Committee

In April 2011, incumbents Michael Bower, David Miles and Carol Phalen were elected to three-year terms. After the election, the School Committee met to reorganize and elect officers. The School Committee elected Beverly Hugo as Chair, David Miles as Vice Chair and Richard Finlay as Clerk. In late December, Richard Finlay resigned his seat to accept a new professional opportunity. The School Committee thanked Mr. Finlay for his dedicated service.

In closing, the School Committee would like to thank all Framingham Public School staff for their dedication to all of Framingham's students, all Town staff and elected officials, and all Framingham residents for their continued and unwavering support for Framingham Public School students.

Respectfully submitted, Beverly Hugo, Chair David Miles, Vice Chair Adam Blumer Michael J. Bower Andy Limeri Carol Phalen

SUPERINTENDENT OF SCHOOLS REPORT

In reflecting on the past year, several themes stand out for the school district. First and always foremost was the continued academic achievement of our students. Learning is the central purpose of our schools Framingham students learned well in 2011. More students mean a need for more classrooms. The second theme was the ongoing effort to develop a budget that allows the schools to meet the educational needs of students and to do so with minimal support from the state and within the framework of local taxes. In 2011, this task involved significant efforts to contain costs and seek more assistance from the State and fall Town Meeting.

The College Board's Advance Placement Program (AP) offers students the opportunity to take challenging, college-level courses while still in high school and to receive college credit, advanced placement, or both for successful performance on the AP Exams. Since 2002, the number of students taking the AP exams has more than doubled with three hundred and fifty six participating in 705 Advanced Placement Exams, in eighteen subjects, in 2011. 90% of the exams were passed and eligible for college credit. This compares with three hundred forty who took the exam in eighteen subjects in 2010.

Through continuing aggressive efforts of the FHS Guidance Department, 96% of the junior class and 91% of the sophomore class took the Preliminary Scholastic Assessment Test (PSAT). These numbers are impressive compared to the fact that 65% of the junior

class and 46% of the sophomore class took the test in 2004. Over 76% of the graduating class participated in the SAT. Framingham students averaged 513 on the Critical Reading portion, 527 in the Mathematics portion, and 509 on the Writing Component. These scores compare well with National Averages which are 497, 514 and 489 respectively.

The community should be proud that so many students take and pass a wide variety of these college-level exams, and that they do so well. One result of the high student achievement is acceptance at a college or university to continue education. In keeping with past years, more than 83% of the graduates in the Class of 2011 continued their education at an impressive variety of institutions of higher learning, including some of the most selective colleges in the country.

Each year, the Boston Globe Scholastic Arts Awards, established in 1923, is an aggressive competition in which thousands of students participate and only the best are awarded with recognition. Twenty-eight Framingham Public School students took home awards in this arts competition. This past year, La Cantina Restaurant established a Scholarship program aimed at helping students, whose family does not meet the poverty threshold, but are experiencing hardships due to the economy. This program helps provide the funds for school lunch for those needy and deserving families. Precision Marketing of Framingham contributed to Woodrow Wilson Elementary School in donating a Reading Lounge, inspired by the book Igniting a Passion for Reading by Steven Layne, and was designed to give Wilson students a place to enjoy reading, complete with twenty-six beanbag chairs, floor lamps, and children's artwork about favorite books and reasons to read.

Stapleton Elementary School was recognized in the Fall 2011 edition of *MassRecycle News* for its recycling efforts. Fuller Middle School was the proud recipient of a donation from the BOSE Corporation of Framingham

enhancing its technology. Over one-hundred Framingham High School participated in both the New England Math League Competition and the Math Olympiad. FHS placed fourteenth out of one hundred and seventy-five schools that participated. Genzyme Corporation continues to be a proud sponsor of the Reading Pals program at Brophy Elementary School promoting reading fluency and comprehension skills. The Buildings and Grounds Department was able to take advantage of a program from MA Energy Insight which allowed the district to acquire, free of charge, LED light bulbs valued at a cost of \$10,000.

Woodrow Wilson Elementary School staff and leadership have been investigating both the International Baccalaureate Primary Years Programme and the School of Innovation Grant as a solution to increasing student achievement at Wilson. Staff, parents, and community members have been involved in the preparation. There have already been changes in instruction in the classroom that the school is extremely excited about. We are looking forward to continuing that process.

In December, the Department of Elementary and Secondary Education Commissioner Mitchell Chester visited Barbieri Elementary School along with the Director of English Language Learner Education for DESE to learn more about the Two-Way Program. Commissioner Chester spent the morning at Barbieri meeting with teachers, parents, school administrators and was impressed with the program.

Town Meeting appropriated funds to achieve a balanced budget for FY12. The School Department is appreciative of the Town's financial support to provide its children with the quality education they deserve. Through the capital investment of \$500,000 last summer, approved by Town Meeting, the district was greatly able to enhance its technology. Recognizing the value of providing a 21st century education, this

investment is critical to improving quality education.

The success of the Framingham Public Schools in helping students achieve, in keeping pace with growing enrollments and in containing costs is the result of a highly professional staff and the tremendous support the schools have received from the community. On behalf of the students and staff of the Framingham Schools, thank you for your support.

Respectfully submitted, Steven A. Hiersche, Ed.D.

ASSISTANT SUPERINTENDENT CURRICULUM AND INSTRUCTION

During the 2011 year, the district has been fortunate in being able to put more resources, including time, personnel and materials, into curriculum and instruction. This coincides with the adoption of the new Massachusetts frameworks in English Language Arts and math based on the Common Core, a set of academic standards adopted in forty-one (41) states, requirements and funding from Race to the Top Grant to the State and districts of Massachusetts.

Alignment work in Framingham in English Language Arts (ELA) and math has been supported by new part time ELA and Math Curriculum Alignment Coordinators; two positions funded by grant revenues. These coordinators have formed teams of teachers, specialists, department heads and coaches. These groups are working to ensure that the curriculum taught in Framingham is the curriculum being assessed by the new MCAS assessments that are being phased in over the next two years. The Curriculum Alignment Coordinators have also been working with teachers on data analysis so that data may be used to improve instruction. Besides MCAS data, teachers in grades 3 through 9 utilize the norm reference assessment, Measures of Academic Progress (MAP) data in reading and math, as well as other assessments outlined in a new assessment calendar also developed this year. Along with curriculum alignment efforts in math and ELA, we have been able to engage a team of teachers and administrators in Science and in Social Studies in reviewing our existing curriculum in each of these content areas, enriching it, ensuring it meets the state's frameworks, is consistent across the district and is linked between grade levels.

Materials for middle school language arts, math, science and social studies, have been purchased and are being used daily. materials include on-line resources that are needed for a new literacy and math lab at the middle level which provides remediation, extension and enrichment to students based on their identified needs. At the elementary level, new materials for struggling readers have been purchased and are being piloted which should be especially useful for students with limited English proficiency. Substantial dollars were also spent on leveled readers, chapter books, word study books, and other materials to upgrade existing resources in elementary classrooms, bookrooms and With the re-establishment of a libraries. district curriculum team, there has been more opportunity for collaboration among directors of bilingual education, special education, and gifted and talented education. The team has been working on more explicit planning around professional development for the Framingham teaching staff. Using research on effective professional development, we will develop a vision for all professional development to help ensure our limited resources are utilized most effectively. curriculum team has begun to prepare for new English Language Learners standards based on World Class Instruction and Assessment (WIDA), adopted by 22 states including Massachusetts. District personnel have been learning about new assessments for limited English proficient students which will begin during the 2012-2013 school year, also part of the WIDA adoption.

On the horizon is an exploration of STEM (science-technology-engineering-math)

curriculum. Individual teachers and schools have pursued a wide variety of programs and opportunities for students in these areas, making it the right time to work on coordination and standardization. Our first efforts will be at the middle and high school level.

The past year has been a time for rebuilding and reawakening with respect to curriculum and instruction. A lot has been started, but much remains to be done to ensure that the structures, processes, personnel, policies and necessary resources are in place to support high quality education for each student in Framingham.

John Brackett, Ed.D. Assistant Superintendent

BUSINESS ADMINISTRATION

The School Business Office provides financial and administrative support to the overall educational program of the School Department. The primary function of the office is to provide accounting and oversight of the Town appropriated School Department Operating Budget. For the Fiscal Year 2010-11, the budget was \$88,695,969. In addition, we oversee 80 (eighty) Revolving Funds and thirty-nine (39) Federal, State and Local The Business Office is also Grants. responsible for completing and submitting the annual End of Year Report to the state Department of Elementary and Secondary Education, which is the basis for the Town's receipt of Chapter 70 Aid to Education that totaled \$20,018,205 for FY11.

The Business Office serves over fifty (50) Responsibility Centers by processing over 6,000 purchase orders with a value of over \$22,000,000. In addition, the Business Office manages the cash receipts of the School Department that total over \$6,000,000, ensuring that the collection, accounting and distribution of these funds conform to Town guidelines as well as sound business practices.

Edward Gotgart, Ed.D. Melissa Dunnet, School Accountant

HUMAN RESOURCES

In 2011, two new Vice Principals were hired. Mr. Stephen Manning became the new Vice Principal at Cameron Middle School. Mr. John Maynard joined the Woodrow Wilson staff as an Elementary Vice-Principal.

Congratulations are extended to the following staff members whom attained Professional Teacher Status in 2011: Joy Aginsky; Jason Austin; Douglas Briggs; Lori Brockway; Rosangela Caixa; Julie Callanan; Cercone; Denton Conklin III; Keri Ann Crandall; Peter Eliot; Glenda Espinoza; Brendon Ferullo; Richard Ghiorse; Katherine Goldfarb; Ann Greenawalt; Sara Hamerla; Elissa Hardy; Annemarie Howes; Kathryn Joyce; Soraia Junkoski; Jennifer Krass; Julie L'Abbe; Andrea LaGala; Nadine Lucas; Kevin Lvnch; Elizabeth McCullen: Cristina Medeiros; Daniela Migliano; Shannah Milani; Stephanie Miller; Cailtin Moran; Michele O'Connor; E. Bonnie Player; Carolyn Pratt; Debra Price; Stacey Reed; Damarys Rivera; Kimberly Rosenberg: Janice Schlegel; Lisa Shluger; Christina Sickles; Heather Soldano; Vicki Trapp; and Jeffrey Weinstein.

It is a privilege at this time to express the School Department's gratitude to our retiring faculty of 2011:Harold Adams; David Heriberto Alfaro; Georgina Agostinelli; Almeida; Linda Armstrong; John Bishop; Stephen Bruni; Barbara Butler; Carolyn Cabot; Kathleen Carbeau; Fabio Castellanos; Phyllis Chisholm; Karen Coffey; Jane Conaway; Patricia Holly Decoff; Delvalle; Doucette; Jane Eggert; Eric French; Clara Garcia; George Gates; Gloria Geller; Nicola Grieci; Robert Guardiani; Gerard Hall; Robert Haney; Leslie Haeuber; Mary Hewins; Sharon Hicks; Marlene Hutchins; Ellen Kilbridge; Judy Krattenmaker; Ann Lamb; Stephen Leach; Judith MacNeill; Florence Martin; McCauley;Thomas Zelia McGary; McGinty; Jane McHugh; Francis Mudgett;

Thomas Olsen; Paul Pierozzi; Carmen Pinto; Shifra Rosoff; Deborah Sandler; Joyce Seariac; Deborah Wall, and Nancy Yeager.

They have served our community with dedication and professional commitment. We thank them and we wish them the best in their future endeavors.

Paula J. Ceglowski Director of Human Resources

TECHNOLOGY DEPARTMENT

The Office of Technology (OT) is responsible for all administrative, instructional, communications technology for the Framingham Schools. Public Sixteen locations are supported on our fiber optic wide area network (WAN), over 9,000 users (5,500 network accounts), almost 3,000 computers, and over 1,000 VoIP (Voice over Internet Protocol) telephones. The Office of Technology is focused on enhancing and streamlining the teaching and learning process with an efficient and accessible network, a robust and Web-accessible student data management system, and IP-based and wireless telecommunications. The Office of Technology's primary purpose is to support teaching and learning in the 21st Century. To this end, we leverage technology to improve the efficiency of teaching and learning as well as the efficiency of administration through the use of cost saving, innovating technologies.

For the 2011-2012 school year, Office of Technology used capital funding to purchase 400 laptops and 247 projectors for middle and elementary teachers and staff. OT continues to expand technology including cloud printing capabilities and managed wireless network coverage to 214 wireless access points. Also, OT is working with Building and Grounds department on the installation of the district's security system.

In the future, using the long range technology plan, the Office of Technology plans to acquire new laptops for high, middle, and elementary school teachers and staff, upgrade classroom projectors, and modernize computer labs at the elementary and middle school levels. Furthermore, OT plans to improve network infrastructure and increase internet bandwidth speeds.

Stephen A. Yap Interim Director of Technology

SPECIAL EDUCATION PROGRAM

The Department of Special Education provides a broad array of services for children and youth identified with disabilities from the ages of three through twenty-two. The referral, evaluation and placement procedures are governed by state and federal special education laws and regulations, namely, The Individuals with Disabilities Education Act (IDEA). FPS is committed to the goal of providing an appropriate education for students with special needs in the least restrictive setting.

The following programs and services were offered by FPS from Pre-School to High School: Special Education Resource Rooms are available in each school. The Resource Room or Learning Center model provides direct teaching in both special and general education classroom settings, through supportive and/or inclusion, teaching consultation to the general education classroom teacher of identified students.

There are fifty-two Substantially Separate classes from Pre-School through High School. These students require comprehensive programming which is provided outside of the regular education classroom for more than 60% of the school day. These classes are located at the High School, three Middle Schools, at seven Elementary Schools, and at the Pre-School serving the special education needs of students throughout the District. Where appropriate, these students are included in general education classes and ancillary activities.

Related services, namely speech/language therapy, occupational therapy, physical therapy, adaptive physical education and services from the teachers of the visually impaired, orientation & mobility specialist and consulting audiologist may be included in a student's Individualized Education Plan (IEP) and are provided by specialized personnel at all schools. Inclusion programs have been established using a variety of approaches throughout the district. Some classes are cotaught, some classes meet for specific periods, and some special education teachers are assigned to a group of classes. In addition, some teachers who are dually licensed in special education and regular education have full time responsibility for inclusion classes at the elementary level.

Framingham is a model for Pre-School Programs for both children with special needs and typical children ages three to five. The placement of children with special needs in the Pre-School Programs emphasizes language, communication and social skills development, and integration with children without special needs.

Framingham continues to see an increase in the number of children with autism, multiple disabilities/medical needs and developmental delays at the Pre-School level. At the High School level there is a significant increase in the number of students identified with social/emotional disabilities. The severity of these disabilities presents challenges to the school district to develop new and additional programs in order to support these children in the public schools.

In conclusion, Framingham has continued to implement and provide a comprehensive continuum of programs, services, and placement options for students with disabilities. Framingham is fortunate to have an active Special Education Parent Advisory Council whose role is to advise the special education department and to engage parents

of children with disabilities in the schools through meetings and town wide newsletters.

Betsey H. McKeon Director of Special Education

BILINGUAL EDUCATION PROGRAMS

The Department of Bilingual Education provides support and services to students in grades K-12 whose primary language is other This student group is often than English. referred to as English language learners (ELL) and the primary goal of all bilingual programming is to provide specialized instruction in English language development to enable ELLs to access the curriculum and achieve in an English dominant environment. Bilingual education is an umbrella term which encompasses a variety of different types of program models. In Framingham, such Sheltered English models range from Immersion to Two-Way, to Transitional Bilingual Education, and include variations on each of these programs. In 2011, 14.0% of the district K-12 enrollment was identified as limited English proficient or ELL and FPS offered specific programming and support at eight different schools: five elementary schools, Barbieri, Brophy, Dunning, Potter Road, and Wilson; 2 middle schools, Walsh and Fuller; and at FHS.

Due to the dedication of the staff and success of programming, FPS continues to be recognized as an educational leader in bilingual education. Our staff, from faculty to administration, is solicited for input across the state and plays an active role in Department of Elementary and Secondary Education sponsored initiatives for ELLs, the Urban ELL Director's Network, DESE Curriculum Summit, Massachusetts Reading Association-MRA ELL Ad-Hoc Committee, and various other policy groups. Bilingual The Department also continues to lend its particular expertise to several committees in the district reviewing curriculum, assessment, intervention, literacy, and data relating to the

education of all students in Framingham. This is an accurate and honorable recognition of the high quality of teachers, programs, and services provided at all of our schools.

This year the Bilingual Education Department has sponsored several professional opportunities development to enhance teachers' understanding and ability to address the complex needs of ELLs. professional development offerings have been on-going throughout the year, including summer months, and have enjoyed the participation of faculty across grade levels and from every department. They have ranged from professional learning communities, to locally sponsored seminars, to participation in workshops lead by national leaders in instruction for ELLs. Staff and all levels of administration have worked collaboratively to expand ESL services for students and to bring expanded support to teachers of ELL students across the district.

Another area of continued growth for our department has been the town-wide Bilingual Parent Advisory Council. The purpose of the group is to provide parents of ELL students an opportunity to meet and discuss the unique needs of their children. Over the summer the Bilingual Department in collaboration with FSU and the Framingham Adult ESL program sponsored ESL for the parents of our students. Over 100 parents participated in four different sections of beginner and intermediate ESL classes. Two sections comprised of our parents continued in the Fall and the Winter terms respectively of the Adult ESL program. This year, the copresidents are actively involved in soliciting parent participation at the building level and have hosted meetings at different schools each month. Also, bilingual parents through the B-PAC participated in the search for the new Superintendent. The success of the town-wide B-PAC and the tireless efforts of the co-presidents reflect the extraordinary commitment of the Framingham community's parents to the education of their children.

Education is truly a team effort and it is with great admiration and appreciation for the efforts of everyone involved, including teachers, paraprofessionals, tutors, parents, students, and administration, that I respectfully submit this brief snapshot on behalf of the Bilingual Education Department.

Anne Higgins, Ed.D. Director of Bilingual

ADULT ESL PLUS

Framingham Adult ESL Plus enrolled 670 students in each of two semesters for 2011. Students came from 32 countries and spoke 19 different languages. They ranged in age from 18 to 85. Students attended a.m. or p.m. English as Second Language classes, Adult Basic Education classes, GED preparation classes, or Citizenship Preparation classes. All were eager to improve their English skills and in doing so become more fully integrated into the Framingham community.

Forty-six students graduated from the program's highest levels and five students received their GED after successfully passing the GED examination. Attendance for the year was excellent with over 85% of enrolled students completing each semester. Highlights of 2011 include:

- A highly successful fundraising event sponsored by the Metrowest ESL Fund and hosted by Susan Wornick which honored two of the rescued Chilean miners.
- A week-long Monitoring Visit by The Massachusetts Department of Elementary and Secondary Education which lauded the program for high performance standards, innovative programming, and a highly qualified dedicated staff.
- The development of a Framingham Adult ESL Plus Alumni Group to keep our graduates connected to the program.

The effectiveness of educational programming at Framingham Adult ESL Plus is measured by Performance Standards for

Adult Education Programs issued by The Massachusetts Department of Elementary and Secondary Education (formerly the Department of Education). These standards include:

Attendance - Programs ensure that students attend between 66% and 76% of planned student hours. Framingham Adult ESL Plus achieved an attendance rate of 86%.

Pre and Post Test Percentage - Programs ensure that between 66% and 76% of eligible students are pre and post tested using the DESE's approved assessment tools. Framingham Adult ESL Plus pre and post-tested 93% of students.

Learner Gains - Programs ensure that between 35% and 49% of students demonstrate gain as defined for each approved assessment. 40% of students at Framingham Adult ESL Plus made measurable gains.

Setting and Meeting Goals -Programs set on average at least 2 goals per student per year and programs meet on average at least one goal per year. Students at Framingham Adult ESL Plus set on average 3.5 goals per year and met 1.6 goals per year.

Another indication of program effectiveness is increased student involvement in the area's economy, schools, and community. Students report obtaining citizenship, joining school organizations, becoming more active in community groups, getting better jobs, attending training programs, and starting businesses.

Framingham Adult ESL Plus also has an active volunteer component through which some of the hundreds of wait-listed students can receive 2 hours a week of tutoring. At present 8 of the over 30 volunteers are former students in the program. They have decided to "give back" to the program that helped them so much.

Framingham Adult ESL Plus has demonstrated tremendous growth since it's inception by a group of town meeting members in 1984. Framingham Adult ESL Plus is fortunate to be in a school system and a community which values life long learning and appreciates the diversity of its residents. We look forward to continuing to give back to the community, which has been so supportive.

Christine Tibor Director, Framingham Adult ESL Plus

GIFTED AND TALENTED PROGRAMMING (SAGE)

The Framingham Public Schools convened a Gifted & Talented Task Force during the 2010-2011 year to review Sage program elements. This Task Force was comprised of Sage staff, administrators, teachers, and parents. Its goal was to review current and past practices, consider programming options that can best meet the needs of students and staff, and recommend program elements given current or additional staffing.

The Task Force presented their results to the School Committee on March 15, 2011. Sage staff and administration used these findings and the reinstatement of a Sage staff position to guide the following program changes that have taken place during the 2011-2012 school year.

Elementary

- The department has transitioned into a hybrid model to facilitate the exchange of ideas between the regular classroom teacher and the Sage teacher.
- Pull out services are provided for identified students in Grades 3-5 for approximately two hours per week. Scheduling by school dictates whether students have two one-hour blocks or one two-hour block.
- Push-in services provides resources to classroom teachers in Grades K-5.

- Screening of current first grade referrals is underway with services to begin in September 2012.
- Word Masters (Gr. 3-5) and Math League (Gr. 4 & 5) is offered as an option to all students in those grades.
- Programming exists in all buildings and placement of Sage itinerant staff is made according to numbers of identified students and the size of the building.

Middle School

In an effort to better serve Sage students at the middle school level, a move to a collaboration model is being made with a focus on differentiated instruction coaching.

- The Collaborative Model:
- O Maximizes professional development and teacher collaboration via online classes, study groups, newsletters, teaming within the classroom setting, and presentations at staff and curriculum meetings.
- O Topics include cognitive complexity, compacting curriculum, tiered instruction, creativity and flexible grouping practices.
 - Staffing is comprised of three teachers working as a team (FTE 1.1) Student.
 - Student Programming:
- O Identified Sage students do not have a regularly scheduled pull out class.
- o Instead, students have opportunities to engage in options sponsored by the department including Word Masters, Focus Discussion Groups, and Independent Investigation during and after school. Students and families receive notices and mailings throughout the year of available activities.
- O Student support lunchtime discussion focus groups offerings include organization skills, self-regulation skills, stress management and goal setting.

• Teacher Programming:

- o Provides imbedded professional development (coaching)
- O A three-credit hybrid course (primarily online with some in-person meetings) through Framingham State entitled "Teaching Tools

for the 21st Century" is available to middle school teachers.

- o A "Differentiation Toolkit" has been provided for each classroom placing practical strategies and solutions.
- O Teacher trainings were held during the course of the year. A half-day release for interested staff during the school day enabled specific concentration on ways to maximize use of the toolkit during teacher workshops.
- O Each team received a set of three resource books including: Differentiation: Simplified, Realistic and Effective; Bloom's and Beyond, and; Teaching Gifted Kids in the Regular Classroom: Strategies and Techniques Every Teacher Can Use to Meet the Academic Needs of the Gifted and Talented.
- O Alternative/differentiated lessons are made available in support of the *Thinkquiry* resource and the Literacy Lab initiative.

Town-wide Initiatives

- Services have been centralized to better operate in conjunction with town-wide curriculum initiatives.
- Sage staff serves on all curriculum leadership teams and is a member of the town-wide data team
- The department takes part in professional development opportunities offering workshops, study groups and college level courses both in person and online.
- The Sage Department works in conjunction with Special Education and Bilingual Departments to streamline services for students.

Diane Modest, Gifted and Talented Department Head K-12

TITLE I

Title I is a federally funded program that provides financial resources to districts and schools with a higher percentage of students from low-income families. All four of our Title I schools, Barbieri, Brophy, McCarthy and Woodrow Wilson Elementary Schools, have "school-wide programs." This means that all students in the school are eligible to receive support through the Title I program.

In the Title I schools, we continue to provide interventionists who support the district goal of ensuring that all students make at least one year's growth in literacy and mathematics. This year, intervention groups as well as student learning goals were determined using student data at school-based, grade-level intervention meetings. These grade-level meetings, intervention which included interventionists, classroom teachers, and other support personnel, were held in the fall, reviewed in the winter, and will be revisited one more time in the spring at each school.

In addition to the interventionists, Title I also continues to provide math coaches. The math coaches work closely with classroom teachers to support the mathematics achievement of those students most at risk of not meeting the state's high academic standards. Finally, Title I is also continuing to support data teams during the 2011-2012 school year. Through this initiative, teachers work in collaborative groups to review student data and use it to guide instructional decisions. Combined with Title IIA funds, data teams are well-established in all schools.

The Title I program is pleased with the support it is able to provide to students, families, and the general school community.

Brett Berkman Director of Title I

SCHOOL HEALTH SERVICES

School Health Services (SHS) provide comprehensive nursing care to the students of Framingham Public Schools. Nurse staffing includes one full time nurse in each elementary and middle school, a part time nurse at Thayer Campus, two nurses at the high school, and two adolescent health nurses.

This year SHS again benefits from the Massachusetts Department of Public Health Essential School Health Services (ESHS) program. ESHS monies continue to

strengthen SHS infrastructure with personnel, professional development, and equipment, including technology.

The Edward M Kennedy Health Center satellite clinic at Framingham High School (FHS) has been in operation for two years. Since it opened in January 2010, 140 students have enrolled and are accessing clinic services during the school day.

During Fall 2011, Judy Styer, Director of School Health Services assisted with the development of the district's new concussion policy and protocol. The policy developed in collaboration with the high school school nurses, Athletic Director, Gary Doherty, Dr. Karen Sadler, school physician, and the district's athletic trainer, Patricia Pauris, is closely aligned with Massachusetts regulations, was approved by School Committee in February 2012 and is being implemented presently. Director Styer also contributed to the development of a new district policy related to service animals in schools and other health-related School Committee policy review and revisions.

SHS continues its long history of partnerships with institutions engaged in health care and research. Collaborations are ongoing with Sloan Kettering Memorial Cancer Center/Boston University and the SONIC study (a study investigating sun exposure, moles and melanoma in school-aged children), the New England Eye Institute in the operation of the Vision Center at Fuller Middle School (providing comprehensive vision care to all members of the FPS community), and Boston University Goldman School of Dental Medicine's dental sealant program.

The district's Teen Pregnancy and Parenting program is in its second year of a successful three year partnership with the United Way of Tri County. The program, "Strengthening Youth in a United Way" is staffed by two adolescent health nurses who provide support

and prevention services to pregnant teens, new teen mothers and fathers and other high risk students in the district. New to the program's work this year is the implementation of the "Teen Outreach Program" a national service learning program which is effective at increasing academic success and preventing teen pregnancy in high risk youth. This curriculum will be utilized in after-school programming at the high school.

SHS continues its commitment to providing preeminent nursing services to the FPS community. We look forward to another year of administering our program.

Judy Styer
Director of School Health Services

BUILDINGS AND GROUNDS DEPARTMENT

The Buildings and Grounds Department currently maintains sixteen school-owned buildings comprised of 1,655,076 square feet of building space and 265 acres of grounds, including athletic playing fields, paved driveways, walkways, parking lots and wooded areas.

The department employs sixty custodians, ten maintenance personnel, one secretary, one administrative assistant, one interim assistant director and one director. Department objectives are as follows: 1) adhere to safety and health standards; 2) provide cleaning and maintenance inside and outside of building structures; 3) ensure security of buildings; 4) plan for and monitor efficient use of utilities; provide year-round maintenance of grounds. Building maintenance and upgrades were planned for and accomplished through budget planning and capital project appropriation through Town Meeting approval.

It is important to note that a long-term twenty-five year capital facilities plan was developed this year. The plan was submitted to the School Committee, Superintendent, Assistant Superintendent, Board of Selectmen, Chief Financial Officer, Capital Budget Committee, Ways and Means, Town Manager, Assistant Town Manager and the Town Meeting Standing Education Committee.

In addition, the office of Buildings and Grounds implemented and supported the district's Recycling Program, School Green Energy School Conservation Teams. Committee, Capital Improvement Proposals, budget preparation and presentation, general maintenance and cleaning, security, fire and intrusion alarms at all school facilities, mechanical systems maintenance and upgrades, Asbestos Hazardous Emergency Response Act, Integrated Pest Management, Right-to-Know, Material Safety Data, and the Massachusetts Department of Environmental Protection Chemical Management Program.

In closing, I would like to express appreciation to all Buildings and Grounds personnel: custodians, maintenance and office staff for their performance, professionalism and dedication during this very hectic and challenging year.

Matthew Torti, Director of Buildings and Grounds Ernest Moreau, Interim Assistant Director

TRANSPORTATION DEPARTMENT

The Transportation Department provides a vital service for the Framingham Public Schools. Over five thousand public school students utilize bus transportation on a daily basis. The transportation office continues to work diligently to ensure our students with safe and efficient transport. Massachusetts General Law requires the School Departments to provide transportation to all children outside two miles of each respective district school in grades K - 6. To that end, Framingham provides school transportation to three hundred students in non-public schools in Framingham. Due to budget constraints, the School Department moved to a fee-based transportation program eight years

ago for those students in grades 7 - 12. Fees are waived for special circumstances such as children placed in Framingham foster care homes, homeless students, special education students and students on medical waivers. The district does have limited seats available for purchase for students who live within 2 miles for grades K-12.

In the 2011/2012 school year, the District's Transportation Department has successfully

made the Transition conversion from a Town operated system to a privately owned bus company system with Durham Transportation Services. The Transportation Department works closely with the Framingham Police Department's Safety Division, the Framingham Fire Department and the Department of Public Works.

Rick Gallagher Transportation Director

Joseph P. Keefe Regional Technical Vocational School

750 Winter Street, Framingham, MA | 508-416-2100 | info@jpkeefehs.org

This annual report is prepared by Superintendent /Director James Lynch and composed on behalf of the members of the School Committee of the South Middlesex Regional Vocational Technical School District and submitted after review and approval by the full Committee in compliance with the provisions of the Agreement among the towns of Ashland, Framingham, Holliston, Hopkinton and Natick.

As in recent past reports prepared by Committee member John Kahn, this report discusses from the perspective of the Committee the principal items with which the Committee was concerned during the year. It is a representative account of matters solely within the policy making authority of the Committee and also of matters which the Superintendent/Director brought before the Committee for information and consultation. For greater detail and discussion the reader should read the extended minutes of Committee meetings and the attachments thereto which are available at the school office.

The Committee acknowledges with great appreciation the service of its Recording Secretary, Elaine O'Toole, whose careful recording of the minutes of the Committee Meetings makes possible the preparation of this annual report.

The Committee also noted the retirement of a number of long- term employees: Margaret Cahill, Cosmetology Teacher; Patricia Murray Canali, Principal; Melanie Leonard, Reading Teacher; Deborah Walley, Special Education Teacher; Neal Mahoney, Electrical Teacher.

The Committee reorganized on June 6, 2011 with the following officers being elected unanimously to the following positions:

Chair: Tassos Filledes Vice-Chair: Linda Fobes Secretary: Ed Burman Treasurer: Jack Keating

Assistant Treasurer: Lawrence Cooper

It was noted that Mr. Nelson Goldin has been awarded the Massachusetts Association of School Committees Lifetime Achievement for his many years of service on the School Committee. Mr. Goldin is a representative from Framingham.

In July, the Committee welcomed a new member, Mr. Frank D'Urso, a member from the Town of Hopkinton who was appointed by their Board of Selectmen. Mr. D'Urso replaced Michelle Gates who resigned from the Committee in 2010. The Committee received, with regret, the resignation of Esther Hopkins, a Framingham Representative. The

Framingham Board of Selectmen and the members of the South Middlesex Regional Vocational Technical School District School Committee representing Framingham jointly voted to elect John Evans as the new member representing Framingham. This vote was in compliance with the District's Regional Agreement. Mr. Evans was welcomed onto the Committee at the August 29, 2011 meeting.

The balance of this report presents a summary of the discussion and actions of the Committee on a number of the important matters brought before the Committee for advice or action.

Community Engagement

Staff and students of the construction cluster career and technical programs of Carpentry, Electrical, Plumbing, Horticulture and Metal Fabrication and Welding participated in many community projects throughout the School District member towns. Examples of these activities include electrical work performed at the Town of Natick's Morse Library, design and carpentry work performed at the Framingham Public Library, student engagement and internships at the Access Framingham Public Cable Station, and Carpentry work constructing a new building at the Holliston Senior Center. Several construction and maintenance jobs were completed for the Town of Framingham Parks and Recreation Department as well as Natick's Parks and Recreation Department. The Horticulture Department participated with the Framingham Department of Public Works on an Arbor Day celebration and planting activities on Keefe Technical School's property. Keefe Technical School has partnered with the Framingham Board of Health to provide an annual flu clinic for citizens. In addition, the Keefe Community hosted the MetroWest Leadership Academy to a tour, a program presentation on Career and Technical Education and lunch. Keefe also hosted a legislative breakfast in March and partnered with 12 other towns in that event. School funding and local aid offered by the Commonwealth of Massachusetts was discussed with area legislators. Keefe hosted the annual Scholarship Breakfast of the MetroWest Chamber of Commerce as well as the Scholarship luncheon of the Framingham Rotary Organization. It should also be noted that all five District town high school's swimming teams practice and compete at the Keefe Technical School pool. The pool is also used by the Framingham and Natick Park and Recreation Department.

Administration

Effective on July 1, 2011, Jonathan Evans became the new Principal of Keefe Technical Jonathan replaced Patricia Canali who retired in June 2011. Jonathan was promoted from the position of Director of Student Services. Mr. Evans has been employed by the School District for 15 years, 8 as an administrator. The Superintendent restructured the administration on July 1, 2011 and changed the management model of a student services director in charge of guidance and special education to a Director of Guidance and Placement and to a Director of Special Education. In addition, Superintendent re-instated the position of Director of Technology that had been eliminated in 2010. All of these changes were accomplished within the parameters of the In addition, the Superintendent established the position of Director of Education Programs. This position is funded with enterprise funds and the director has responsibility for developing and managing continuing education, post graduate, post-GED training and testing, secondary, program development community supervision and collaboration with institutions of higher education and oversight of all District ELL programs.

The Superintendent's Evaluation Sub-Committee considered the process by which the Committee and the Superintendent established goals for the administration against which the Superintendent's

performance is evaluated periodically by the Committee. The Sub-Committee proposed that it be reorganized to achieve broader participation among the towns representatives and to maintain some continuity in its work. The on-going Sub-Committee members are John Kahn, William Gaine, Linda Fobes, A.J. Mulvey and Dr. Stephen Kane, Chair.

The School Committee adopted goals for the Superintendent's performance evaluation period from July 2011 through June 30, 2012. The goals adopted related to: developing District budgets that will meet the approval of the District Towns and managing them effectively; continuing to stabilize and to increase the student population; represent the interest of the School Committee in collective bargaining for a new teacher evaluation instrument in compliance with the RTTT grant and the new educator evaluation regulation; lead the staff toward the improvement of student performance and close the achievement gap in all assessed academic and CTE content areas; lead the staff to develop new career and technical curriculum components in existing programs and a new post-secondary offering; the Superintendent will lead the growth and development of adult education to satisfy training requirements for work force development.

The Committee completed its periodic evaluation of the Superintendent's accomplishments against established goals and desired personal qualities. The complete record of that evaluation is a public document that is available at the Keefe office.

The Committee approved a new contract with the Superintendent extending his employment through June 30, 2015. The text of the contract is a public document and may be seen at the Keefe office.

During the course of the year the Superintendent brought the administrative benefits policy before the Committee for adjustment and alignment with other employment contracts in the District.

School Improvement Plans

The Committee adopted The School Improvement Plan for the 2010 – 2011school year which embodies specific performance objectives as follows: (1) maintaining and providing a safe environment for individuals who use school facilities for education, athletics and community events; (2) developing, implementing and evaluating the effectiveness of programs in meeting their goals; (3) expanding community partnerships and communications with all constituents; and, (4) using data to assess existing programs to bring about productive initiatives to stabilize and increase enrollment.

The Committee reviewed the progress toward the goals of the 2010 -2011 School Improvement Plan. The report of Principal Canali noted tangible specific improvements in school safety, academic and CTE program growth, expanded participation in community initiatives and the continued improvements in the use of data.

Discipline

The Committee approved revisions to the Student Handbook that had previously been approved by the School Council. Major changes relate to: providing extra help for students who exceed the maximum of 12 unexcused absences; authorizing, upon due process, the principal to suspend a student upon issuance of a felony complaint or to expel a student upon conviction; and inclusion of state compliant provisions regarding bullying. The policy is available on the Keefe web site.

After detailed consideration of Keefe's comprehensive bullying policy, it was unanimously approved by the Committee.

Race to the Top Program

In 2009, the Superintendent met with the leaders of the Keefe Tech Education

Association and the Chairman of the South Middlesex Regional Vocational Technical School District School Committee to form an alliance and apply for participation in the Race to the Top Grant Program that was offered in Massachusetts. The South Middlesex Regional Vocational Technical School District qualified for this grant and will have access to approximately \$112,000.00 to be used over a four year period. This grant opportunity was designed to achieve five major objectives: improve educator effectiveness, improve curriculum and instruction, help to create identified school turnaround in performing schools, improve college and career readiness, and to provide educators with real time actionable data through improved data systems and infrastructure. The Superintendent expressed pride that at Keefe Regional Technical School labor (Teachers Association), management (Superintendent and Administration) and the employer (School Committee) will be working together to participate in this education improvement initiative. These funds and the anticipated DESE assistance will allow our school district to implement the stated improvements in a timely and effective manner. I anticipate that these changes will be required of all districts within three years.

Post Graduate Program

The Keefe post-graduate program serves current or recent (1 to 2 year) high school graduates from member towns. Enrollees have met their academic requirements for graduation and participate only to the extent of available positions in their chosen vocational program.

The Budget Process

The Budget Sub-Committee, members Stephen Kane, Yvonne Giargiari, Ruth Knowles, Larry Cooper and Linda Fobes under the Chair, Edward Burman presented a preliminary FY13 budget representing a 5.78% increase (approximately \$890,000) over the prior year's actual budget. The final FY12 budget reflected a 2.74% increase.

The Superintendent continued his practice of meeting informally early in the budget process with the financial officers of the member towns to develop mutual awareness of both municipal budget constraints and the efforts of the Committee to manage the school efficiently and effectively while recognizing those limitations. The Committee continued to consider reductions in the preliminary budget and the budget as submitted to the member towns and was approved by all (\$15,506,373).

Auditor's Report

The annual audit by the independent accounting firm of McCarthy & Hargrave disclosed no inaccuracies in the financial statements. The GASB 45 report was noted. The audit report also noted that the energy project had met its stipulated guarantee benchmarks.

Business Office

The business office staff of the South Middlesex Regional Vocational Technical School District has designed and implemented many improvements over the past two years. Human resource management, employee benefits programs, procurement practices, contract proposals, grant fund accounting, management, grant student cafeteria management, student nutrition, budget preparation and management, continuing education registration and inventory control are all components of the business office operations that have undergone significant changes and efficiencies. The most significant improvement to our operation has been the conversion to a new business management accounting software known as Budget Sense. This major conversion from an antiquated system positions the South Middlesex School District to take advantage of available technology changes as we proceed into the 21st century. In 2011-12, our business office staff will focus on fine tuning the Budget Sense conversion by providing professional development training as needed for our staff.

In addition, our business manager and human resource generalist will collaborate with the administrative staff to complete the task of updating all of our professional position job descriptions. The business office staff will also engage with the Superintendent to analyze and prepare for changes in health insurance offerings due to recent legislative actions.

State Aid

The Governor and Legislature again proposed reductions in state aid to transportation (-50%). These funds provide access to schools where transportation regional networks extend across community lines. member Moreover, cuts made after communities have approved balanced regional school budgets based upon reliable forecasts require significant reductions in educational programs. The Superintendent and the Committee Chair, with the support of the Committee, addressed their concerns to the Governor and State legislators and to the Association Massachusetts of School Committees.

Siemens' Energy Conservation Project

Siemens Industry provided the Middlesex Regional Vocational Technical School District with an energy savings guarantee report. This report details the guarantee period savings by comparing the guaranteed energy savings versus the actual The total verified energy energy savings. savings for year three of the performance contract is \$557,284. The total guaranteed savings were projected to be \$540,419. The difference between the total guaranteed savings versus the actual savings results in an additional savings of \$16,866.

Personnel Administration

The Committee continued to wrestle with the issue of maintaining an appropriate health insurance program in the face of rising costs. The Employee Health Insurance Advisory Committee (IAC) met and recommended that the District employees increase their co-pay

commitment and thereby realize a cost savings on premiums. This would be cost effective for subscribers and for the District. The Committee approved the recommendation.

Enrollment, Recruiting and Student Retention

The Keefe Regional Technical School is a school of application. Maintaining a healthy enrollment of students for our day school operation is essential for our financial support and overall operational success. enrollment has improved in the last two years and we are expecting further improvements this year. The superintendent has indicated that he believes that the quality and rigor of our school programs and the safety and culture of our school environment will dictate our success in attracting students and their families to Keefe Technical School. The Superintendent has emphasized that the administration, faculty and support staff must work together to ensure that Keefe is recognized by our community as a career and technical school of high quality. We have improved and will continue to improve our marketing techniques, our communication with our school district sending town middle and high schools, and with our connection to prospective students and their families.

It is the Superintendent's plan to expand our career and technical program offerings from a present level of 14 to our original level of 17 over the next 3 to 5 years. This proposed expansion will take careful planning and collaboration with our District School Committee. As a result of our re-organization of the delivery of education programs that occurred in the 2010-11 school year, our facility is positioned to absorb the planned growth. It is the Superintendent's intent that our new CTE offerings satisfy the work force needs of the greater Metro west area.

Buildings and Grounds

The Keefe Regional Technical School opened its doors in September of 1973. As we begin

our 38th year of operation, the superintendent reported that he is pleased to report that our facility is doing well. Thanks to a comprehensive energy upgrade that was completed in 2008, our facility is poised to move forward without the necessity for major structural improvements. Our maintenance and custodial staffs continue to take ownership for the quality of our building and grounds. We recently completed having a contractor perform improvements to our 100 foot smoke stack that will improve the structural integrity of the smoke stack and the functioning efficiency of our boilers. anticipate that future projects for our District facility will involve a new roof membrane, parking lot improvements, sealing our concrete building envelope, and athletic locker room renovations. The superintendent also anticipates investigating in the installation of photo voltaic solar panels on our roof after the installation of a new roof membrane is completed. To begin the process of capital improvements, the Committee authorized the Superintendent to file a Statement of Interest with the Massachusetts School Building Authority (MSBA).

Student Achievement

The District received from the DESE its annual accountability report detailing Keefe's Adequate Yearly Progress. Based upon the AYP criteria which includes: the level of student participation in the MCAS testing; meeting state performance targets; attainment of the District's own improvement target and achievement of attendance and graduation targets, Keefe students achieved Adequate Yearly Progress over all and in all identified subgroups in English Language Arts (ELA) and Mathematics. In September all parents or guardians of Keefe students received the Keefe Report Card notifying them of this accomplishment.

In summary, from 2007 to 2010 in ELA the number of students scoring at proficient or above increased by 19% while the number of students failing decreased by 8%. For math

the number at proficient or higher increased by 10% while the number failing decreased by 2%.

In October, the Committee was informed that according to the 5 level scaling systems created by the DESE under the Educational Reform Act of 2010; Keefe has been categorized as a level 1 school. Schools with an NCLB accountability status of "no status" or "improvement year 1 or 2" are categorized as a level 1 school. Districts are placed in Level 1 if the highest level of any school in the district is level 1.

In February Keefe hosted 600 student participants in the SkillsUSA District Competition at which our students received 7 gold medals, 10 silver and 3 bronze. As part of the teamwork's competition, a separate building construction competition was held in April at the Royal Trade Center in Marlborough.

A newly formed Drama Club in March presented as its first offering, the popular comedy "Ms. Nelson is Missing". The event was open to students during school hours and to parents and friends in the evening. The stage sets were constructed by the vocational shops and the crew and cast, under the leadership of Principal Patricia Canali, added a new dimension to the Keefe experience.

General Advisory Board

The General Advisory Board consists of the Chair of each Vocational Advisory Board. The General Board summarizes and brings to the attention of the administration and the School Committee observations and recommendations of the advisory boards. The points noted for the current year include: the need to continually align the curriculum with changes in technology; outreach to bring Keefe's program to potential students; increasing opportunities for students and employers in the co-op program; successful pursuit of grant funding for state-of- the-art vocational equipment; and maintaining the

license status of student professional programs that advance Keefe students vocational entry opportunities.

Director's Retirement

Having served the FPL in various capacities for 17 years, Director Jeanne Kelley announced her retirement in February, 2012. The Trustees commended her for the many contributions she has made to the Library, including improving customer service; maintaining staff morale and hiring new staff; and keeping the Library on an even keel during difficult times.

A search committee is interviewing applicants for the Director's position.

Helping to Build the New McAuliffe Library and Open the Door to Tomorrow

On July 14, 2011, the Massachusetts Board of Library Commissioners (MBLC) voted to place Framingham Public Library (McAuliffe Branch) #6 on a waiting list for a provisional library construction grant of \$4.2 million. With 12,000 patron visits per month, McAuliffe is the second busiest of the 106 branch libraries in Massachusetts, but among the smallest of the branch libraries. McAuliffe's circulation exceeds that of many main libraries and the facility is too small to adequately serve the needs of patrons.

The preliminary design is for a one-story building of about 17,000 square feet, adjacent to the Nobscot Plaza. The new McAuliffe Branch Library will provide a larger children's room, dedicated space for young adults, more public computers, outlets for laptops, a meeting room, study rooms, comfortable reading chairs, easy to reach shelves, an ADA compliant building, and will be a green LEED certified building.

The Library will request \$3.8 M from the Town when the grant funding is received, estimated to be around July 2013. The Framingham Public Library Foundation's goal is to raise \$600,000 towards this project.

Improving Accessibility

The entrances to the Main Library are not in compliance with state codes. In April 2011, Town Meeting allocated \$50,000 to prepare a preliminary design for new entrances. The Library Trustees engaged Abacus Architects and Planners of Allston to prepare the preliminary designs. The FY 2013 Capital Budget includes a line item for rebuilding the Lexington Street entrance. The Library will

include the Pearl Street entrance in a future capital budget.

We appreciate the efforts of Building Committee Chair Sam Klaidman and the Trustees, community members, and members of the Disability Commission who have worked on this project.

Reaching Out to the Community

We have had a productive and busy year responding to community needs and providing a multitude of varied educational and enriching programs. For job seekers, we provided monthly Job Searching Online workshops, weekly resume help and job discussion group meetings. In total, 6,429 people attended Adult Programs that were sponsored by the Library during the last calendar year.

Highlights of the year included a very successful Framingham Reads Together (FRT) program spearheaded by Trustee Elizabeth Fideler that featured Michael Shaara's "Killer Angels: A Novel of the Civil War". This community wide event offered a wide selection of programs related to the Civil War. Currently, a new FRT Committee is planning the next FRT event to be held in 2013.

Another highlight of the year was the Lifelong Learning Series collaboration between the Library and Framingham State University (FSU). Ten scholar-led presentations were held in the spring and fall at the Library and at the University. The Adventures in Lifelong Learning Program, another successful collaboration with FSU, presented classes for seniors held on Tuesdays in October. Support for this project was provided in part by the MetroWest Health Foundation.

FPL is one of the only libraries in the Commonwealth to offer Friday evening programming. The Monthly Friday Night Film Series, Sunday Concert Series and Summer Concert Series frequently attracted capacity crowds. Special events have included programs on varied subjects, as well as author visits and documentary films. We appreciate the support received from local businesses that helped defray the costs of programming as well as the support of the Framingham Cultural Council. Most of all, we greatly appreciate the efforts of Trustee Bob Dodd for his generous contribution of ideas and time that have made so many of these events possible and to the Friends of the Framingham Library whose efforts help fund the majority of programs.

The Library continued to do an outstanding job of meeting the needs of its patrons. In 2011, the Library ranked 6th highest in circulation out of 370 libraries in the Commonwealth. A total of 436,613 visits were made to the Library this year, an average of 8,396 visits per week. A typical week recorded 1,848 reference transactions and 1,992 uses of the Internet and electronic resources. Presently, there are 38,937 residents with active Framingham Public Library cards. The Library has been lending e-books and eaudio books through the Minuteman Library Network's Digital Media Catalog since October of 2009. In 2011, we saw our most significant increase in e-book circulation to date, with a 271% increase from 2010 to 2011.

The Framingham Public Library Foundation

The Framingham Public Library Foundation has been raising funds for the Main Library and for the new McAuliffe Branch Library. The Foundation has already received a number of donations, plus several substantial pledges from individual and corporate donors. See www.fplf.org for more information about the Foundation, a 501(c)(3) organization.

We thank Jo-Anne Thompson, chair of the Foundation, the Foundation Board, and other volunteers for their hard work on behalf of the Foundation.

Library Trustee News

In April 2011, incumbents Danielle Barney, Arthur Finstein, Sam Klaidman, and Jo-Anne Thompson were elected to serve as Trustees for three-year terms.

In May, 2010, the Trustees elected the following officers: Ruth Winett, Chair, Elizabeth Fideler, Vice Chair; Maria Barry, Secretary; Danielle Barney, Treasurer.

Following the resignation of Danielle Barney in January 2012, the Trustees met with the Board of Selectmen and elected Linda Broderick to serve until April 2013.

We appreciate Town Meeting's recognition of the importance of our libraries to citizens of all ages. We also appreciate the ongoing support of the Board of Selectmen, Acting Town Manager, Assistant Town Manager, Chief Financial Officer, Town Counsel and staff, the Capital Buildings Project Manager, and the other Town Departments. We also appreciate the support of the Finance Committee and the Standing Committees on Education, Capital Budgets, Real Property, and Ways and Means, and other committees.

Respectfully submitted, Ruth Winett, Chair, Library Trustees Bob Dodd, Library Trustee Jeanne Kelley, Director of Libraries

GENERAL COMMITTEES

CABLE ADVISORY COMMITTEE | CASTALL COMMITTEE | CULTURAL COUNCIL
CUSHING CHAPEL ADVISORY COMMITTEE | DISABLE COMMISSION | EDGELL GROVE CEMETERY TRUSTEES
FINANCE COMMITTEE | GOVERNMENT STUDY COMMITTEE | COMMISSION | HISTORIC DISTRICT COMMISSION |
HUMAN RELATIONS COMMISSION | REAL PROPERTY COMMITTEE | TECHNOLOGY ADVISORY COMMITTEE
STRUCTURAL DEFICIT REVIEW TASK FORCE

Cable Advisory Committee

The Cable Advisory Committee took the following actions:

- Met with Framingham Access on their service issues.
- Published our Google telephone number that residents can use to contact us if there are unresolved billings or repair issues on cable TV issues with the three providers. These providers are Verizon Communications, RCN, and Comcast.
- Implemented a Town Web page for the Cable Advisory Committee that explains how to reach us, lists the three cable providers' contact information and states our role.
- Notified the board of Selectmen and the Selectmen's office about capital payments due annually from Comcast.

The members of the Cable Advisory Committee were: W. Peter Barnes, Annabel Dodd (Chair), Sam Klaidman, James Schiavone, and Norma Shulman.

CAPITAL BUDGET COMMITTEE

The Capital Budget Committee (CBC) consists of six Town Meeting Members appointed by the Town Moderator, and one representative from the Finance Committee. The role of the CBC is to recommend to Town Meeting for approval all capital projects with a cost of at least \$25,000 and an expected useful life of five years.

This year at the Annual Town Meeting, the CBC recommended for approval General Fund projects amounting to \$9,053,583. The source of funding for virtually all of these General Fund projects was from bonding, with only \$100,000 from free cash. The requested included the following projects departments: Building Services/Capital Projects, Library, Parks & Recreation, Fire, Police, Public Works, Highway, Sanitation, Schools and Tech Services.

In addition the CBC recommended to Town Meeting Enterprise Funds projects totaling \$15,187,473. The projects were as follows: Water Enterprise Fund \$3,608,129 and Sewer Enterprise Fund \$11,579,344. The sources of funding were mostly from bonding. A substantial portion of the bonding projects will be at interest rates of 2% or less. In addition, the Town is hopeful that some stimulus funding will be received from the Federal Government.

It was a very challenging year for the CBC. The Committee made some very difficult decisions due to limited Town funds and a never ending list of capital projects requested by the various Town departments/divisions. The Committee plays a very critical role in the long-term future of the Town's infrastructure. We will continue to work closely with the Chief Financial Officer in order to make recommendations of projects that benefit our Town, while maintaining fiscal responsibility.

Bill McCarthy thanks all members (Jeanne Bullock, Matt Calder, Kevin Crotty, Ed Kross, Dick Weader and Nancy Wilson & Larry Marsh) for their time and efforts during the year. It is a privilege to serve with such dedicated members.

Respectfully submitted, Bill McCarthy, Chairman

Cultural Council

This year without notice, the town's mailroom was moved to FCC's office, then removed, along with our loaned computer, other property was broken or just missing. Through all challenges, we have been able to grow our membership and complete our work.

The Massachusetts Cultural Council gave us \$14,310. FCC added \$2757 for a total of \$17,067.00 granted to 21 of 43 applicants.

During our Annual Award Reception, "Arts Contributor of the Year Award" went to Robert Merusi for his work on the Bowditch Field Athletic and Cultural Complex. Special Awards went to Mary Kiely and Jim Egan.

Joel Winett began the development of an annual appeal to local businesses to add money to our dwindling budget. Through his efforts, BOSE Corp. contributed \$1000.

Thank you Framingham!

Our website: massculture.org/Framingham
Respectfully submitted,
Co-Chairs: Cindy Camuso,
P. Nandi Varris

Cushing Chapel Advisory Committee

The Cushing Chapel Advisory Committee consists of eleven members appointed by the Board of Selectmen. The Cushing Chapel Advisory Committee is in the review stage for new and current applicants via the Board of Selectman.

Some of the projects undertaken this past year have included the re-glazing of all windows in the Chapel. This will give a longer life span to all windows within the Chapel. Many windows had sustained damage over the years, and as a result were replaced to improve the look of the Chapel.

A major project that was completed within the Chapel during 2011 was the repainting of all trim work within the Chapel. This has improved the aesthetics of the Chapel and has received many compliments from Town employees as well as the public.

The Chapel would like to thank the Framingham Building Services department for their continued work on the Chapel. Without their aide the improvements that were completed over the last year would not have been possible.

We would also like to thank and acknowledge the Framingham Garden Club whose members keep the outside grounds lovely with displays of flowers and shrubs year after year adding to the serene beauty of the Chapel area.

In closing, the support of the community, town officials and town departments is appreciated and acknowledged by the committee.

Respectfully Submitted, Stanton T. Fitts

Disability Commission

Members: Karen Foran Dempsey (Chair), Elise Marcil (Vice Chair/ Clerk) Rose Quinn (Treasurer), Kathie McCarthy, Deb Freed, Dennis Moran, Jennifer Davis, Jim Egan, Susie Santone.

This past July 26th marked the 21st Anniversary of the passage of the Americans with Disabilities Act (ADA), a Federal Civil Rights Law.

The Commission continues to ensure that the Town is implementing changes outlined in the 2005 ADA Self-Evaluation and Transition Plan for municipal buildings. We continue to work with Town departments to bring Framingham into compliance with MA Architectural Access Board and Federal ADA regulations.

Some access improvements that have been completed to municipal buildings include:

- Village Hall: an accessible walkway and an automatic door opener.
- Nevins Hall stage: an accessible lift.
- Town Hall: a new accessible ramp and automatic door opener on the Union Street side entrance.

The Bowditch Field Athletic Complex received a 2011 Access Design Award from the MA Architectural Access Board and the Boston Society of Architects for incorporating accessiblity for people with Disabilities into their design.

Fall Town Meeting approved funds for a study to bring the Main Library's two ramps into compliance. Three Commissioners were asked to serve on the Library's Building Committee to assist with the access design of the project.

The Commission had many guest presenters at our meetings who shared

valuable information with us:

- Alexis Silver, Caregiver Homes of MA
- Eva Willens, MetroWest Regional Transit Authority
- Robert Merusi, Director of Parks & Rec
- Matthew Torti, Director of Buildings and Grounds of Framingham Schools
- Jeanne Kelley, Director of the Framingham Public Library.

The Commission expended funds from the HP Fines Account for three worthy programs:

- \$5,625 for the Piers Park Adaptive Sailing program, which taught 15 Framingham children with Disabilities how to sail.
- \$6,000 toward the Juniper Hill School accessible playground project. The money will specifically pay for a portion of the wheelchair-accessible rubberized surface.
- \$7,000 toward the new accessible family restroom at the Main Library.

We wish to thank the Board of Selectmen, the town departments and Town Meeting for their continued support of our important programs and activities. We especially want to thank David Williams, Asst. Town Manager/ADA Coordinator and Douglas Goddard, Capital Building Projects Manager who have helped to bring positive changes to the Town and have assisted the Disability Commission with our mission.

We look forward to working closely with the Town to ensure that Framingham is in compliance with all State and Federal Disability Access laws. Respectfully Submitted, Karen Foran Dempsey, Chair

Edgell Grove Cemetery

During the fiscal year 2011, there were 50 Burials, 48 Cremations and 102 grave sales. A major rehabilitation of the 127-year old chapel was completed with new plastering and paneling. Much restorative work was also done on the mausoleum. Roads throughout the cemetery were repacked and extensively re-graded. Tree maintenance and continued restoration on old headstones was completed.

Respectfully Submitted, Stan Fitts, Chairman Bill Welch, Treasurer

Finance Committee

The Finance Committee is comprised of nine members appointed by the Town Moderator for a term of three years. The Finance Committee recommends action to Town Meeting regarding the budget and other areas of finance. Other key responsibilities include authorizing disbursements from the Reserve Fund for emergency expenses, authorizing deficit spending for emergency winter-related expenses, approving the expenditure ceiling for revolving funds and monitoring the Town's annual audit.

The workload for the Finance Committee requires a commitment of significant time from the volunteers who serve on it. In 2011, the Committee met 34 times, and participated in the Annual Town Meeting and four Special Town Meetings.

Members often have significant responsibilities beyond regular Finance Committee meetings. The Committee provides representatives to the Real Property and Capital Budget committees under Town bylaws. In 2011, the Finance Committee representative to the Structural Deficit Review Task Force also chaired the Task Force. The Committee

routinely appoints liaisons to Keefe Tech and the School Department to monitor their independent budget development processes. Further, the Committee's threemember Audit Subcommittee meets with the Town's outside audit firm and the Chief Financial Officer's staff to resolve audit findings.

This year was characterized by significant fiscal challenges. Revenue growth was disrupted due to ongoing unpredictability in state and federal government revenue sources, and continuing decline in local receipts, and new growth in property taxes. Significant concessions were made on health care for employees, and for some collective bargaining units. However, large expenses such as special education out-of-district tuition, and certain collective bargaining agreements continue to escalate faster than revenue.

In position papers, letters to Town Meeting. and communications with municipal and school officials. the Finance Committee continued emphasize the need for the Town to break the cycle of living beyond its means and to plan for long-term financial stability. The Committee recommended that the Town:

- Ensure that salaries and benefits do not grow faster than projected revenue;
- Minimize dependence on nonrecurring revenue sources (such as grants, revolving funds, withdraws or diversions from the stabilization fund, free cash, and stimulus money) to support recurring expenses;
- Understand and begin to address unfunded liabilities for postemployment benefits such as health care;

- Continue to build the stabilization fund close the gap with the Town's policy goal;
- Maximize operational efficiencies wherever possible, including consolidations, technology, and evaluating service delivery such school choice and custodial services; and
- Review all building use and potential building needs across the Town, including the schools, and develop plans for cost efficient use and capital planning.

The Finance Committee emphasized the need to address shrinking revenue growth and keeping property taxes affordable by addressing the critical need for encouraging growth in new construction and in economic development. Many recommendations were integrated in some form into the Structural Deficit Reduction Task Force's final report.

The Finance Committee's budget recommendations targeted immediate fiscal realities. In FY 2012, the School Department budget difficulties continued as more federal stimulus money disappeared, and salary increases negotiated collective bargaining agreements presented challenges, even with significant concessions.

The following Reserve Fund appropriations were made in FY 2011: \$50,000 for the Fire Department and \$350,000 for Snow and Ice Removal. A Reserve Fund appropriation of \$90,000 was made to the Health Department in FY 2012. Per provisions of MGL, the Finance Committee authorized deficit spending for Snow and Ice in FY 2011.

Members of the Finance Committee as of December 31, 2011: Elizabeth Funk

(2013), Chair, Daniel Lampl, Vice Chair (2014); Linda Dunbrack, Clerk (2012); Leonard Finkel (2013); Steven Hakar (2012); Laurence W. Marsh (2014); Carol Sanchez (2013), Nancy Wilson (2012) and John Zucchi, (2014).

The Finance Committee thanks Nicolas Sanchez (2012) for his 2-years of service. We also express our appreciation to CFO Mary Ellen Kelley and Assistant CFO Jennifer Pratt for their ongoing expertise and support.

Respectfully Submitted, Betty Funk, Chair

Government Study Committee

The Government Study Committee had an excellent year. We met ten times with active participation and lively, productive discussion.

Our major effort this year was focused on updating the Personnel Bylaw. This bylaw has been out of date since the implementation of the Town Manager Act in 1996. In 2010, Town Meeting rejected our proposal to eliminate the Personnel Bylaw section of the General Bylaws. A proposed update, prepared for fall town meeting this year by a joint subcommittee of GSC and SCW&M members, was not acceptable to town counsel so we continue to work on the revisions. We hope to present a revised proposal to town meeting for consideration in 2012.

The committee submitted a warrant article to complete bylaw changes related to the elimination of the Board of Public Works. This was approved by Town Meeting.

Discussions were held with the Disability Commission and the Board of Health regarding their possible inclusion under the auspices of Town Meeting standing

committees. Neither group felt that it was appropriate to do so therefore no further action was taken.

Working with the ZBA, a warrant article was submitted and approved to allow cell phone antennae installations on the site of the Framingham transfer station. It was felt that this would preclude installation on less desirable sites and have the potential to provide revenue to the town. This was approved by Town Meeting. The GSC continues to work on a proposal to limit excessive public safety calls; administrative corrections to the General Bylaws; and Town Meeting attendance standards. For further details please read our meeting minutes. All 2011 minutes are accessible on the town web site.

Historical Commission

In 2011, as in years past, The Framingham Historical Commission worked on review of applications for building demolition. Most properties that we reviewed were released quickly as being non-significant. When buildings slated for demolition were determined to be architecturally or historically significant, the FHC worked with the applicants to see if there were acceptable alternatives to total of partial demolition.

This past year was a slower year in terms of building and demolition applications and the FHC used much of its time finalizing a review of Framingham's existing Demolition Delay Bylaw. We hope to bring a warrant article to the Fall Town Meeting in 2012 that will afford those buildings we deem to be significant added protection against demolition and a loss of Framingham's rich historic and cultural past.

We look forward to the challenges ahead in advocating for the Town's rich heritage. Respectfully submitted,
David Marks, Chair
Frederick Wallace, Vice Chair
Clint Knight, Secretary
Perry Bent
Gerald Couto
Paul Silva
Jane Whiting

Historic District Commission

The Framingham HDC held 12 meetings during 2011 held a number of public hearings and issued 5 Certificates of Appropriateness and 2 revised Certificates of Appropriateness. We saw the departure of long time Member and former Chair, Christopher Walsh, A.I.A., welcomed new members Doug Becker and, following an absence of many years, former member Sandra Marder

In June the Board of Selectmen reappointed members Gerald Couto, A.I.A., Ted Grenham, Henry Field and Helen Lemoine. The Commission then reorganized and elected Gerald Couto, A.I.A, Chair, Susan Bernstein, Vice-Chair and Ron Lamphere, Clerk.

Chairman Couto and member Julie Ferrari joined the Town Common Working Group in September. Ms. Ferrari, a Registered Landscape Architect, worked extensively with Mr. Daniel Nau, Tree Warden, to redesign the area and select appropriate trees for planting.

The Commission, at the request of the Town Clerk's Office, increased the filing fee for a Certificate of Appropriateness from \$25 to \$50. This is the first increase in this fee since the creation of the Commission over 30 years ago.

Working with the Board of Selectmen, the Commission established that the stage for

the Concerts on the Common was a temporary structure and was required to be removed each year at the conclusion of the concert series.

The Commission also worked on the the clarification and revision of Commission Rules. discussed the possibilities of new Historic Districts in the Belknap Road area and in the village of Saxonville, clarified the voting status of Alternate Members following consultation with, and advice from, Town Counsel's Office discussed the possibility of creating a web site for the Commission and the erection of signs marking the existing Historic Districts. The Commission looks forward to completing these unfinished projects during the coming year.

Submitted for the Commission by Gerald Couto, A.I.A., Chairman

Susan Bernstein, Vice-Chairman Ron Lamphere, Clerk Doug Becker Julie Ferrari Jim Kubat, A.I.A. Sandi Marder Helen Lemoine Ted Grenham Henry Field

Human Relations Commission

In keeping with our purpose to deal with issues which may create disunity within the Framingham community, the Commission met monthly to address various situations which arose during the past year. Included in these topics, but not limited to, were the concerns raised in the presentation of "The Laramie Project" at the High School, and then the possible ramifications for the community at the death of Bin Laden. Likewise we have continued to review the controversy

surrounding teacher evaluations and concerns raised by "The American Federation of Teachers", "Citizens for Public Schools", and other groups, as they impact our community schools. We sponsored a lecture presented by Dr. Kayed Khalil on the topic "The Palestinian Issue and the Peace Process." Beginning last year, and into the current year, we are reviewing the issue of human trafficking and its ramifications.

As well as being members of the Commission, Commissioners are involved in such activities as Partakers Program at MCI Framingham, Amnesty International, Mass Association of the Blind, NAACP, and The Alliance for MetroWest Unity. We meet the second Thursday of the month at 7:00pm in the Town Hall. Respectfully Submitted, Bob Anspach, Chair

The Real Property Committee

The Real Property Committee is charged with making recommendations to Town Meeting on all matters concerning the purchase, sale, or lease of town owned property. The committee met twice in 2011. In January we met to consider the purchase of land on Water Street for a new branch library. The committee recommended favorably on the Town Meeting warrant article authorizing the purchase. In April we met and considered articles pertaining to the lease of the Mount Wayte Incinerator Building for wireless antennas, the granting of construction easements to Framingham State University, and the town acquisition of the historic houses adjacent to the Park and Ride facility on Route 9. The committee acted favorably in each case.

Respectfully Submitted, Ned Price, Chairman

Technology Advisory Committee

2011 continued to be a challenging year for the Technology Advisory Committee (TAC). The TAC has an immediate and long-standing concern that the Town's Technology Director Position has been vacant for several years now. In our personal and business lives we all know that technology, well applied, can increase efficiency and decrease costs.

Framingham is saving money in salary by leaving this position vacant, but we fear that continued delay in filling this role will ultimately end up costing the Town more money. We would note that we respect and admire the work of the acting Assistant Director of Technology, Carly Melo Premo, and appreciate Carly continuing to maintain a partnership with the TAC. However, filling the Town's Technology Director Position needs to be a priority in early 2011.

In contrast, the School Superintendent's decision to hire Adam Seldow as Technology Director in 2008 has yielded solid benefits for the schools. Adam Seldow and his team have implemented server optimization, upgraded core and wireless networking, and replaced aging phone systems, to name a few. The TAC has been pleased to build a partnership with Adam, consulting and advising as needed on various technology decisions. We were sad to see Adam Seldow leave the district for another position; however, we were pleased that the Superintendent sought a replacement very quickly. In keeping with its charter, the TAC

In keeping with its charter, the TAC reviewed the Capital Budget in 2011 and advised on Capital Technology purchases and initiatives. The TAC also worked closely with the subcommittee on electronic voting to understand the benefits and misconceptions of electronic

voting to help facilitate the purchase of a electronic voting system as approved by town meeting.

You can also now find us on the Town's web site at: www.framinghamma.gov/index.aspix?nid =1031

Respectfully submitted, Adam Levensohn, Chair, Technology Advisory Committee

Structural Deficit Review Task Force

The membership and function of the Structural Deficit Review Task Force (Task Force) are defined by the FY 11 Operating Budget, Town Warrant Article 27, voted at the FY 2010 Annual Town Meeting. The Task Force includes one member of the Finance Committee, School Committee, and Board of Selectmen, plus the Town Manager, Superintendent of Schools, Chief Financial Officer, and School Director of Finance (Elizabeth Funk, Chair; Adam Blumer, Dennis Giombetti, Julian Suso, Steven Hiersche, Mary Ellen Kelley and Edward Gotgart, respectively).

The objectives of the Task Force were to study and report on the structural deficit within the Operating Budget and to incorporate recommendations in the FY 12 budget. The Task Force presented its 4-page report complete with these recommendations at the 2011 Town Meeting (see Website).

- Use Standard Definitions of Key Financial Terms,
- Identify Recurring/ Nonrecurring Revenues and Expenses,
- Continue Legislative Advocacy,
- Achieve Long Term Health Care and Salary Cost Savings,

- Consider Further Consolidations and Collaborations Between the Town and the School,
- Upgrade and Consolidate Financial Data,
- Build Budget Capacity with Three-Five Year Projections, and
- Increase Growth in Revenue and Reduce Dependency on the Property Tax.

Respectfully Submitted, Betty Funk, Chair

Town of Framingham 2010 Annual Report

Town Harting

Town Moderator | Standing Committee on Education Standing Committee on Planning & Danie Standing Committee on Public Safety Standing Committee on Public Work Standing Committee on Rules | Standing Committee on Ways & Means | Town Meeting Journal

Town Moderator

Framingham's Annual Town Meeting began on April 26 and met 14 times to consider a warrant composed of 36 articles which consisted of administrative, fiscal, policy and zoning articles. The operating budget for fiscal 2012 saw the most discussion as Town Meeting approved an appropriation of \$208,646,303 for the fiscal year beginning July 1, 2011. The Capital Budget was also extensively discussed.

Town Meeting also met on four occasions for Special Town Meetings. On January 12, Town Meeting met once and discussed four articles. A Special Town Meeting was also convened during the annual meeting on May 5 which met for two nights to consider six articles. The third Special Town Meeting was convened on June 21 and met one night to consider 4 articles. The fourth Special Town Meeting met on October 18 for three nights to consider 16 articles. Overall, Town Meeting met 21 nights in 2011 to consider a total of 66 articles in fulfillment of its function as the legislative part of town government.

At every meeting, Town Meeting members listened carefully, thoughtfully discussed, debated and voted each of the articles presented for their consideration.

Town Meeting members this year totaled 212 out of a total of 216 authorized seats (12 seats for each of 18 precincts). Sixteen precincts had full membership while openings occurred in precincts 3 (1), 10 (1), 16 (1), 18 (1).

Town Meetings are the result of the efforts or many different people. A special

thank you is owed to the Town Clerk and her staff. Thanks also go the Board of Selectmen, the Town Manager and his staff, the Chief Financial Officer and her staff, the Building Services Manager and his staff; Town Counsel and Media Services. Town Meeting could not happen without their help and assistance.

Also, many hours are spent by the seven Town Meeting Standing Committees (Community Services, Education, Planning and Zoning, Public Safety, Public Works, Rules and Ways and Means) and the Moderator appointed committees (Capital Budget, Finance, Government Study, Real Property and the Technology Advisory) discussing and developing articles to be presented to the Board of Selectmen for the warrants as well as discussing warrant articles and their recommendations to Town Meeting. Each of these committee members are to be highly complimented for their time and dedication to Framingham's town government.

Finally, a debt of gratitude is owed to each Town Meeting member for sharing their time and talent by volunteering to be elected Town Meeting members. Their dedication makes Framingham's government function and is very much appreciated.

Respectfully submitted, Edward J. Noonan, Moderator

Standing Committee on Community Services

This Committee is responsible for overseeing the Edgell Grove Cemetery,

the CDBG, Fair Housing, Council on Aging, Human Relations, Veteran's Services, Parks, Recreation, and Cultural Departments or Committees. The Committee Chair is John Dwyer of Precinct 1, the Vice Chair is Tom Driscoll of Precinct 15, and the Clerk position is currently vacant.

After recent years of activity which included projects like the new Bowditch Field, the Callahan Center, and the continual development of Cushing Park, the SCCS did not meet during the 2011 year. The meeting called for April 21, 2011 to address the Annual Town Meeting Articles 1 and 2 concerning the CDBG programs did not take place due to a lack of quorum. No other Articles were assigned to the SCCS by the BOS during 2011.

It is hoped that 2012 will be a more active year for the SCCS and that it continues to serve the Framingham Town Meeting as it has in the past.

Respectfully submitted, John R. Dwyer Town Meeting Member Precinct 1 SCCS Chairman

Standing Committee on Education

The Standing Committee on Education concerns itself with the activities, budgets and related warrant articles pertaining to Framingham Public Schools, Joseph P. Keefe Technical School and the Framingham Public Library system and meets regularly with representatives of each entity. The Committee met 18 times in 2011.

The Committee reviewed the proposal to privatize the school bus contract, offered reports to Town Meeting on the FY2012 Public School annual and supplemental budget, the FY 2012 Keefe Tech budget and the FY 2012 Library budget, as well as the warrant articles requesting design and land purchase to replace the McAuliffe branch library. The Committee was also awarded a seat on the Superintendent Search Committee.

Respectfully submitted, Melanie Goddard, Chair

Standing Committee on Planning & Zoning

In accordance with the Town's By-Laws, the Standing Committee on Planning and Zoning [SCPZ] is responsible for reporting to the Town Meeting on the activities of the Planning and Economic Development Division [now called the Community and Economic Development Division, the Zoning Board of Appeals, the Planning Board, the Conservation Commission, the Historical Commission, the Metrowest Grown Management Commission, the Economic Development and Industrial Corporation, and Historical District Commission. Τn addition, the SCPZ is responsible for reporting to Town Meeting on any warrant articles sponsored by or relating to the activities of these entities.

Except for July and August, the SCPZ meets regularly on the first Wednesday of the month. Additional meetings are held as needed. At the 2011 Annual Town Meeting, 16 of the Town's 18 precincts appointed members to sit on the SCPZ. Since the 2011 Annual Town Meeting, the average attendance at SCPZ meetings has been 9.4 members.

A partial list of the topics discussed at SCPZ meetings since the 2011 Annual Town Meeting include: additional zoning regulations concerning chicken coops and

professional dog kennels in residential zones, Framingham's Downtown Renaissance Initiative, two family houses in the General Residence Zone, Framingham accepting the Community Preservation Act, and enforcement of Zoning Board of Appeals decisions. Additionally, the SCPZ reported to the 2011 Fall Town Meeting concerning two zoning articles.

Respectfully Submitted, Ned Price, Chair

Standing Committee on Public Safety

In 2011, the Standing Committee saw a change in the chairman and we also had a large amount of turnover within our membership. We continued our role to analyze, vote on and make recommendations to Town Meeting on articles relating to the Police, Fire and Inspectional Services Departments.

The committee met on April 4th with Police Chief Steven Carl and Deputy Chief Ken Ferguson. Chief Carl discussed in great detail about the Secure Communities program and how it will be implemented by 2013, as mandated by Federal law. We heard of the continued constraints of their budget, the concerns of staffing and not having the amount of patrol cars they feel that are needed in patrolling the streets of Framingham.

We also met on April 4th with Fire Chief Gary Daugherty and Deputy Chief John Magri to discuss their Town Meeting requests. The new ladder truck, multi-gas meters and the defibrillators were approved. A request for the replacement of Engine 1 was deferred and will be brought back at the next Town Meeting.

The committee met with Mike Foley, the Director of Building and Inspectional Services, on April 21st. He explained how his budget has been reduced and how he needs to do more with less. The code enforcement division has been cut back as well as the sign officer position, which has been cut by 50%. This drastic cut to an essential position will surely lead to a significant challenge for the Inspectional Services Department as the Sign By-law requires all signs within the Town to be in compliance by December 1, 2012.

Respectfully Submitted, Janet Leombruno, Chairwoman

Standing Committee on Public Works

The SCPW focused heavily on research during 2012, with updates being prepared on issues defined to Town Meeting last October.

At press time, the SCPW is organizing the large amount of loosely collated material requested last November and received in February from the Dept. of Public Works (DPW). Included are all records concerning out-of-town connections to the town's sewer system, where located, dates of agreements, who authorized them, and how they will impact on our system.

This data is vital since it took protracted litigation against Ashland to obtain adequate payment for use of the town's sewer system. Moreover, the SCPW is concerned that the town doesn't fail again to conduct adequate collections with these customers as it previously did with those in Natick. The SCPW is evaluating information that indicates there are still connections to Natick customers that have not been severed and the town is still not being paid for this service.

Meanwhile, there are public health issues, airborne and ground pollution from the grinding of asphalt, etc. in the area adjacent to the Birch Road Wells, which could further contaminate the town's future water supply. These serious concerns are supported by extensive medical research and the recent "Cease and Desist" order by the town in this matter.

Other issues being researched will be reported to Town Meeting as data is obtained and confirmed.

Respectfully Submitted, Laurence M. Schmeidler, Chair

Standing Committee on Rules

The Rules Committee meets regularly to discuss ways of improving the workings of Town Meeting (TM). We want TM members to make informed decisions on motions and have the actions taken recorded in the Town Meeting Journal.

We request reports at the Annual and Special Town Meetings based on motions and resolutions made at Town Meetings during the previous year and on general laws. We understand that a question on a report must be made during discussion of the department's budget. We would like to have overhead presentations made at Town Meeting be clear and visible.

The Rules Committee updated the Town Meeting Member's Handbook for the 2011 Annual Town Meeting so that it continues to be a useful working document.

The Rules Committee sponsored an article at the Fall Town Meeting to rent an electronic voting system for two years together with support for a Voting

Administrator. The system will include keypads that have an LED display and uses enhanced security techniques. This proposal was approved and will be available for the 2012 Annual Town Meeting.

The Rules Committee sponsored a warrant article to change the bylaw on Standing Committees to require that members of a committee acknowledge when they are also a member of another committee that would appear to be a conflict of interest. The bylaw was approved.

Respectively Submitted, Joel Winett, Chair

Standing Committee on Ways and Means

As defined in the Town by-laws, the Standing Committee on Ways and Means (SCW&M) is responsible for making recommendations to town meeting (TM) on warrant articles sponsored by and/or related to the Finance Committee, the Information Services, Finance, and Human Resources Divisions, and the Board of Selectmen (BOS), the Town Clerk, Town Elections, the Legal Department, the Retirement Board and the Capital Budget and Government Study Committees.

The SCW&M held 23 meetings in 2011 to work on the budget and warrant articles for Special Town Meetings (STM) and the Annual Town Meeting (ATM) and met with article sponsors and those with data, expertise and perspective pertinent to a thorough due diligence process.

In collaboration with the Government Study Committee (GSC) and with town counsel's aid, the committee continued work on article 5 of the fall 2010 STM

which preserved the Personnel Board. An article will be in the 2012 ATM warrant proposing bylaw revisions which will facilitate reports from the personnel board to town meeting on proposed changes to compensation and classification plans.

After extensive analyses of both the proposed compensation plan (ATM article 17) and the consideration of acquiring a conservation restriction on Eastleigh Farms, the SCW&M recommended town meeting refer them both back to the sponsor. Town meeting concurred. In both cases the information available during analysis was inadequate and left too many questions unanswered. Seeing same deficiency overall, Moderator urged those involved with articles to improve the quality and availability of information required by the committees to do their work.

In October the CFO discovered a \$1.5M operating budget error and a \$1M error in water and sewer capital stemming from debt conversion. We participated in a BOS meeting during which the CFO outlined how the error occurred and suggested appropriations to close the gaps. At the STM, the committee recommended and town meeting voted to adopt the CFO's recommendation.

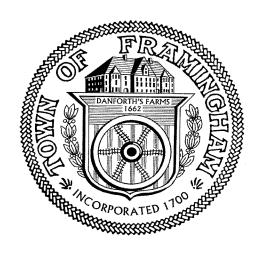

In an ongoing effort to pursue cost cutting opportunities which preserve services, this committee recommended favorable action to grant the school dept. permission to enter a five year school bussing contract which TM approved.

The SCW&M supported the Capital Budget Committee's recommendations. In addition, a capital request for \$488K for Memorial Building projects did not get the committee's or town meeting's support. The request was void of a strategic plan for the life and use of the building.

Special thanks to these 2011 SCW&M members: Teri Banerjee (Vice-Chair) (Pct.1), David Longden, Jr. (Pct. 2), Scott Estes (Pct.4), Eric Glazer (Pct.6) Joel Winett (Pct.7), Dorothy Collier (Pct. 8), Ghafoor Sheikh (Pct.9), Lloyd Kaye (Pct.10), Peter Pleshaw (Clerk) (Pct.11), Mark McClennan (Pct.12), Michael Zimmer (Pct.13) Jim Rizzoli (Pct.14), Ida Williams (Pct.15) Laura Rodriguez (Pct. 17), Rosemary Jebari (Pct.18).

Audrey M. Hall, Chairman Town Meeting Member, Precinct 3

JANUARY 12, 2011 SPECIAL TOWN MEETING

ARTICLE 1

To see if the Town will vote to transfer a sum or sums of money from the handicapped parking fines receipt reserved for appropriation fund, for expenditure by the Disability Commission on projects for the benefit of persons with disabilities.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

January 13, 2011 Voted: That the Town transfer the sum of \$10,587.00 from the handicapped parking fines receipt reserved for appropriation fund, for expenditure by the Disability Commission on projects for the benefit of persons with disabilities.

ARTICLE 2

To see if the Town will vote to appropriate, borrow or transfer from available funds, a sum of money to be expended under the direction of the School Building Committee for the Stapleton Elementary School Window and Door Replacement Project, located at 25 Elm St., Framingham, Massachusetts, which school facility shall have an anticipated useful life as an educational facility for the instruction of school children of at least 50 years, and for which the Town may be eligible for a school construction grant from the Massachusetts School Building Authority ("MSBA"). The MSBA's grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any project costs the Town incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the Town. Any grant that the Town of Framingham may receive from the MSBA for the Project shall not exceed the lesser of (1) 57.69 percent (57.69%) of eligible, approved project costs, as determined by the MSBA, or (2) the total maximum grant amount determined by the MSBA.

Pass any vote or any action relative thereto.

Sponsor: School Committee

January 13, 2011 Voted: That the Town of Framingham appropriate the sum of one million, twenty thousand dollars (\$1,020,000.00) for the Stapleton Elementary School Replacement of Windows and Doors, which proposed repair project would materially extend the useful life of the school and preserve an asset that otherwise is capable of supporting the required educational program, said sum to be expended under the direction of the School Committee, and to meet said appropriation the Town of Framingham, is authorized to borrow said sum under M.G.L. Chapter 44, or any other enabling authority; that the Town of Framingham acknowledges that the Massachusetts School Building Authority's ("MSBA") grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any project costs the Town of Framingham incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the Town of Framingham; provided further that any grant that the Town of Framingham may receive from the MSBA for the Project shall not exceed the lesser of the total maximum grant amount determined by the MSBA; and that the amount of borrowing

authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the Town of Framingham and the MSBA. This appropriation is made contingent upon receipt of a state grant or grants amounting to at least 55% of the project cost.

93 voting in favor, 11 opposed, 5 abstentions.

ARTICLE 3

To see if the Town will vote to approve the preliminary design for the new McAuliffe Branch Library building, as shown in the architectural schematics included in the background materials;

Pass any vote or take any action relative thereto.

Sponsor: Library Trustees

January 13, 2011 Voted: That the Town approve the preliminary design for a new 17,000 square foot one-story McAuliffe Branch Library building, as shown in the architectural schematics presented at Town Meeting.

ARTICLE 4

To see if the Town will vote to authorize the Board of Selectmen to acquire by purchase, gift, eminent domain or otherwise and to accept a deed to the Town of a fee simple interest in all or a portion of the parcel described below and any appurtenant rights of way, easements, or other interests in land, now owned by A.J. Rousseau Nobscot Trust, upon such terms and conditions as the Board of Selectmen shall determine to be appropriate, the land to be used as the site of the new McAuliffe Branch Library, to be under the management and control of the Board of Selectmen, said parcel of land being described as follows:

The parcel of land located at Water Street, Framingham, Middlesex County, MA, shown as #732,736, 740, 746, and 746 Rear, on a plan entitled "Plan of Land in Framingham, Massachusetts, Property: A J Rousseau Nobscot Trust 732-746 RR Water Street, Framingham, Massachusetts" dated November 25, 2010, included in the background materials; and also including a twenty foot wide right of way as shown on said plan.

And, further, to raise and appropriate, transfer from available funds, or borrow a sum of money for said purpose, contingent upon receipt of a Massachusetts Board of Library Commissioners construction grant; And to meet said appropriation, the Treasurer is authorized, with the approval of the Board of Selectmen, to issue from time to time bonds or notes pursuant to the provisions of M.G.L., Chapter 44, Section 7 and 8 or any other enabling authority;

And, further to authorize the Board of Selectmen and Town officers to take all related actions necessary or appropriate to carry out this acquisition, including the submission, on behalf of the town, of any and all applications deemed necessary for grants and/or reimbursements from any state or federal programs and to receive and accept such grants or reimbursements for this purpose, and/or any other purposes in any way connected with the scope of this Article;

Pass any vote or take any action relative thereto.

Sponsor: Library Trustees

January 13, 2011 Voted: That the Town authorize the Board of Selectmen to acquire by purchase and to accept a deed to the Town of a fee simple interest in all or a portion of the parcel described below and any appurtenant rights of way, easements, or other interests in land, now owned by A.J. Rousseau Nobscot Trust, upon such terms and conditions as the Board of Selectmen shall determine to be appropriate, the land to be used as the site of the new McAuliffe Branch Library, to be under the management and control of the Board of Selectmen, said parcel or land being described as follows:

The parcel of land located at Water Street, Framingham, Middlesex County, MA, shown as #732,736, 740, 746, and 746 Rear, on a plan entitled "Plan of Land in Framingham, Massachusetts, Property: A J Rousseau Nobscot Trust 732 – 746 RR Water Street, Framingham, Massachusetts" dated November 25, 2010, included in the background materials; and also including a twenty foot wide right of way as shown on said plan.

And, further, to raise and appropriate, transfer from available funds, or otherwise provide an amount not to exceed \$710,000 for said purchase, contingent upon receipt of a Massachusetts Board of Library Commissioners construction grant and upon the Town appropriating or otherwise providing its share of the funds for construction of the project.

In addition of the methods of funding stated above, to meet the appropriations required under this article that the Treasurer, with the approval of the Board of Selectmen, is hereby authorized to borrow said amount and issue from time to time bonds or notes pursuant to the provisions of M.G.L., Chapter 44, Section 7 and 8 or any other enabling authority;

And, further, to authorize the Board of Selectmen and Town officers to take all related actions necessary or appropriate to carry out this acquisition, including the submission, on behalf of the Town, of any and all applications deemed necessary for grants and/or reimbursements from any state or federal programs and to receive and accept such grants or reimbursements for this purpose, and/or any other purposes in any way connected with the scope of this article.

103 voting in favor, 5 opposed, 1 abstention.

APRIL 26, 2011 ANNUAL TOWN MEETING

ARTICLE 1

To see if the Town will vote to amend the previously approved FY11 Community Development Block Grant (CDBG) to authorize the Board of Selectmen to provide funds to implement projects and/or delete funds previously set aside in FY11, as detailed in a background material handout to be provided at the Annual Town Meeting, if necessary.

Pass any vote or take any action relative thereto.

Sponsor: Board of Selectmen

April 26, 2011 Voted: That this article be referred back to the Sponsor.

ARTICLE 2

To see if the Town will vote to authorize the Board of Selectmen to accept and expend funds in accordance with the provisions of Title I of the Housing and Community Development Act of 1974, as amended, and regulations promulgated thereunder by the U. S. Department of Housing and Urban Development.

Pass any vote or take any action relative thereto.

Sponsor: Board of Selectmen

April 26, 2011 Voted: That the Board of Selectmen be authorized to accept and expend funds in accordance with the provisions of Title I of the Housing and Community Development Act of 1974, as amended, and regulations promulgated thereunder by the U.S. Department of Housing and Urban Development, and in accordance with the "Proposed Statement of Community Development Objectives and Projected Use of Funds" approved by the Board of Selectmen on April 26, 2011 with the amounts of funding increased or decreased proportionately to the percentage change in actual Entitlement Grant funding available versus estimated Entitlement Grant funding available. Said projected use of funds is shown on the attached page, Appx A.

To see if the Town will vote to amend the Framingham Zoning Bylaw Section IV. by adding a new subsection Q. Drive-thru Facility as set forth in the background materials for this Town Meeting;

And to further amend the Framingham Zoning Bylaw Sections III.C.1.d.(2), III.C.2.d.(3) and (4), III.C.3.d.(3), III.C.4.d.(3), and III.C.5.d.(2) by adding at the end a reference to the new regulations for Drive-thru Facility.

Pass any vote or take any action relative thereto.

Sponsor: Planning Board

May 4, 2011 Voted: That the Framingham Zoning Bylaw be amended by adding a new Subsection IV.Q. Drive-thru Facility Regulations and further, that Sections III.C.1.d.(2), III.C.2.d.(3) and (4), III.C.3.d.(3), III.C.4.d(3) and III.C.5.d.(2) be amended by adding at the end a reference to the new Drive-thru Facility Regulations, as presented in the handout to Town Meeting on the back table and attached to the main motion.

152 voting in favor, 2 opposed.

Approved by the Attorney General on September 16, 2011

ARTICLE 3 – HANDOUT/ATTACHMENT

Article 3 Drive-thru Facility Regulations

To see if the Town will vote to amend the Framingham Zoning By-law by adding a new subsection IV.Q. Drive-thru Facility Regulations.

Q. DRIVE-THRU FACILITY REGULATIONS:

1. Purpose

The purpose of this By-law is to provide site design guidance at the planning application stage in order to assess, promote, and achieve appropriate development of a drive-thru facility. Each drive-thru facility will be reviewed in conjunction with this By-law for specific site context and conditions.

2. General Provisions

- a. **Drive-thru Facility Application:** Applications for a new drive-thru facility or for modification of existing structures submitted after the adoption of this section shall require a Special Permit from the Planning Board in conformance with the provisions of this section herein.
- b. **Drive-thru Facility:** The portion of an establishment that provides or dispenses products or services by an attendant or an automated machine to persons remaining in vehicles that are in designated stacking lanes. A drive-thru facility may be a stand-alone establishment or in combination with other uses such as a financial institution, personal service store, retail store, eating establishment, or gasoline station.
- c. **Elements of a Drive-thru Facility:** A drive-thru facility is composed of the stacking lanes and the service area. A stacking lane is the space occupied by vehicles queuing for the service to be provided. The service area includes, but is not limited to, the order stations, windows, menu boards, speakers, and lighting.

3. Drive-thru Facility Site Design Standards

- a. The access points to the drive-thru facility from the public way shall be constructed a sufficient distance from roadway intersections to prevent traffic conflicts, overflow, and congestion. When possible, the drive-thru facility shall exit onto a secondary street.
- b. The stacking lanes and service area shall be located to the side or rear of the buildings and site.
- c. All driveways and stacking lanes shall be clearly delineated on-site with pavement markings and traffic control signage.
- d. The exit from the drive-thru facility shall have unobstructed lines of vision clear of vegetation and signage.
- e. The maximum number of stacking lanes permitted for:
 - i. food/eating establishments is two stacking lanes;
 - ii. financial institutions is two stacking lanes; and
 - iii. all other drive-thru facilities is one stacking lane.

- f. The drive-thru facility shall be designed to reduce pedestrian and vehicular conflicts. A minimum of seventy-five percent of the parking spaces shall be designed so there are no conflicts between the stacking lanes and the pedestrian access into the establishment.
- g. Adequate space shall be provided between the stacking lane and the parking field to maintain safe parking conditions.
- h. The stacking lanes shall not block access to parking spaces, on-site loading areas, and trash removal operations and facilities.
- i. The stacking lanes shall be effectively separated from the parking field through the use of curbing, raised islands, and/or landscaping improvements. The Planning Board may permit the use of hardscape improvements such as decorative pavers and bollards to meet this design objective.
- j. Each stacking space within a stacking lane shall be a minimum of twenty feet in length and ten feet in width along straight portions and twelve feet in width along curved segments of the stacking lane.
- k. All interior pedestrian crosswalks shall be a minimum of eight feet in width, and constructed of material that contrasts with driveway and surface treatments. The Planning Board may require crosswalks to be raised up to curb level.
- l. An emergency exit and/or by-pass lane may be required for the stacking lane or service area.
- m. The service area and stacking lanes shall be located a sufficient distance from the property line of adjacent uses to prevent noise or lighting impacts.
- n. In addition to the standard requirements of the Zoning By-law, the Planning Board may require additional buffering and screening to effectively shield adjacent properties from a drive-thru facility.
- o. When a drive-thru facility is proposed on a property within an historic building as defined under Section IV.G.7.b.3. of the Framingham General By-laws, the architectural character defining exterior elements of the historic building shall be preserved.
- p. The service area shall incorporate weather protection features.

4. Number of Required Drive-thru Stacking Spaces

a. Food/Eating Establishment (including, but not limited to, Fast Order Food Establishment and Restaurant establishments)

- i. A minimum of ten stacking spaces shall be provided before the service area. If the service area has two order stations, the ten stacking spaces may be divided between each of the order stations.
- ii. A minimum of five additional stacking spaces shall be provided after the order station. If the drive-thru facility has a transaction window before the pick-up window, an additional two stacking spaces are required between the transaction window and the pick-up window.
- iii. A minimum of two designated customer delivery spaces shall be provided for a drive-thru facility.
- b. **Financial Institution** A minimum of three stacking spaces shall be provided before the transaction service (i.e. teller window, automated teller, or automated teller machine). If the facility has two stacking lanes, the stacking spaces may be divided between the two stacking lanes.
- c. **All Other Drive-thru Facilities** A minimum of four stacking spaces shall be provided before the transaction service. The Planning Board may require additional stacking spaces based on the anticipated queuing demand for the drive-thru facility.

5. Additional Conditions, Limitations, and Safeguards

- a. The Planning Board may by special permit, with a four-fifth vote, waive the above referenced provisions herein, if the Planning Board determines that an alternative design serves a public benefit and contributes to an overall better site design.
- b. Any application for review and approval of a drive-thru facility shall also be subject to Site Plan Review under Section IV.I. The Site Plan Review application shall be submitted concurrently with any Special Permit application.
- c. In granting approval of an application for a drive-thru facility, the Planning Board may attach conditions, limitations, and safeguards as deemed necessary. Such conditions, limitations, and safeguards shall be in writing and be part of such Special Permit approval. The Planning Board may attach the following conditions to the Special Permit approval:
 - i. Conditions to provide a system of joint use driveways and cross access corridors with adjacent properties to facilitate access management, to prevent traffic safety hazards, and to maintain the level of service on adjacent roadways;

ii. Conditions to require additional stacking spaces based on a specific proposal; and

iii. Conditions to allow the Planning Board to evaluate the facility up to one year of operation to determine that the conditions are sufficient to mitigate any adverse impacts.

The failure to comply with this By-law and/or the terms of the permit may result in revocation of the permit issued hereunder. The Planning Board shall by first class mail send the owner written notification of any failure to comply with this By-law and/or the terms of the permit. If the owner believes that he is not in violation, he may request and will be granted an opportunity to attend a Planning Board meeting to try to resolve the alleged violation. If within 30 days from the date of mailing of said notice, the owner has not resolved the matter with the Planning Board, or remedied the alleged violation, it shall be grounds for revocation of the permit.

At the expiration of the 30 day period, the Planning Board after a duly noticed public hearing, including notice to the owner by first class mail, may revoke the permit if it finds by a four-fifths vote that there has been a violation of this By-law and/or the terms of the permit and that the owner has failed to remedy it; alternatively, the Planning Board may continue the public hearing, or by a four-fifth vote extend the time period in which the violation may be corrected.

And to further amend the Framingham Zoning By-law by adding a reference to the new Drive-thru Facility Regulations in the following sections as follows.

Section III.C.1.d.(2) Drive-thru facility associated with a financial institution, containing no more than one lane or window for financial transactions; subject also to the provisions of Section IV.Q.

Section III.C.2.d.(3) Drive-thru facilities associated with any commercial or retail business use; except as noted under III.C.2.e(2) below subject also to the provisions of Section IV.Q.

Section III.C.2.d.(4) Drive-thru facility or automatic teller machine (ATM) as a principle use; subject also to the provision of Section IV.Q.

Section III.C.3.d.(3) Drive-thru facilities associated with any commercial or retail business use; subject also to the provisions of Section IV.Q.

Section III.C.4.d.(3) Drive-thru facility associated with a financial institution, containing no more than one lane or window for financial transactions; subject also to the provisions of Section IV.Q.

Section III.C.5.d.(2) Drive-thru facilities, standing alone or accessory to another use; subject also to the provisions of Section IV.Q.

ARTICLE 3 – ADDITIONAL MOTIONS/AMENDMENTS

May 4, 2011 Voted: That the following be added:

q. All elements of the Drive-thru facility shall be designed to provide adequate clearances as may be required by state and federal regulations with respect to the design of any architectural access features required under the Americans with Disabilities Act (ADA) and with 521 CMR Architectural Access Board Rules and Regulations.

ARTICLE 4

To see if the Town will vote to amend the Framingham Zoning Bylaw Section III.A.2. by deleting paragraph d. in its entirety;

ARTICLE 5

To see if the Town will vote to amend the Framingham Zoning Bylaw Section I.E. by deleting the existing definition for Lot Line, Front and replacing with the following new definition to read as follows.

Lot Line, Front: The property line adjacent to (a) a public way which the Town Clerk certifies is maintained and used as a public way, or (b) a fully constructed way shown on a plan theretofore approved and endorsed in accordance with the subdivision control law, or (c) a way in existence when the subdivision control law became effective in the Town of Framingham, having, in the opinion of the Planning Board, sufficient width, suitable grades and adequate construction to provide for the needs of vehicular traffic in relation to the proposed use of the land abutting thereon or served thereby and for the installation of municipal services to serve such land and the buildings erected or to be erected thereon. Frontage shall provide both rights of access and potential vehicular access across that lot line to a potential building site. Frontage shall be measured in a single contiguous, uninterrupted line along a street or streets.

And to further amend the Framingham Zoning Bylaw Section IV.G.4.a. Lot Frontage Requirement: by changing the heading to "Lot Access and Frontage Requirement"; by adding to the existing sentence the new words "way or" and deleting the existing words "except as may be permitted hereinafter"; and by adding three new sentences to read as follows.

a. Lot Access and Frontage Requirement

Where a minimum lot frontage is specified in Section IV.G.2., no principal building or use shall be located on a lot which fronts a lesser distance on a way or street. No principal building or use shall be constructed or located on a lot unless adequate vehicular access exists or can be constructed to the buildable portion of the lot, proposed structure or use from the way or street providing the minimum lot frontage required by Section IV.G.2. Vehicular access shall be provided from the lot frontage to the principal building or use, provided that the Planning Board by Special Permit may allow an alternative vehicular access to the lot. A lawful pre-existing lot for single or two family residential use that pre-dates the enactment of this section, shall be exempt from this lot access requirement, provided such lot conformed to all zoning requirements at the time of recording or endorsement.

Pass any vote or take any action relative thereto.

To see if the Town will vote to amend the Framingham Zoning Bylaw Section IV.G.7.b. Exceptions to Maximum Height Requirement by deleting existing words and adding new words to paragraph 1. to read as follows.

1. The maximum height requirement specified in Section IV.G.2. shall not apply to accessory structures or appurtenances normally built above the roof level and necessary for the operation of the building or use. Such structures shall not be intended for human occupancy, and shall be erected only to serve the purpose for which they are intended. These structures include but are not limited to chimneys, penthouses for stairways and elevators, mechanical installations, and screening and parapets. Accessory structures or appurtenances may be built twenty-five percent above the maximum building roofline in the Technology Park and fifteen percent above the maximum building roofline in all other zoning districts, except in the Single Residence Districts R-1, R-2, R-3, and R-4, and General Residence Districts.

And to further amend the Framingham Zoning Bylaw Section IV.G.7.b. Exceptions to Maximum Height Requirement by adding a new paragraph 3. to read as follows.

3. Accessory structures above the building roofline shall be screened on all sides of the accessory structure. The design of the screen shall be incorporated into the architectural features of the building and constructed of a material and color compatible with other elements of the building.

Pass any vote or take any action relative thereto.

MEMORANDUM

To: Town Meeting

From: Eric Johnson, Director of Planning and Design I Department of Public Works

Date: March 4, 2011

Re: 2011 Annual Town Meeting

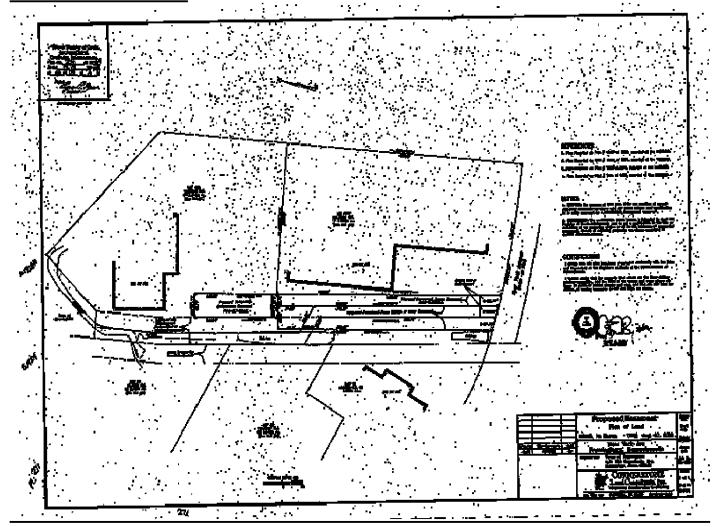

Release of Utility Easement

The Department of Public Works (DPW) has respectfully submitted the above-referenced article for consideration at the 2011 Spring Annual Town Meeting. This memorandum is to provide background information on this proposed article.

This article will allow the Town to release easement rights currently held on property owned by the Genzyme Corporation. Specifically, the Town holds a general utility easement to support the nearby Paramount Pump Station and sewer piping which was recently abandoned. The Town decommissioned the Paramount Pump Station, constructed a new upgraded pump station and piping and acquired a new sewer easement to support the new infrastructure. Subsequently, the Town will now release the general utility easement rights, but maintain stormwater management rights to the easement indicated in the attached plan.

This article is to authorize the Town of Framingham to release the utility easement except to the extent necessary for stormwater management. A figure indicating this easement is attached to this memo.

ARTICLE 7 – ENCLOSURE 3

ARTICLE 8

To see if the Town will vote to amend the General Bylaws as Follows:

<u>Article I, Section 1.3</u> – Under Real Property Committee, Number of Members, delete the word "seven" and insert the word "six" in its place. Under Real Property Committee, Appointing Authority, delete the words "Board of Public Works".

<u>Article II, Section 1, Paragraph 1.1.8</u> – Delete the words "the board of public works,".

Article II, Section 16, Paragraph 16.1 – Delete the words "seventeen (17)" and insert the words "sixteen (16) in their place. Delete the words "seven (7)" and insert the words "six (6)" in their place. Delete the word "the Board of Public Works,".

<u>Article V, Section 15, Paragraph 15.5.3</u> – Delete the word "Board" and insert the word "Director" in its place.

<u>Article VI, Section 1</u> – Town Owned Bridges – Delete the words "Public Works" insert the word "Selectmen" in their place.

<u>Article VI, Section 4, Paragraph 4.7</u> - Delete the words "Public Works" insert the word "Selectmen" in their place.

Pass any vote or take any action relative thereto.

April 27, 2011 Voted: That the Board of Selectmen be authorized to lease space on the Town owned incinerator building located at 255 Mt. Wayte Ave. (town incinerator property) for a period of up to 10 years, to the selected respondent or respondents to a Request for Proposals, selected pursuant to Mass. General Laws, Chapter 30B, for the purpose of constructing, maintaining and/or operating wireless communications facilities thereupon, subject to special permit(s) granted from the Zoning Board of Appeals in accordance with Section IV.L. of the zoning bylaws, if necessary, and other legal requirements that may exist in connection with said property; and in exchange for a lease or leases for a negotiated annual payment to the Town and subject to conditions to protect the Town's interests. All rental proceeds shall be deposited with the Treasurer into the General Fund to be used for purposes deemed appropriate by the Town.

ARTICLE 9 – ADDITIONAL MOTIONS/AMENDMENTS

April 27, 2011 Amendment offered but withdrawn by Caraline Levy, with the approval of Town Meeting: "All discussions by Board of Selectmen regarding the leases of municipal

property for wireless communication facilities require a written letter or email to abutters (residential and commercial) within ½ mile distance from the communication facility"

Caraline Levy, Precinct 12

April 27, 2011 Amendment offered but withdrawn by Caraline Levy, with the approval of Town Meeting: "In the event there are future studies that show negative effects of wireless communication facilities, the contract becomes void until such time it is deemed safe."

Caraline Levy, Precinct 12

April 27, 2011 Amendment offered but withdrawn by Caraline Levy, with the approval of Town Meeting: "A bond paid for by communications company will be put in place to pay for potential medical claims against the communication companies and/or town."

Caraline Levy, Precinct 12

ARTICLE 10

To see if the Town of Framingham will vote to amend the Town Bylaws, Article II, Section 15.1 by inserting the following language after "reasons for the abatements": "the parcel ID, the number of abatements granted on the property in the last five years, and the name(s) of the official(s) granting the abatement."

Pass any vote or take any action relative thereto.

Sponsor: George Lewis, Town Meeting Member, Precinct 18

May 4, 2011 Voted: That the Town Bylaws, Article II, Section 15.1 be amended by replacing the language after "Such listing shall include..." and before "Said listing shall be printed in the Town Report, each year, as a part of the annual report of the Board of Assessors" with the language set forth in the handout as provided to this Town Meeting.

Further, that the phrase "or owners of record" be added after the word owner.

Approved by the Attorney General on September 16, 2011

ARTICLE 10 - HANDOUT

2011 Annual Town Meeting

(Motion Correction – May 4, 2011)

ARTICLE 10: Citizen Petition: George Lewis

To see if the Town will vote to amend the Town Bylaws, Article II, Section 15.1 by replacing the language after "Such listing shall include...", and before "Said listing shall be printed in the Town Report, each year, as a part of the annual report of the Board of Assessors."

Pass any vote or take any action relative thereto.

Present wording in the Town Bylaws (highlighted wording to be replaced with language in amended paragraph):

Article II, Section 15.1: The Board of Assessors shall include in its annual report to the Town a listing of all abatements of real estate taxes granted in the year covered by its Annual Report, except those granted under the provisions of Massachusetts General Laws Chapter 59, Section 5, as amended (Ter.Ed.). Such listing shall include the names and addresses of the owner or owners of record, location of property, the amounts of the abatements and the reasons for the abatements. Said listing shall be printed in the Town Report, each year, as a part of the annual report of the Board of Assessors.

Amended wording (highlighted):

Article II, Section 15.1: The Board of Assessors shall include in its annual report to the Town a listing of all abatements of real estate taxes granted in the year covered by its Annual Report, except those granted under the provisions of Massachusetts General Laws Chapter 59, Section 5, as amended (Ter.Ed.). Such listing shall include Parcel ID, Address and Unit, Owner, Assessed Value, Original Tax, Reasons for Abatement, Value Abated, Tax Abated, Use Code and the Number of abatements granted on the property in the past five years. Listing shall be in order of street address. Said listing shall be printed in the Town Report, each year, as a part of the annual report of the Board of Assessors.

- 12. Report from the Rules Committee on electronic voting at Town Meeting.

ARTICLE 14

To see if the Town will vote to amend its General Bylaws by adding a new Bylaw as Article V, Section 29, "Sex Offender Bylaw", as set forth in the background materials for this Town Meeting, and pass any vote or take any action relative thereto as Enclosure A.

Sponsor: Board of Selectmen

May 10, 2011 Voted: That the General Bylaws be amended by adding a new Bylaw as Article V, Section 29, "Sex Offender Bylaw", as set forth in the handout provided at this town meeting and attached as Enclosure A.

101 voting in favor, 51 opposed, 1 absention.

Approved by the Attorney General on December 20, 2011

ARTICLE 14 – HANDOUT (ENCLOSURE A)

ARTICLE V SECTION 29 SEX OFFENDER BYLAW

Purpose: It is the intent of this bylaw to serve the Town's compelling interest to promote, protect, and improve the health, safety and welfare of the citizens of Framingham by creating areas around locations where children congregate in concentrated numbers wherein Classified Level 2 and 3 Sex Offenders are prohibited from loitering. After careful consideration, the Town finds that this bylaw is the most narrowly tailored means of limiting, to the fullest extent possible, the opportunity for these Sex Offenders to approach or otherwise come in contact with children in places where children would naturally congregate, and the protection of the health, safety and welfare of our children is a compelling interest. The purpose of this bylaw is to reduce the potential risk of harm to children by impacting the ability for Classified Level 2 and 3 Sex Offenders to be in contact with unsuspecting children in areas primarily designed for use by or primarily used by children. It provides an enforcement tool for our police officers to protect children from potential harm.

29.1 Definitions

- 29.1.1 "Classified Level 2 or 3 Sex Offender" means a person who has been finally classified as a Level 2 or Level 3 Sex Offender by the Sex Offender Registry Board or its successor under M.G.L. c. 6 §§ 178C-178P inclusive and 803 C.M.R. §§ 1.13 or 1.22-1.23, or their successor provisions as the same may be amended from time to time.
- 29.1.2 "Organized" means any activity including but not limited to summer camp, educational program or sporting event which is developed, overseen and administered by the Town of Framingham or a department or agency thereof, the Town of Framingham School Department or other legal entity under agreement with the Town of Framingham.

- 29.1.3 "Organized Youth Activity" means any organized activity involving one or more children under seventeen years of age and which activity is taking place on Property owned by the Town of Framingham.
- 29.1.4 "Property" means any building or real property in the Town of Framingham which is owned by the Town of Framingham and under the control of the Board of Selectmen or a department or agency of the Town of Framingham or the Town of Framingham School Department.
- 29.1.5 "Loiter" means remaining within 300 feet of the location in question for a period of ten minutes or more.
- 29.1.6 "Designated School Bus Stop" means a school bus stop designated by a public or private school by publication in a newspaper of general circulation in the Town or by posting at the site of the school bus stop.
- 29.1.7 "Safety Zone" means a school including school grounds, designated school bus stop, day care center, town park or recreational facility, facility for the elderly, Organized Youth Activity, and facility for the mentally impaired, or the area within three hundred feet of any of the above-listed places.
- 29.1.8 Unless otherwise provided herein and as applicable, terms used in this by-law have the same meaning as provided in M.G.L. c. 6 § 178C and 803 C.M.R. 1.03 or their successor provisions as the same may be amended from time to time.

29. 2 Prohibition

It shall be unlawful for a Classified Level 2 or Level 3 Sex Offender to loiter at or within a Safety Zone.

29. 3 Enforcement

- 29.3.1 The Police Chief and duly sworn Police Officers shall be responsible for the enforcement of this bylaw.
- 29.3.2 If a police officer has reasonable suspicion to believe that a Classified Level 2 or Level 3 Sex Offender is within a Safety Zone as defined in Section 1, in violation of this bylaw, the officer shall **verify the** individual's name, address, and telephone number. If it is established that the individual is a Classified Level 2 or Level 3 Sex Offender, then the officer shall notify said Sex Offender that he/she is in violation of this bylaw and a criminal complaint may be pursued under this bylaw. Violation of this bylaw is punishable by a fine of up to three hundred dollars (\$300.00).
- 29.3.3 Non-Criminal Penalty. A violation of this bylaw may be enforced by a police officer by non-criminal disposition pursuant to the provisions of M.G.L. c. 40, § 21D.

Each appearance in a Safety Zone shall be deemed to be a separate offense, even if multiple appearances occur on the same day. The non-criminal penalty for a violation of this bylaw shall be three hundred dollars (\$300.00).

29.4 Exceptions

- 29.4.1 A Classified Level 2 or Level 3 Sex Offender will not be in violation of this bylaw in the following situations:
- a. The individual is a minor involved in an activity taking place in the Safety Zone;
- b. The individual is at his or her place of residence or secondary address;
- c. The individual is at his or her place of employment;
- d. The individual is serving a sentence at a jail, prison, juvenile facility, or other correctional institution or facility that is located within the Safety Zone;
- e. The individual is admitted to and/or subject to an order of commitment at a public or private facility for the care and treatment of mentally ill persons pursuant to M.G.L. c. 123 and the facility is located within the Safety Zone;
- f. The individual is a mentally ill person subject to guardianship pursuant to M.G.L. c. 201 § 6 or a mentally retarded person subject to guardianship pursuant to M.G.L. c. 201 § 6A, residing with his or her guardian or residing within a group residence that is professionally staffed and supervised twenty-four hours a day and is located within the Safety Zone;
- g. The individual is the parent of a child which child's participation in an activity in the Safety Zone reasonably requires the attendance of the Sex Offender as the child's parent in the Safety Zone but only if the Sex Offender's presence at the Safety Zone occurs only during the hours of activity related to the participation by the child;
- h. The individual is walking, driving or traveling through the Safety Zone on his/her way from one location to another destination and does not stop or stand within the Safety Zone.

APRIL 26, 2011 ANNUAL TOWN MEETING ARTICLE 14 BALLOT VOTE

That this article be referred back to the Sponsor.

ARTICLE 14 – ADDITIONAL MOTIONS/AMENDMENTS

May 10, 2011 Failed: "I would like to make three amendments to Article 14, Section 29.1.5.

- 1. Change the word within to outside
- 2. Change ten minutes to two minutes
- 3. Strike G of Exceptions of 29.4."

Daniel Gittelsohn, Precinct 14

May 4, 2011 Failed: "I move that Article 14 be referred back to Sponsor"

This request was approved by the Government Study Committee by a vote of 6-2-1 on April 4, 2011.

Karl Thober, Precinct 4
Government Study Committee Chairman

58 voting in favor, 92 opposed.

ARTICLE 15

To see if the Town will vote to authorize the Board of Selectmen to acquire by purchase, gift, eminent domain or otherwise and to accept a deed to the Town of a fee simple interest in all or a portion of the parcels described below and any appurtenant rights of way, easements, or other interests in land, now owned by the Massachusetts Department of Transportation, upon such terms and conditions as the Board of Selectmen shall determine to be appropriate, to be under the management and control of the Board of Selectmen, said parcels of land being described as follows:

The land shown as Parcel 1 and Parcel 2 on a plan entitled "Figure 3 — Proposed Site Plan" dated June, 2006, included in the background materials, said parcels containing approximately 19,616 square feet and approximately 12,247 square feet respectively, located off Gates Street adjacent to the MassDOT park and ride lot at 1672 Worcester Road, Framingham, Massachusetts, containing the historical structures known as the Rugg-Gates House and Dennett Workshop.

And, further, to raise and appropriate, transfer from available funds, or borrow a sum of money for said purpose;

And, further to authorize the Board of Selectmen and Town officers to take all related actions necessary or appropriate to carry out this acquisition.

Pass any vote or take any action in relation thereto.

Sponsor: Board of Selectmen

May 10, 2011 Voted: That this article be referred back to the Sponsor with the concurrence of the Sponsor.

ARTICLE 16

To see if the Town will vote to strike the existing non-union Position Classification Schedules and accept the updated non-union Position Classification Schedules as presented in the background material.

Pass any vote or take any action in relation thereto.

Sponsor: Human Resources

May 19, 2011 Voted: That this article be referred back to the Sponsor.

ARTICLE 16 – ADDITIONAL MOTIONS/AMENDMENTS

May 19, 2011 Motion offered but not voted on due to vote to refer back: "I move that the Town vote to strike the existing non-union Position Classification Schedule and accept the updated non-union Position Classification Schedule as presented in the background material"

Mary Ellen Kelley, Chief Financial Officer

Schedule PW Public Works/Parks & Rec. Supervisors 1116

Schedule V Crossing Guards.

ARTICLE 23

To see if the Town will vote to authorize or re-authorize several revolving funds as defined by General Laws Chapter 44, Section 53 E ½ for Fiscal Year 2012 beginning July 1, 2011, including but not limited to the following:

- A) Town Owned Building Civic Use (Maynard Building) Fund;
- B) Town Owned Building Civic Use Fund;
- C) Town Owned Building Civic Use (Cushing Chapel) Fund;
- D) Concert on the Common Fund;
- E) School Bus Fees Fund;
- F) Pavement Management Fund;
- G) Town Wetland Protection Fund;
- H) Vaccine Administration Fund
- I) Fluorescent Lamp/Mercury Recycling Fund
- J) Town Records Preservation Fund

- K) Callahan Senior Center Fund
- L) Emergency Management Equipment Fund
- M) Animal Control Fund

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That Town Meeting authorize or re-authorize several revolving funds as defined by M.G.L., Chapter 44, Section 53E $\frac{1}{2}$ for FY12 beginning July 1, 2011, including, but not limited to the following:

<u>Fund</u>	<u>Manager</u>	Purpose	FY12 Spending Ceiling	Disposition of FY09 Fund Balance
Town Owned Building/Civic Use Fund - Maynard Building	Building Services Department of the General Government Division	To receive funds from rental fees and other similar charges for the use of the Jonathan Maynard Building and to authorize the Building Services Department to spend these funds for direct expenses associated with the general maintenance of this building such as custodial direct expenses associated with the general maintenance of this building such as custodial costs, utilities, maintenance supplies and other similar expenses.	\$20,000	Balance available for expenditure
Town Owned Building/Civic Use Fund - Danforth and Memorial Buildings	Building Services Department of the General Government Division	To receive funds from rental fees and other similar charges for the use of the Danforth and Memorial Buildings and to authorize the Building Services Department to spend these funds for direct expenses associated with the general maintenance of these buildings such as custodial costs, utilities, maintenance supplies and other similar expenses	\$90,000	Balance available for expenditure
Town Owned Building/Civic Use Fund - Cushing Chapel	Building Services Department of the General Government Division	To receive funds from rental fees and other similar charges for the use of Cushing Chapel and to authorize the Building Services Department to spend these funds for direct expenses associated with the general maintenance of these buildings such as custodial costs, utilities, maintenance supplies and other similar expenses.	\$20,000	Balance available for expenditure
Town Owned Building/Civic Use Fund - Concerts on the Common	Building Services Department of the General Government Division	To receive funds from the sale of food and other similar charges during Concerts on the Commor and to authorize the Building Services Department to spend these funds for direct expenses associated with the sale of food and other concert-related charges such as staff costs, utilities, maintenance supplies and other similar expenses.	1	Balance available for expenditure

School Bus Fees	Framingham School Committee - School Department	To receive and spend funds for direct expenses associated with the transportation of students to and from school.	\$380,000	Balance available for expenditure
Town Wetland Protection Fund	Conservation Commission	To receive and spend funds to pay services associated with processing Permits and Requests for Determination	\$20,500	Balance available for expenditure
Excavation Management Fund	Department of Public Works	To account for revenue from fees generated by Town of Framingham's Street Opening Permit and if approved by Town Meeting, fees associated with the Excavation Management program. The intent of this revolving fund is to retain the revenue generated there from, within an account, that the Department of Public Works may access, as needed, for the administrative and operational costs associated with the management of this program.	\$75,000	Balance available for expenditure
Vaccine I Administration Fund		To use funds secured from reimbursements from any insurance carrier, public or private, and payments received from residents or non-residents for any vaccine administered to all individuals who are served by the Framingham Board of Health. The funds will be used to buy additional vaccines and supplies and ancillary services needed to maintain the Town's clinic demands, clinical, preventative and health education programs for the Board of Health which may include, but not be limited to vaccine storage and handling and volunteer training in pandemic preparedness and emergency response.	\$27,000	Balance available for expenditure
	Public Works	To use funds secured from the cost to dispose of Fluorescent lamps, compact fluorescents and other mercury containing items like thermometers, thermostats and button-cell batteries to offset the costs of disposal. In addition, we will encourage the proper disposal of these regulated items at or by a certified vendor using the correct containers.	\$5,000	Balance available for expenditure
Town Records Preservation		To use funds secured from vital records charges to preserve deteriorating records of the Town of Framingham. A specific charge of \$2 per record is collected and will be deposited in this fund to be used for record preservation.	\$34,000	Balance available for expenditure

Callahan Senior Center	Council on Aging	To use fees and revenues received from building rental, programming, and general services. The funds would be expended to cover associated costs and expenses of those services and for the advancement of Council on Aging's established mission statement. All expenditures would be compliant with MGL Chapters 44 section 53E1/2. Said expenditures shall be made by the Council on Aging and its professional staff and under the general direction of the Division Manager.	\$25,000	Balance available for expenditure
Emergency Management Equipment	Framingham Emergency Management Agency	The revolving account is needed to collect fees assessed to NERAC (Northeast Regional Advisory Council for Homeland Security) communities for the use of centrally housed equipment for emergent situations. The monies collected will be used to provide upkeep and maintenance on the equipment in the cache.	\$2,500	Balance available for expenditure
Animal Control	Animal Control Department	To use fees collected from boarding animals and kennel rental fees for the purpose of offsetting kennel operating costs. Expenses include veterinary care, rabies clinics, and rabies testing, equipment purchase and office supplies.	\$4,500	Balance available for expenditure

ARTICLE 24

To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum or sums of money for the purpose of paying unpaid bills of prior years of the Town.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That Town Meeting authorize payment of the following unpaid bills of prior years of the Town. These bills are to be paid from the FY2011 departmental budget in which they were incurred.

School Department Massachusetts Aggression Reduction Center	\$145.00
School Department Verizon	\$446.62
Public Works CSX Safety Flagging Services	\$18,728.04

Library

Verizon \$155.14

ARTICLE 25

To see if the Town will vote to appropriate the proceeds of any insurance policy reimbursements of costs incurred as a result of any covered loss, including without limitation any liability insurance, property insurance, casualty insurance, workers' compensation insurance, health insurance, disability insurance, automobile insurance, police and fire injury and medical costs, and any other insurance of any name and nature whatsoever.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That the Town appropriate the sum of \$37,399.89 to the Fire Department budget and \$25,632.35 to the Library budget; to be transferred from the receipt reserve for appropriation account insurance proceeds greater than \$20,000. These transfers are for repairs to damaged fire apparatus Platform 1 and repairs for flooding damage in the Main Library.

ARTICLE 26

To see if the Town will vote to appropriate a sum or sums of money for off-site mitigation improvements or as otherwise agreed upon by the Town of Framingham Planning Board and Project Applicant(s) pursuant to recorded Planning Board decision(s)to be managed by the Town Manager or designee in consultation with the Planning Board and consistent with said decision(s).

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That the Town appropriate the following sum of money received for off-site mitigation improvements or as otherwise agreed upon by the Town of Framingham Planning Board and Project Applicants pursuant to recorded Planning Board decision(s) to be managed by the Town Manager or his designee in consultation with the Planning Board and consistent with said decision(s).

\$20,000 received for off-site mitigation to be expended for other work identified in the Framingham Technology Park Infrastructure Plan adopted by the Planning Board dated April 8, 2010.

ARTICLE 27

To see if the Town will vote to determine what sum or sums of money the Town will appropriate and raise, or transfer from available funds, for the operations of the Town of Framingham,

including debt and interest for Fiscal Year 2011 (July 1, 2010 – June 30, 2011) and to see what budgets for Fiscal Year 2011 will be reduced to offset said appropriations.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

May 24, 2011 Voted: That the following FY2011 budget adjustments be made:

Transfer \$45,000 from the Unclassified Division/Unemployment to the General Government Division/Legal Budget.

Transfer \$445,936 from the Unclassified Division/Salary Reserve as follows:

\$20,000 to the General Government Division/BOS-Town Manager budget

\$120,000 to the General Government Division/Building Services budget

\$276,887 to the Fire Division/Fire Department budget

\$2,340 to the Police Division/Police Department budget

\$16,823 for the Public Works Division budget

\$9,458 to the Parks & Recreation Division/Parks & Recreation Department budget

\$428 to the Parks Division/Loring Arena budget.

ARTICLE 28

To see if the Town will vote to determine what sum or sums of money the Town will appropriate and raise, or transfer from available funds, for the operations of the Water Department, including debt and interest for Fiscal Year 2011 (July 1, 2010 – June 30, 2011) and to see what budgets for Fiscal Year 2011 will be reduced to offset said appropriations.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That this article be referred back to the Sponsor with the concurrence of the Sponsor.

ARTICLE 29

To see if the Town will vote to determine what sum or sums of money the Town will appropriate and raise, or transfer from available funds, for the operations of the Sewer Department, including

debt and interest for Fiscal Year 2011 (July 1, 2010 – June 30, 2011) and to see what budgets for Fiscal Year 2011 will be reduced to offset said appropriations.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

April 28, 2011 Voted: That this article be referred back to the Sponsor with the concurrence of the Sponsor.

ARTICLE 30

To see if the Town will vote to rescind various authorized, but unissued borrowing votes of the Town.

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

May 19, 2011 Voted: That the following authorized, but unissued balances of Town borrowing votes be rescinded:

Town Meeting	Article/Project Name	Amount to be Rescinded
10/04 STM	A13 High School Project	\$906,084

ARTICLE 34 – ADDITIONAL MOTIONS/AMENDMENTS

May 25, 2011 Failed: "I move we reduce the General Government Division budget by \$2,600 to \$617,840; Selectmen/Town Manager."

Mark McClennan, Precinct 12

.....

May 26, 2011 Failed: "I move that \$200,000 from the proposed stabilization fund appropriation of \$1,420,000 be appropriated to increase the school department appropriation to \$91,520,343."

Kenneth G. High, III, Precinct 12

64 voting in favor, 72 opposed.

May 26, 2011 Failed: "I move that \$400,000 from the proposed stabilization fund appropriation for FY2012 be appropriated to the School Department budget of \$91,320,343. Appropriation be amended from \$91,320,343 to \$91,720,343."

Herbert E. Chasan, Precinct 4

52 voting in favor, 82 opposed, 1 abstention.

ARTICLE 35

To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide a sum or sums of money for the operation of the Water Department, including capital outlay and debt service, and for all other necessary expenses for the Fiscal Year 2012 (July 1, 2011 – June 30, 2012).

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

May 24, 2011 Voted: That the Town expend \$14,284,506 in FY2012 in the Water Department for the cost of personnel operating expenses, MWRA Assessment and debt service, under the direction of the Town Manager or his designee:

And, that the \$14,284,506 be raised from water receipts.

ARTICLE 36

To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide a sum or sums of money for the operation of the Sewer Department, including capital outlay and debt service, and for all other necessary expenses for the Fiscal Year 2012 (July 1, 2011 – June 30, 2012).

Pass any vote or take any action in relation thereto.

Sponsor: Chief Financial Officer

May 24, 2011 Voted: That the Town expend \$18,763,781 in FY2012 in the Sewer Department for the cost of personnel, operating expenses, MWRA Assessment and debt service, under the direction of the Town Manager or his designee:

And that the \$18,763,781 be raised from sewer receipts.

RESOLUTION

May 10, 2011 Voted: Be it resolved that the Board of Selectmen continue to pursue the acquisition by gift and acceptance of a deed to the Town of a fee simple interest in all or a portion of the parcel described below, now owned by the Massachusetts Department of Transportation, and any appurtenant rights of way, easements, or other interests in land, said parcel being described as follows:

The land shown as Parcel 1 and Parcel 2 on a plan entitled "Figure 3 – Proposed Site Plan" dated June, 2006, included in the background materials, said parcels containing approximately 19,616 square feet and approximately 12,247 square feet respectively, located off Gates Street adjacent to the MassDOT park and ride lot at 1672 Worcester Road, Framingham, Massachusetts, containing the historical structures known as the Rugg-Gates House and Dennett Workshop.

And, to return to Town Meeting at a later date to seek authorization to acquire the property.

Kevin P. Crotty, Precinct 7

RESOLUTION

May 10, 2011 Failed: Be it resolved that it is the will of Town Meeting that the Town, through the Board of Selectmen, inform the state of the inadequacies in its criminal justice system and work with our legislators and those of other communities to draft legislation to correct those deficiencies; to wit:

- 1. The state must reform the corrections, parole, sex offender classification, and sex offender registry systems to be more transparent, more responsive to the needs of law abiding citizens, and more helpful to local law enforcement. Sex offenders should be classified before they are even considered for release, and Level 3 sex offenders should be considered for "civil commitment" past their sentence length based on provisions in the Adam Walsh Child Protection and Safety Act.
- 2. The state must increase mandatory minimum sentences for offenses against children, sex offenders that re-offend, and for all offenders with multiple convictions.

- 3. The state must mandate that the Department of Correction be responsible for inmate rehabilitation and not count on private contractors to do rehabilitation after the inmate's release, mandate that no prisoner be paroled without said rehabilitation, ensure that no prisoner is released if a request for a dangerousness hearing has been made, and mandate that the chief law enforcement official of the municipality listed as an inmate's residence or likely residence be informed of the inmate's release if said inmate is a violent offender or has multiple convictions.
- 4. The state must stop releasing dangerous criminals before their sentences are complete absent demonstrable rehabilitation and build a new prison or expand existing prisons if necessary to relieve overcrowding.
- 5. The state must increase funding for the prisons and parole departments and develop a formula for adequate, stable funding in order to ensure that these reforms survive the vagaries of yearly budget debates.

Peter Adams, Precinct 11 Yaakov Cohn, Precinct 5 Jake Bajakian, Precinct 11

RESOLUTION

May 25, 2011 Voted: Be it resolved that the Building Commissioner, Planning Board, Conservation Commission, Public Works Department, Fire Department and Board of Health review and update the building permit application and further improve the internal review process for such applications within three months of the date of this resolution.

Ned Price, Precinct 17

RESOLUTION

May 25, 2011 Failed: Be it resolved that we direct the Board of Selectmen/Town manager to put the pictures and information of Level Three Sex Offenders back where they were, on the bulletin board next to the Ablondi Room.

Daniel Gittelsohn, Precinct 14

RESOLUTION

May 25, 2011 Voted: Be it resolved by the will of Town Meeting that the Framingham Chief of Police or his designated representative shall report at the 2012 Spring Town Meeting and annually thereafter the following information with regard to the Sex Offender Bylaw:

- 1. The number of civilian complaints received about safety zone violations.
- 2. The number of enforcement actions taken under the provisions of the bylaw.

- 3. The number of offenders found guilty of safety zone infractions.
- 4. An overall assessment of the effectiveness of the bylaw.

The requested report shall be listed in the warrant article "Reports of Boards/Committees" and may be given orally or as a written document.

Karl B. Thober, Precinct 4

MAY 5, 2011 SPECIAL TOWN MEETING

ARTICLE 1

To see if the Town of Framingham will vote to request that their Federal and State Representatives and Senators file legislation that will eliminate all unfunded State & Federal mandates. Further, the Town Meeting instructs the Moderator to notify all Massachusetts Towns of Framingham's action.

Pass any vote or take any action in relation thereto.

Sponsor: Steven Hakar / Citizen Petition

May 5, 2011 Voted: That the Town of Framingham through its Representative Town Meeting request that their Federal and State Representatives and Senators file legislation that will eliminate all unfunded State and Federal mandates; and further, that said Representative Town Meeting instruct the Town Manager to notify all Massachusetts Towns of Framingham's requests to file such legislation.

Furthermore, that the Selectmen provide a report to Town Meeting by the 2012 Annual Town Meeting as to whom such petition was sent and when.

ARTICLE 2

To see if the Town of Framingham will vote to request that their State Senator and State Representatives file legislation that will allow either the MBTA and/or any State approved Bus Company in Massachusetts to purchase for any community School Buses at a pass through price and to provide a maintenance contract for said Buses.

Pass any vote or any action relative thereto.

Sponsor: Steven Hakar / Citizen Petition

May 5, 2011 Voted: That this article be referred back to the Sponsor.

ARTICLE 2 – ADDITIONAL MOTIONS/AMENDMENTS

May 5, 2011 Not Voted Due to Passed Motion to Refer Back: "I move that the Town of Framingham through its Representative Town Meeting vote to request that their State Senator and State Representatives file legislation that will allow either the MBTA and/or any State approved Bus Company in Massachusetts to purchase for any city, town or school district School Buses at a pass-through price to provide a maintenance contract for said Buses."

Kevin P. Crotty, Precinct 7

ARTICLE 3

To see if the Town will vote to authorize the School Department and/or Chief Procurement Officer to enter into a contract or contracts for School Bus Transportation Services for a period

not to exceed five (5) years in accordance with the Massachusetts General Laws.

Pass any vote or take any action relative thereto.

Sponsor: School Department

May 5, 2011 Voted: That the School Department and/or Chief Procurement Officer be authorized to enter into a contract or contracts for School Bus Transportation Services for a

period not to exceed five (5) years in accordance with the Massachusetts General Laws.

ARTICLE 3 – ADDITIONAL MOTIONS/AMENDMENTS

May 5, 2011 Failed: "I move to refer Art. 3 back to Sponsor."

Peter DeVito, Precinct 6

ARTICLE 4

To see if the Town of Framingham will vote to authorize the Board of Selectmen to enter into a contract or contracts for the disposal of Municipal Solid Waste for a period not to exceed five (5) years.

Sponsor: Board of Selectmen

Pass any vote or take any action relative thereto.

May 10, 2011 Voted: That the Board of Selectmen be authorized to enter into a contract or

contracts for the disposal of Municipal Solid Waste for a period not to exceed five (5) years.

ARTICLE 5

To see if the Town will vote to authorize the Board of Selectmen to grant easements to Framingham State University for purposes of installing, operating, and maintaining utility pipes, said easements to be located in portions of State Street and Maynard Road, upon such terms and

conditions as the Board of Selectmen shall determine to be appropriate.

Pass any vote or take any action in relation thereto.

Sponsor: Board of Selectmen

252

May 10, 2011 Voted: That the Board of Selectmen be authorized to grant easements to Framingham State University for purposes of installing, operating, and maintaining utility pipes, said easements to be located in portions of State Street and Maynard Road, upon such terms and conditions as the Board of Selectmen shall determine to be appropriate.

139 voting in favor, 0 opposed.

ARTICLE 6

To see if the Town will vote to amend the General Bylaws Article V, Section 4 "Framingham Emergency Management Agency" as set forth in the background materials.

Pass any vote or take any action in relation thereto.

Sponsor: Board of Selectmen

May 10, 2011 Voted: That the General Bylaws, Article V, Section 4 "Framingham Emergency Management Agency" be amended by changing the title of Section 4.1.2 to be "Local Emergency Planning Committee (LEPC)/Regional Emergency Planning Committee (REPC)" and by adding the words "or to affiliate with a Regional Emergency Planning Committee (REPC)" after the words "Local Emergency Planning Committee (LEPC)" in the first sentence of Section 4.1.2 and by adding the words "or Regional Emergency Planning Committee" after the words "Local Emergency Planning Committee" in the second sentence of Section 4.1.2.

Approved by the Attorney General on June 15, 2011

JUNE 21, 2011 SPECIAL TOWN MEETING

ARTICLE 1

To see if the Town of Framingham will vote to take immediate action that proves necessary by issuing bills and to take any further action to collect the following sewer accounts and/or service providers the maximum that might be owed: The Service Provider Massachusetts Water Resources Authority (MWRA) and/or their survivor. The Account#2004053500 both head 1 & 2 Cochituate State Park and/or their survivor. The Account #13505002000 Paine Furniture and/or their survivor. The Accounts #2101298000 & #2101298100 Continental Baking and/or their survivor.

47 voting in favor, 63 opposed.

ARTICLE 1 – ADDITIONAL MOTIONS/AMENDMENTS

June 21, 2011 Failed: "On behalf of the Standing Committee on Ways and Means, I move to refer Article 1 back to the Sponsor."

Teri S. Banerjee, Precinct 1

ARTICLE 2

To see if the Town of Framingham will vote to request that their Framingham State Representatives and State Senator file legislation to allow Framingham to split between the General Fund (Taxpayers) and the Enterprise Fund (Fee Payers) any revenues received from their effort to collect monies owed from 1968 to date from any of their out-of-town Water and Sewer customers and/or from the Massachusetts Water Resources Authority (MWRA) for incorrect billing during the same 40+ year period.

Pass any vote or take any action relative thereto.

Sponsor: Laurence M. Schmeidler TMM Pct. 4 / Citizens Petition

June 21, 2011 Voted: That this article be referred back to Sponsor with the concurrence of the Sponsor.

ARTICLE 3

To see if the Town of Framingham will vote to instruct the Chair of their Standing Committee on Public Works (SCPW) to request from the Commonwealth of Massachusetts Department of Revenue (CMDR) Division of Local Services to allow Framingham to split between the General Fund (Taxpayers) and the Enterprise Fund (Fee Payers) any revenues received from their effort to collect monies owed from 1968 to date from any of their out-of-town Water and Sewer customers and/or from the Massachusetts Water Resources Authority (MWRA) for incorrect billing during the same 40+ year period.

Pass any vote or take any action relative thereto.

Sponsor: Laurence M. Schmeidler TMM Pct. 4 / Citizens Petition

June 21, 2011 Voted: That this article be referred back to Sponsor with the concurrence of the Sponsor.

ARTICLE 4

To see if the Town of Framingham will vote that it is the will of the Town of Framingham that the Board of Selectmen supply the Standing Committee on Public Works (SCPW) with a Special Counsel of the SCPWs choice for the purpose of taking all the steps necessary to collect any and all possible monies that might be owed to the Town of Framingham by out-of-town Water & Sewer customers and the service provider, the Massachusetts Water Resources Authority (MWRA), from 1968 to date. Said Special Counsel Contract shall be on a contingency basis.

Pass any vote or take any action relative thereto.

Sponsor: Laurence M. Schmeidler TMM Pct. 4 / Citizens Petition

June 21, 2011 Voted: That this article be referred back to Sponsor with the concurrence of the Sponsor.

OCTOBER 18, 2011 SPECIAL TOWN MEETING

ARTICLE 1

To see if the Town will vote to authorize payment of unpaid bills of prior years of the Town to be paid from the Fiscal Year 2012 departmental budgets in which they were incurred.

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer

October 18, 2011 Voted: That the Town authorize payment of the following unpaid bills of prior years of the Town. These bills are to be paid from the FY2012 departmental budget in which they were incurred.

School Department	Danaee Donovan	\$430.00
Parks Department	Verizon	\$40.64
Public Works Department	City of Newton	\$176.00

ARTICLE 2

To see if the Town will vote to amend the vote taken under Article 33 of the 2011 Annual Town Meeting, Sewer Enterprise Capital Budget, by deleting, in the first sentence, the number "\$11,579,031" and replacing it with the number "\$11,579,344", so that the first sentence of the vote will now begin as follows: "I move that town meeting vote to raise and appropriate, transfer from available funds, or borrow the sum of \$11,579,344, for the projects listed below....."

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer

October 18, 2011 Voted: That the vote taken under Article 33 of the 2011 Annual Town Meeting, Sewer Enterprise Fund Capital Budget be amended by deleting in the first sentence, the number "\$11,579,031" and replacing it with the number \$11,-579,344", so that the first sentence of the vote will now begin as follows: "I move that town meeting vote to raise and appropriate, transfer from available funds, or borrow the sum of \$11,579,344, for the projects listed below....".

137 voting in favor, 0 opposed.

ARTICLE 3

To see if the Town will vote to transfer the sum of \$3,786.61 from the handicapped parking fines receipt reserved for appropriation fund, for expenditure by the Disability Commission on projects for the benefit of persons with disabilities.

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer / Framingham Disability Commission

October 18, 2011 Voted: That the Town transfer the sum of \$3,786 from the handicap parking fines receipt reserved for appropriation fund, to be expended by the Disability Commission on projects for the benefit of people with disabilities.

ARTICLE 4

To see if the Town will vote to appropriate a sum or sums of money for off-site mitigation improvements or as otherwise agreed upon by the Town of Framingham Planning Board and Project Applicant(s) pursuant to recorded Planning Board decision(s).

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer

October 18, 2011 Voted: That the Town appropriate \$10,000 received from Dixon, Inc. for off-site mitigation improvements for its project at 34 Cochituate Road, for purposes of implementing the Master Plan, as determined by the Planning Board.

ARTICLE 5

To see if the Town will vote to raise and appropriate or transfer from available funds any monies required for the cost items in any Collective Bargaining Agreements that have been settled with Town employees and their corresponding salary schedules.

Pass any vote or take any action relative thereto.

Sponsor: Human Resources / Chief Financial Officer

November 1, 2011 Voted: That the Town approve the following Collective Bargaining Agreements that have been settled with Town employees:

Framingham School Police Mass Laborers' International Union – School Crossing Guards

Further, that the Town amend the Pay Schedules of the Town by striking the following pay schedule:

Schedule CG – School Crossing Guards

And adopting in its place the proposed pay schedule as presented to the Special Town Meeting of October 18, 2011 effective July 1, 2010 (FY11); July 1, 2011 (FY12) and July 1, 2012 (FY13):

Schedule CG – School Crossing Guards

Further, that the Town transfer \$5,882 from the Miscellaneous/Unclassified Division Salary Reserve to the Police Division.

ARTICLE 6

To see if the Town will vote to adopt amended salary schedules for non-union personnel (M) and Division Head (DH) classifications.

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer

November 1, 2011 Voted: That the Town amend the Pay Schedules of the Town by striking the following pay schedules:

Schedule M37.5 – Municipal Employees Schedule M40 – Municipal Employees Schedule DH – Division Heads

And adopting in their places the proposed pay schedules as presented to the Special Town Meeting of October 18, 2011 effective July 1, 2010 (FY11) and July 1, 2011 (FY12):

Schedule M37.5 – Municipal Employees Schedule M40 – Municipal Employees Schedule DH – Division Heads

Further, that the Town transfer \$157,184 from the Miscellaneous/Unclassified Division Salary Reserve as follows:

\$5,404	Fire Division
\$7,912	Police Division
\$27,396	Public Works Division
\$14,392	Elected Boards Division
\$16,623	General Government Division
\$11,168	Parks Division
\$25,575	Finance Division
\$15,923	Inspectional Services Division
\$9,279	Board of Health Division
\$7,523	Community & Economic Development Division
\$11,239	Technology Services Division
\$4,750	Human Resources Division

ARTICLE 6 – ADDITIONAL MOTIONS/AMENDMENTS

November 1, 2011 Passed: On behalf of the standing committee on Ways and Means, I move that the personnel board report to town meeting, after the Fall 2011 town meeting, the board's recommendations on warrant articles relating to changes to the classification plan and pay plans (salary schedules).

Audrey Hall, Precinct 3

November 1, 2011 Passed: On behalf of the standing committee on Ways and Means, I move that town management bring a reworked classification plan to town meeting at the annual town meeting 2012.

Audrey Hall, Precinct 3

ARTICLE 7

To see if the Town will vote to authorize Fiscal Year 2012 general fund budget transfers.

Pass any vote or take any action relative thereto.

Sponsor: Chief Financial Officer

November 1, 2011 Voted: That the voted FY12 Annual Budget be amended as identified by the CFO in the document titled Recommended FY12 Budget Adjustments: Article 7 as follows:

ARTICLE 8 – ADDITIONAL MOTIONS/AMENDMENTS

November 1, 2011 Failed: "I move that Town Meeting reconsider Article 8".

David T. Marks, Precinct 16

ARTICLE 9

To see if the town will vote to appropriate funds to purchase, rent or lease an Electronic Voting Tally and Display System and related equipment for use in voting at Town Meeting and to contract for operations support during the Town Meetings.

Pass any vote or take any action relative thereto.

Sponsor: Rules Committee

October 19, 2011 Voted: That the Town lease/rent for 2 years an Electronic Tally and Display System including operations support; and further, that the Town raise and appropriate \$11,500 in the Fiscal 2012 Moderator's budget for the said purposes.

ARTICLE 9 – ADDITIONAL MOTIONS/AMENDMENTS

October 19, 2011 Failed: "I move to refer Article 9 back to the Sponsor."

Arsene Bajakian, Precinct 11

ARTICLE 10

To see if the Town will hear reports from the Chief Financial Officer on the following:

- 1. A report on the long-term financial forecast of revenue and major expense increases,
- 2. Transfers made by the Finance Committee from the Reserve Fund during the previous fiscal year,
- 3. Transfers made during the previous fiscal year from the budget of one department to the budget for another department by the Division Directors responsible for both departments,
- 4. The final budget and actual expenses for each budget category for the 2011 fiscal year,
- 5. The count of Full-Time Equivalent (FTE) staff employed in each department as of the end of the 2011 fiscal year,
- 6. All revenue received by each department, including the School Department, during the 2011 fiscal year from all grants or other funding sources not included in the operating budget;

and to hear a report from the Planning Board on Zoning By-law changes sent to the Attorney General since the previous Annual Town Meeting;

and to hear a report from the Town Clerk on Town By-law changes sent to the Attorney General since the previous Annual Town Meeting;

and to hear reports from the Board of Selectmen on the following:

- 1. The request that the legislature exempt Framingham from Chapter 32B Section 19 coalition bargaining (Article 13, October 19, 2010),
- 2. The building permit application and the internal review process for such applications (Resolution May 25, 2011 by Ned Price).

In addition, any Department, Board, Committee, or Commission may make a report to Town Meeting.

Reports may be presented to Town Meeting Members under the article or made in written form and placed on the table for Town Meeting Members.

Pass any vote or take any action relative thereto.

Sponsor: Rules Committee

October 18, 2011 Voted: That the Town hear reports from various Departments, Boards, Committees and Commissions as indicated in the warrant article.

Further, that after all reports are given, this article is disposed.

ARTICLE 11

To see if the town will amend the Town by-laws Article III, Section 2 on Standing Committees by amending Section 2.5 concerning conduct of members on Standing Committees.

Pass any vote or take any action relative thereto.

Sponsor: Rules Committee

October 19, 2011 Voted: That the Town Bylaws, Article III, Section 2 on Standing Committees be amended by replacing Section 2.5 with the following:

- 2.5 The Standing Committee shall meet following the receipt of the Warrant Articles from the Board of Selectmen, but prior to the start of a Town Meeting.
 - 2.5.1 A Standing Committee shall consider all articles within the scope of the Committees' authority and shall prepare recommendations to the Town Meeting as to the action to be taken thereon.
 - 2.5.2 If a Town Meeting Member on a Standing Committee also is a member of a board, commission, committee or other governmental unit associated with that Standing Committee as set forth in Article III, Section 2.1.2, then the member shall notify the members of the Standing Committee of this dual membership. The member shall give this notification at the first meeting of the Standing

Committee following each Annual Town Meeting or at the first meeting after such a condition exists.

Approved by the Attorney General on February 10, 2012

ARTICLE 11 – ADDITIONAL MOTIONS/AMENDMENTS

October 19, 2011 Passed: "Under 2.5.2, add at the end of the first sentence:

Employees of a Town Department that comes under the area of interest of the standing committee should also declare their employment status."

C. Patrick Dunne, Precinct 9

ARTICLE 12

To see if Town Meeting will amend the Framingham General By-laws Article I, Section 2, Paragraph 2.3 by inserting after the words "no earlier the 7:00 p.m." the words ",or no earlier than 6:30 p.m. during the period from the date a Town Meeting commences until the date the Town Meeting is dissolved."

Pass any vote or take any action relative thereto.

Subject: Planning Board Report to Town Meeting on Article 15, Rezoning of Lands

Date: October 17, 2011

The Planning Board held a Public Hearing on October 6, 2011 to consider Article 15, as provided in the October 18, 2011 Special Town Meeting Warrant. Through the public hearing process the Article was amended, and on October 6, 2011, the Planning Board voted 5 in favor and 0 opposed to recommend favorable action on Article 15 as modified through the public hearing process and as presented in the handout submitted at Fall Special Town Meeting.

The modification approved by the Planning Board reduces the area of land proposed for B-2 at 7 Lindbergh Road. The revised zoning map amendment is as follows.

To see if the Town will vote to amend the Framingham Zoning Map by rezoning the following parcels: 474, 480, 486, 492, 498 and 506 Concord Street, and that portion of Concord Street and Lindbergh Road abutting said lots to the centerline of Concord Street and Lindbergh Road, and that portion of 7 Lindbergh Road that is located to the north of a line running parallel 20 feet from the back property line of 9 Lindbergh Road and continuing along in a straight line to the lot line of 480 Concord Street, from General Business District (B) and Single Family Residence District (R-1), to Community Business District (B-2), as presented in the handout to Town Meeting.

Background Information

The area to be rezoned includes the properties on the West Side of Concord Street between Lindbergh Road and the Framingham Fire Station. One property fronts on Lindbergh Road. See aerial map and revised zoning map handouts.

Existing Uses and Property Information

Property Address: 474 Concord Street	
Current Zoning: General Business	Proposed Zoning: Community Business (B-2)
Land Area: 10,528 square feet	Current use: Auto Repair

Property Address: 480 Concord Street	
Current Zoning: General Business	Proposed Zoning: Community Business (B-2)
Land Area: 9,930 square feet	Current use: Parking Lot

Property Address: 486 Concord Street	
Current Zoning: Split Zoning B and R-1	Proposed Zoning: Community Business (B-2)
Land Area: 10,219 square feet	Current use: Restaurant

Property Address: 492 Concord Street	
Current Zoning: Slit Zoning B and R-1	Proposed Zoning: Community Business (B-2)
Land Area: 9,706 square feet	Current use: Single Family Residential

Property Address: 498 Concord Street	
Current Zoning: Slit Zoning B and R-1	Proposed Zoning: Community Business (B-2)
Land Area: 27,022 square feet	Current use: General Office

Property Address: 506 Concord Street	
Current Zoning: General Business	Proposed Zoning: Community Business (B-2)
Land Area: 12,708 square feet	Current use: Gas Station

Property Address: 7 Lindbergh Road	
Current Zoning: Single Family Residential R-1	Proposed Zoning: Rezone a portion to B-2
Land Area: 14,928 square feet	Current use: Single Family Residential

What B-2 Proposes to do (Framingham Zoning By-Law)

- To preserve business uses which serve nearby residential neighborhoods
- To foster compact commercial centers served primarily by automobiles, yet accessible and inviting to pedestrians
- To contain general business areas consisting of small shopping centers and commercial strips.
- To encourage improved visual quality of commercial development

Allowed uses in B-2 (Framingham Zoning By-Law)

- Business by right include all uses permitted in B-1 District, as well as fraternal organizations, workshops and repair establishments, trade/professional schools, health and exercise facilities with not more than 8,000 square feet.
- Special permit required for fast food restaurants (drive-thrus are not permitted in B-2 District), gas stations, indoor entertainment, R&D, off-street parking lots, radio or T.V. studios, landscapers, conversion of non-commercial structures into boarding houses, in addition to uses over 8,000 square feet, and uses requiring a special permit in B-1 District, unless otherwise specified.

Factors to Consider

• The General Business District is our most permissive business district allowing 6 story structures, fast food drive-thru facilities and similar intensive uses. In B-2, the height limitation is 3 stories or 40 feet.

- The nonconforming uses in the residentially zoned portion of the properties have been in existence for several decades. Conditions of any existing variances on the site are in all likelihood limited in protecting the abutting residential properties.
- In the B-2 District no individual establishment or building shall exceed 8,000 square feet in gross floor area per establishment or building without special permit approval.
- In the B-2 District no individual establishment shall exceed 50,000 square feet in gross floor area and no building shall exceed 60,000 square feet in gross floor area per.
- For redevelopment project, the Planning Board requires Applicant's to make significant on-site improvements, including but not limited to, landscape buffers and screening, as well as off-site traffic improvements.
- The proposed rezoning to B-2 would encourage uses that are more compatible with residential neighborhoods than the current General Business District.

Land Use Policy Plan

- Policy 3: Protect and enhance the character of the Town's business by establishing a hierarchy of
 business districts in the zoning bylaw with development standards appropriate to the differing
 roles played by the Town's commercial centers.
- Policy 8: Improve the efficiency and environment of business areas by upgrading zoning standards to encourage concentrated rather than strip development, lessen traffic congestion, reduce the need for auto travel between activities, and avoid incompatible uses.
- Policy 42: Encourage improved visual quality of commercial development.

Community Meetings and Public Hearing

- Community Meeting was held on September 20, 2011 with approximately 15 attendees. Notices were sent to every household on Lindbergh Street and Hampshire Road and to businesses and residences on Concord Street in the immediate vicinity of the properties to be rezoned.
- Planning Board Public Hearing was held on October 6, 2011 at 7:45 in the Ablondi Room at the Memorial Building, 150 Concord Street.
- The Planning Board Director met directly with the owners of the properties proposed to be rezoned.
- Notice of the public hearing was sent to residents adjacent to the properties to be rezoned.

Public Comment~ Based on the October 6, 2011, Planning Board Public Hearing

• A resident expressed his concern with the proposed layout of 7 Linburgh Street and suggested a lot line shift furter over to allow more of the lot to remain in the residential zone.

- Residents from Hampshire Road asked questions about the size of the required buffer zones, safty issues with increased traffic on roadways and 24 hour establishments coming to that area.
- Concern with the unknown possibilities of what kind of development could occur at this location.
- Comments were also made in support of the proposed zoning amendment

Recommendation

- The Planning Board recommends that the properties in question be zoned from General Business (B) District and Single Family Residential (R-1) District to Community Business (B-2) District.
- The Planning Board recommends that the B-2 District designation include the entire portion of these properties, and that the rear portion of the lots not be zoned R-1 District, except for a portion of 7 Lindbergh Road. These are relatively small parcels. On-site parking should be available to serve the commercial uses.
- These properties have less opportunity for improvement, due to the current split zoning. The proposed
 B-2 District zoning would likely facilitate re-development of these parcels over time with neighborhood based services and provide needed increased tax revenues to the town.
- Any future redevelopment of these properties under the B-2 would provide the
 opportunity for the Planning Board through the review process to require
 substantial site improvements such as, but not limited to: buffering and screening of
 parking areas and other business related operations from residential areas, as well as
 streetscape improvements, pedestrian improvements, and off-site traffic
 improvements.
- Based on the public hearing, the Planning Board recommends a modification to the proposed zoning map amendment under Article 15, in order to retain a greater portion of the property at 7 Lindbergh Road in the R-1 District, as shown on the revised zoning map handout.
